Film stocks are vanishing, but the iconic images of the silver screen remain -- albeit in new, sleeker formats. Today, viewers can instantly stream movies on televisions, computers, and smartphones. Gone are the days when films could only be seen in theaters or rented at video stores: movies are now accessible at the click of a button, and there are no reels, tapes, or discs to store. Any film or show worth keeping may be collected in the virtual cloud and accessed at will through services like Netflix, Hulu, and Amazon Instant. The movies have changed, and we are changing with them. The ways we communicate, receive information, travel, and socialize have all been revolutionized. In *Streaming*, Wheeler Winston Dixon reveals the positive and negative consequences of the transition to digital formatting and distribution, exploring the ways in which digital cinema has altered contemporary filmmaking and our culture. Many industry professionals and audience members feel that the new format fundamentally alters the art, while others laud the liberation of the moving image from the "imperfect" medium of film, asserting that it is both inevitable and desirable. Dixon argues that the change is neither good nor bad; it's simply a fact. Hollywood has embraced digital production and distribution because it is easier, faster, and cheaper, but the displacement of older technology will not come without controversy. This groundbreaking book illuminates the challenges of preserving media in the digital age and explores what stands to be lost, from the rich hues of traditional film stocks to the classic movies that are not profitable enough to offer in streaming formats. Dixon also investigates the financial challenges of the new distribution model, the incorporation of new content such as webisodes, and the issue of ownership in an age when companies have the power to pull purchased items from consumer devices at their own discretion. *Streaming* touches on every aspect of the shift to digital production and distribution. It explains not only how the new technology is affecting movies, music, books, and games, but also how instant access is permanently changing the habits of viewers and influencing our culture.

The rise of cinema as the predominant American entertainment around the turn of the last century coincided with the migration of hundreds of thousands of African Americans from the South to the urban "land of hope" in the North. This richly illustrated book, discussing many early films and illuminating black urban life in this period, is the first detailed look at the numerous early relationships between African Americans and cinema. It investigates African American migrations onto the screen, into the audience, and behind the camera, showing that African American urban populations and cinema shaped each other in powerful ways. Focusing on Black film culture in Chicago during the silent era, *Migrating to the Movies* begins with the earliest cinematic representations of African Americans and concludes with the silent films of Oscar Micheaux and other early "race films" made for Black audiences, discussing some of the extraordinary ways in

which African Americans staked their claim in cinema's development as an art and a cultural institution.

From the glossy monochrome of the classic Hollywood romance, to the gritty greyscale of the gangster picture, to film noir's moody interplay of light and shadow, black-and-white cinematography has been used to create a remarkably wide array of tones. Yet today, with black-and-white film stock nearly impossible to find, these cinematographic techniques are virtually extinct, and filmgoers' appreciation of them is similarly waning. *Black and White Cinema* is the first study to consider the use of black-and-white as an art form in its own right, providing a comprehensive and global overview of the era when it flourished, from the 1900s to the 1960s. Acclaimed film scholar Wheeler Winston Dixon introduces us to the masters of this art, discussing the signature styles and technical innovations of award-winning cinematographers like James Wong Howe, Gregg Toland, Freddie Francis, and Sven Nykvist. Giving us a unique glimpse behind the scenes, Dixon also reveals the creative teams—from lighting technicians to matte painters—whose work profoundly shaped the look of black-and-white cinema. More than just a study of film history, this book is a rallying cry, meant to inspire a love for the artistry of black-and-white film, so that we might work to preserve this important part of our cinematic heritage. Lavishly illustrated with more than forty on-the-set stills, *Black and White Cinema* provides a vivid and illuminating look at a creatively vital era.

Dark History of Hollywood Amber Books Ltd

From ancient Egypt to the Tudors to the Nazis, the film industry has often defined how we think of the past. But how much of what you see on the screen is true? And does it really matter if filmmakers just make it all up? Picking her way through Hollywood's version of events, acclaimed historian Alex von Tunzelmann sorts the fact from the fiction. Along the way, we meet all our favourite historical characters, on screen and in real life: from Cleopatra to Elizabeth I, from Spartacus to Abraham Lincoln, and from Attila the Hun to Nelson Mandela. Based on the long-running column in the *Guardian*, *Reel History* takes a comic look at the history of the world as told through the movies - the good, the bad, and the very, very ugly.

