From the author of *The Changing Mind* and *The Organized Mind* comes a New York Times bestseller that unravels the mystery of our perennial love affair with music ***** 'What do the music of Bach, Depeche Mode and John Cage fundamentally have in common?' Music is an obsession at the heart of human nature, even more fundamental to our species than language. From Mozart to the Beatles, neuroscientist, psychologist and internationally-bestselling author Daniel Levitin reveals the role of music in human evolution, shows how our musical preferences begin to form even before we are born and explains why music can offer such an emotional experience. In *This Is Your Brain On Music* Levitin offers nothing less than a new way to understand music, and what it can teach us about ourselves. ***** 'Music seems to have an almost wilful, evasive quality, defying simple explanation, so that the more we find out, the more there is to know . . . Daniel Levitin's book is an eloquent and poetic exploration of this paradox' Sting 'You'll never hear music in the same way again' *Classic FM* magazine 'Music, Levitin argues, is not a decadent modern diversion but something of fundamental importance to the history of human development' *Literary Review*

Of all the repertoires of Western Art music, none is as explicitly listener-oriented as that of the late eighteenth and early nineteenth centuries. Yet few attempts to analyze the so-called Classic Style have embraced the semiotic implications of this condition. *Playing with Signs* proposes a listener-oriented theory of Classic instrumental music that encompasses its two most fundamental communicative dimensions: expression and structure. Units of expression, defined in reference to topoi, are shown here to interact with, confront, and merge into units of structure, defined in terms of the rhetorical conventions of beginning, continuing, and ending. The book draws on examples from works by Mozart, Haydn, and Beethoven to show that the explicitly referential, even theatrical, surface of Classic music derives from a play with signs. Although addressed primarily to readers

interested in musical analysis, the book opens up fruitful avenues for further research into musical semiotics, aesthetics, and Classicism. Originally published in 1991. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. Three Hungarian Folksongs from Csik - Sheet Music for Piano Kalmus Edition

How did a musical instrument transplanted to South America by European missionaries earn the official designation as Paraguay's cultural national symbol? This ethnomusicological and organological study of the Paraguayan diatonic harp in the twentieth century tells its story as an emblematic national musical instrument. First used liturgically by Jesuit missions in colonial times, the transplanted European diatonic harp was transformed and adopted into the folk music vocabulary of Paraguay and the Rio de la Plata region. Following the commercial success of Paraguayan harpist Felix Perez Cardozo in the 1930s in Argentina, the instrument's symbolic value as an icon of social, cultural, and national identity was articulated in local traditions such as popular folk music festivals. It received the designation of arpa paraguaya (Paraguayan harp) and, in 2010, official recognition as simbolo de la cultura nacional (cultural national symbol). The book integrates an account of the historical and musical development of the diatonic harp in Paraguay, an analysis of the musical contributions by harp composers and performers, a survey of the various traditional genres associated with the instrument, and a discussion of the popular and academic settings where the instrument has been cultivated and performed in the twentieth and twenty-first centuries. The author's fieldwork in Paraguay and continuous contact with composers, educators, festival organizers, harp performers, researchers, and festival organizers have provided unique insights into the development of the Paraguayan harp tradition as a cultural icon of the nation. This book will be of interest to a large and varied audience, including scholars and professionals in the fields of musicology and ethnomusicology, Latin American specialists, historians, libraries, harp performers and other musicians, and general readers interested in the history of musical instruments and culture.

"I am your accompanist. You do not know me. I am the guy who sits behind the upright in the unflattering fluorescent light of the dance studio, a bottle of water on the floor, a half-eaten Power Bar on the bench, and your audition in my hands." Award-winning New York theatre composer and pianist Andrew Gerle pulls no punches in this irreverent, fly-on-the-wall guide to everything you've never been taught about auditioning for musical theatre. From the unique perspective of the pianist's bench, he demystifies the audition process, from how to put together your book and speak to an accompanist to the healthiest and savviest ways to approach the audition marketplace and your career. By better understanding the dynamics of professional auditions, you will learn to present yourself in the strongest, most castable way while remaining true to your own special voice - the one that, in the end, will get you the job.

A reference guide to the vast array of art song literature and composers from Latin America, this book introduces the music of Latin America from a singer's perspective and provides a basis for research into the songs of this richly musical area of the world. The book is divided by country into 22 chapters, with each chapter containing an introductory essay on the music of the region, a catalog of art songs for that country, and a list of publishers. Some chapters include information on additional sources. Singers and teachers may use descriptive annotations (language, poet) or pedagogical annotations (range, tessitura) to determine which pieces are appropriate for their voices or programming needs, or those of their students. The guide will be a valuable resource for vocalists and researchers, however familiar they may be with this glorious repertoire.

Jorge Luis Borges (1899-1986) is Argentina's most celebrated author. This volume brings together for the first time the numerous contexts in which he lived and worked; from the history of the Borges family and that of modern Argentina, through two world wars, to events including the Cuban Revolution, military dictatorship, and the Falklands War. Borges' distinctive responses to the Western tradition, Cervantes and Shakespeare, Kafka, and the European avant garde are explored, along with his appraisals of Sarmiento, gauchesque literature and other strands of the Argentine cultural tradition. Borges' polemical stance on Catholic integralism in early twentieth-century Argentina is accounted for, whilst chapters on Buddhism, Judaism and landmarks of Persian literature illustrate Borges's engagement with the East. Finally, his legacy is visible in the literatures of the Americas, in European countries such as Italy and Portugal, and in the novels of J. M. Coetzee, representing the Global South.

Taking as a thread the concept of national identity, this book elucidates the sound transformations that have taken place in the world of the Latin American art song since its appearance in the late nineteenth century to the present day. The book focuses in the art songs of Brazil, Argentina, Cuba, Venezuela, Bolivia, Perú, and Colombia. The book addresses the subject of performance practice of the Latin American song and ends with a proposal for its interpretation. In songs, spaces of representation and cathartic tools thought, language and music have been at the service of some interests, fulfilling specific functions in the construction of the nation. In them, we observe that the construction of identity is a continuous, constant and changing process in which different stories are superimposed. Seen this way, songs are historical texts where social interactions are reflected, and the past, the present and the future are constantly negotiated. The book also addresses the subject of performance practice of the Latin American song and ends with a proposal for its interpretation.
