By several recent counts, the United States is home to 2 to 3 million youth age 16 through 24 who are out of school and out of work Much has been written on disadvantaged youth, and government policy has gone through many incarnations, yet questions remain unanswered. Why are so many young people "disconnected," and what can public policy do about it? And why has disconnection become more common for young men--particularly African-American men and low-income men--than for young women? In *Reconnecting Disadvantaged Young Men*, Edelman, Holzer, and Offner offer analysis and policy prescriptions to solve this growing crisis. They carefully examine field programs and research studies and recommend specific strategies to enhance education, training, and employment opportunities for disadvantaged youth; to improve the incentives of less-skilled young workers to accept employment; and to address the severe barriers and disincentives faced by some youth, such as ex-offenders and noncustodial fathers. The result is a clear guidebook for policymakers, and an important distillation for anyone interested in the plight of today's disconnected youth. With a foreword by Hugh Price, former President and CEO, National Urban League

"Human desire is a path to spiritual wholeness," says author Donald Boisvert, in this unusual look at how saints--and one's devotion to them--can be sites for the confirmation and celebration of homoerotic desire. The author comes to the topic as a gay scholar of religion and draws upon his own experience of saints including his years in seminary beginning at age 13. Saints can inspire desire and, through eclectic readings of their lives and imagery, the author suggests meanings and strategies attached to the emergence of same-sex attraction. The book contains 12 chapters that focus on saints, including: Michael the Archangel; Sebastian and Tarcisius; John the Baptist; Joseph; Paul and Augustine; the Ugandan and North American martyrs; Francis of Assisi; Dominic Savio and other boy saints; Damien and the missionary saints; Peter Julian Eymard and the Eucharist; and gay saints.

John Dewey's *Democracy and Education* addresses the challenge of providing quality public education in a democratic society. In this classic work Dewey calls for the complete renewal of public education, arguing for the fusion of vocational and contemplative studies in education and for the necessity of universal education for the advancement of self and society. First published in 1916, *Democracy and Education* is regarded as the seminal work on public education by one of the most important scholars of the century.

A compelling expose of the truth behind society's racial and sexual stereotypes of black men, this book offers a wide historical perspective and insights into such recent racially charged events as the Clarence Thomas hearings, the O.J. Simpson trial, and the Million Man March. Hutchinson brilliantly counters the image of black men as a population entrenched in crime, drugs, and violence.

Focuses on late 19th- and early 20th-century American society, where, the author says, "the beginnings of modern sexuality and psychology intersect with the foundations of modern womanhood..." Suffragettes demanding social and political independence were often transformed by literature and the popular press into "masculine women" and female sexual "inverts." While Judith Halberstam's *Female Masculinities* (1998), say, focused on contemporary society and the idea of male masculinity, Behling (English, Gustavus Adolphus College) exclusively addresses an earlier time when sartorial and political masculinity in relation to the female body was often interpreted as

a medical as well as political condition. Behling's documents include Gertrude Stein's early novel *Fernhurst*, Henry James' *Bostonians*, Dr. William Lee Howard's novel *The Perverts*, newspaper accounts, Hellen Hull's "Fire," Sherwood Anderson's *Poor White*, and the artwork that accompanied Djuna Barnes's satiric *Ladies Almanack*.