How Movies Work Henry Holt and Company

The year was 1896, the woman was Alice Guy-Blaché, and the film was *The Cabbage Fairy*. It was less than a minute long. Guy-Blaché, the first female director, made hundreds of movies during her career. Thousands of women with passion and commitment to storytelling followed in her footsteps. Working in all aspects of the movie industry, they collaborated with others to create memorable images on the screen. This book pays tribute to the spirit, ambition, grit and talent of these filmmakers and artists. With more than 1200 women featured in the book, you will find names that

everyone knows and loves—the movie legends. But you will also discover hundreds and hundreds of women whose names are unknown to you: actresses, directors, stuntwomen, screenwriters, composers, animators, editors, producers, cinematographers and on and on. Stunning photographs capture and document the women who worked their magic in the movie business. Perfect for anyone who enjoys the movies, this photo-treasury of women and film is not to be missed.

A Film-by-Film Look at the Art, Craft, and Business of Cinema Simon and Schuster

From the internationally bestselling author of *The Etymologicon*, a lively and fascinating exploration of how, throughout history, each civilization has found a way to celebrate, or to control, the eternal human drive to get sloshed “An entertaining bar hop though the past 10,000 years.”—*The New York Times Book Review* Almost every culture on earth has drink, and where there’s drink there’s drunkenness. But in every age and in every place drunkenness is a little bit different. It can be religious, it can be sexual, it can be the duty of kings or the relief of peasants. It can be an offering to the ancestors, or a way of marking the end of a day’s work. It can send you to sleep, or send you into battle. Making stops all over the world, *A Short History of Drunkenness* traces humankind’s love affair with booze from our primate ancestors through to the twentieth century, answering every possible question along the way: What did people drink? How much? Who did the drinking? Of the many possible reasons, why? On the way, learn about the Neolithic Shamans, who drank to communicate with the spirit world (no pun intended), marvel at how Greeks got giddy and Sumerians got sauced, and find out how bars in the Wild West were never quite like in the movies. This is a history of the world at its inebriated best.

In *A History of American Movies: A Film-by-Film Look at the Art, Craft and Business of Cinema*, Paul Monaco provides a survey of the narrative feature film from the 1920s to the present. The book focuses on 170 of the most highly regarded and recognized feature films selected by the Hollywood establishment: each Oscar winner for Best Picture, as well as those voted the greatest by members of the American Film Institute. By focusing on a select group of films that represent the epitome of these collaborations, Monaco provides an essential history of one of the modern world’s most complex and successful cultural institutions: Hollywood. Divided into three sections, “Classic Hollywood, 1927-1948,” “Hollywood In Transition, 1949-1974,” and “The New Hollywood, 1975 To The Present,” Monaco examines some of the most memorable works in cinematic history, including *The General*, *Wings*, *Bringing Up Baby*, *Gone with the Wind*, *Citizen Kane*, *Casablanca*, *On the Waterfront*, *The Searchers*, *Psycho*, *West Side Story*, *The Godfather*, *Cabaret*, *Raging Bull*, *Rain Man*, *Toy Story*, and *Saving Private Ryan*. This is the only book that thoroughly treats Hollywood—and the most significant movies that it has made—simultaneously as the coming together of an art, a craft, and a business. This approach provides unique insight into the workings of one of the most accomplished and successful art forms in human history: the Hollywood feature film.

American Cinema of the 1940s Rutgers University Press

The 1940s was a watershed decade for American cinema and the nation. Shaking off the grim legacy of the Depression, Hollywood launched an unprecedented wave of production, generating some of its most memorable classics. Featuring essays by a group of respected film scholars and historians,

Illustrated with many rare stills and filled with provocative insights, the volume will appeal to students, teachers, and to all those interested in cultural history and American film of the twentieth century.

