New Strategies for Racetrack Betting Daily Racing Form

Thinking, and betting, like the pros "Most people in sports betting are looking at things the wrong way." - Peter Webb, founder of Bet Angel "Some people only ever seem to want to hit the sexy six, and not take the singles" - Compton Hellyer, founder of Sporting Index This is a book that teaches you how to bet on sports with the same discipline and mindset as the professionals. Lots of books and websites give advice on profitable strategies - and tipsters and systems proliferate. But this is the only guide that helps you make your trades and bank your wins for the long term, avoiding the perennial dangers of overconfidence, irrationality and emotion. However successful your selections, you are never safe from crippling losses until you know how to bet with the clear head and calm approach of the masters. The simple fact is that most people betting on sports lose over the long term. Performance errors currently hamper the majority of bettors: they lose their bets because they first lose their heads. The only answer is to think differently. With chapters ranging across motivation, performance analysis, the betting process and going pro, this book is the definitive guide to

achieving this: - Use dozens of exercises to sharpen your thinking and refine your betting processes. - Share in the exclusive insights of professional sports bettors, who reveal for the first time how they have built successful gambling careers. - Benefit in every chapter from one-to-one training from the author, a professional sports and trading performance coach. Sports Betting to Win is your own personal course for establishing a firm psychological foundation for long-term betting success.

The American Stud Book Houghton Mifflin Harcourt

Is betting a horse who was claimed last start a winning strategy? What are the signs that an upcoming favorite looks vulnerable? How about if you combine a class drop with a jockey switch? Should you bet everyone who won last out by 8 lengths or more? You may have an opinion about these handicapping questions. But wouldn't it be nice to see long-term data? What if you could analyze these topics-and dozens more-by seeing how they did in every race in North America from 2014 through 2017-some 168,227 in all? That's what *The Skeptical Handicapper: Using Data and Brains to Win at the Racetrack* is all about. Is what you believe true? Let's find out. But this book is not just a dry recitation of numbers. Author Barry Meadow-who wrote *Money Secrets at the Racetrack*, the definitive guide to money management at the races-takes you on a handicapping journey which covers virtually every question you may have about what's profitable and what isn't, and why. He should know-for more than 20 years, he was a full-time thoroughbred player. And he was a steady, big-money winner. Now he reveals for the first time what he's learned-and what can help you win. With the help of thoroughbred analytic specialist Ken Massa of Handicapping Technology and Research, he'll show you exactly how to win now and into the future. With data and facts, not just opinions. If you're serious about winning at the races today, this is the one book you must have. And only Barry Meadow could write it.

Finding an Edge Quill

This short book reveals three scenarios where long shots can be found at the race track. All three scenarios are explained in detail, and a step by step process for analyzing each one is also provided in order to help you determine whether or not the long shot is playable. Once you know how to find these potential long shots, you'll have another tool in your handicapping arsenal. Play these horses to win or use them for your exotics. This book is intended for experienced handicappers. This digital book is a work of non-fiction by Christian Blake and is 6,700 words in length. If you had read this book, you could have hit these long shots: Madi Two Shoes \$115.20 \$39.20 \$14.20 Deity (GB) \$24.20 \$13.20 \$9.80 Pocket Prince \$91.00 \$29.40 \$16.60 Black Tornado \$12.20 \$6.20 \$4.80 Tummel \$18.40 \$6.20 \$3.80 Wild In The Saddle \$19.60 \$7.80 \$4.60

Mark Cramer is at his happiest in the dim light of the off-track betting parlor, where the flickering glow of the racetrack monitors dances to the low, steady rumble of the race caller's voice. You'd feel the same if you knew what Cramer knows about thoroughbred handicapping! After years of research, observation, and ups and downs at the track, Mark Cramer has devised the most reliable system for tracking and predicting a horse's performance cycles in the history of the sport. In fact, *Thoroughbred Cycles* is the definitive work on the subject of thoroughbred form, a volume unrivaled in scope, clarity, and precision. By framing a given horse's performance as a group of histories-histories of the horse, jockey, trainer, and handicapper-the form-cycle approach to handicapping allows the horseplayer to take advantage of fluctuations in performance. In stark contrast to the other inconsistently-successful systems of projection for racehorse performance cycles, Cramer's method draws on specific aspects of a horse's performance history to yield statistically probable projections about their future performance fluctuations. Studded with engaging anecdotes that punctuate Cramer's clear and illuminating explanations of method, *Thoroughbred Cycles* is an entertaining, appealing, and educational read. We're happy to say that Mark's years of hard work and number crunching have paid off big time! For in the pages of this book you'll find the solution to the mysteries of form that have stumped horseplayers and fans for decades.