The World According to the Movies Oldcastle Books

Lawrence of Arabia, The Miracle Worker, To Kill a Mockingbird, The Manchurian Candidate, Gypsy, Sweet Bird of Youth, The Longest Day, The Music Man, What Ever Happened to Baby Jane, and more. Most conventional film histories dismiss the early 1960s as a pallid era, a downtime between the heights of the classic studio system and the rise of New Hollywood directors like Scorsese and Altman in the 1970s. It seemed to be a moment when the movie industry was floundering as the popularity of television caused a downturn in cinema attendance. Cinema '62 challenges these assumptions by making the bold claim that 1962 was a peak year for film, with a high standard of quality that has not been equaled since. Stephen Farber and Michael McClellan show how 1962 saw great late-period work by classic Hollywood directors like John Ford, Howard Hawks, and John Huston, as well as stars like Bette Davis, James Stewart, Katharine Hepburn, and Barbara Stanwyck. Yet it was also a seminal year for talented young directors like Sidney Lumet, Sam Peckinpah, and Stanley Kubrick, not to mention rising stars like Warren Beatty, Jane Fonda, Robert Redford, Peter O'Toole, and Omar Sharif. Above all, 1962—the year of To Kill a Mockingbird and The Manchurian Candidate—gave cinema attendees the kinds of adult, artistic, and uncompromising visions they would never see on television, including classics from Fellini, Bergman, and Kurosawa. Culminating in an analysis of the year's Best Picture winner and top-grossing film, Lawrence of Arabia, and the factors that made that magnificent epic possible, Cinema '62 makes a strong case that the movies peaked in the Kennedy era.

In 1969, a low-budget biker movie, Easy Rider, shocked Hollywood with its stunning success. An unabashed celebration of sex, drugs, and rock 'n' roll (onscreen and off), Easy Rider heralded a heady decade in which a rebellious wave of talented young filmmakers invigorated the movie industry. In Easy Riders, Raging Bulls, Peter Biskind takes us on the wild ride that was Hollywood in the '70s, an era that produced such modern classics as The Godfather, Chinatown, Shampoo, Nashville, Taxi Driver, and Jaws. Easy Riders, Raging Bulls vividly chronicles the exuberance and excess of the times: the startling success of Easy Rider and the equally alarming circumstances under which it was made, with drugs, booze, and violent rivalry between costars Dennis Hopper and Peter Fonda dominating the set; how a small production company named BBS became the guiding

spirit of the youth rebellion in Hollywood and how, along the way, some of its executives helped smuggle Huey Newton out of the country; how director Hal Ashby was busted for drugs and thrown in jail in Toronto; why Martin Scorsese attended the Academy Awards with an FBI escort when Taxi Driver was nominated; how George Lucas, gripped by anxiety, compulsively cut off his own hair while writing Star Wars, how a modest house on Nicholas Beach occupied by actresses Margot Kidder and Jennifer Salt became the unofficial headquarters for the New Hollywood; how Billy Friedkin tried to humiliate Paramount boss Barry Diller; and how screenwriter/director Paul Schrader played Russian roulette in his hot tub. It was a time when an "anything goes" experimentation prevailed both on the screen and off. After the success of Easy Rider, young film-school graduates suddenly found themselves in demand, and directors such as Francis Coppola, Peter Bogdanovich, George Lucas, and Martin Scorsese became powerful figures. Even the new generation of film stars - - Nicholson, De Niro, Hoffman, Pacino, and Dunaway -- seemed a breed apart from the traditional Hollywood actors. Ironically, the renaissance would come to an end with Jaws and Star Wars, hugely successful films that would create a blockbuster mentality and crush innovation. Based on hundreds of interviews with the directors themselves, producers, stars, agents, writers, studio executives, spouses, and ex-spouses, this is the full, candid story of Hollywood's last golden age. Never before have so many celebrities talked so frankly about one another and about the drugs, sex, and money that made so many of them crash and burn. By turns hilarious and shocking, Easy Riders, Raging Bulls is the ultimate behind-the-scenes account of Hollywood at work and play.

At a time when the studio is making a stunning comeback, film historian Thomas Schatz provides an indispensable account of Hollywood's traditional blend of business and art. This book lays to rest the persistent myth that businesspeople and producers stifle artistic talent and reveals instead the genius of a system of collaboration and conflict. Working from industry documents, Schatz traces the development of house styles, the rise and fall of careers, and the making-and unmaking-of movies, from Frankenstein to Spellbound to Grand Hotel. Richly illustrated and highly readable, The Genius of the System gives the definitive view of the workings of the Old Hollywood and the foundations of the New.
