*The House of Islam* Harvard University Press

Read Moustafa's Op-ed on Trump's Executive Order Against Muslims in The Guardian Winner of the 2016 Evelyn Shakir Non-Fiction Arab American Book Award Over the last few years, Moustafa Bayoumi has been an extra in Sex and the City 2 playing a generic Arab, a terrorist suspect (or at least his namesake "Mustafa Bayoumi" was) in a detective novel, the subject of a trumped-up controversy because a book he had written was seen by right-wing media as pushing an "anti-American, pro-Islam" agenda, and was asked by a U.S. citizenship officer to drop his middle name of Mohamed. Others have endured far worse fates. Sweeping arrests following the terrorist attacks of September 11, 2001 led to the incarceration and deportation of thousands of Arabs and Muslims, based almost solely on their national origin and immigration status. The NYPD, with help from the CIA, has aggressively spied on Muslims in the New York area as they go about their ordinary lives, from noting where they get their hair cut to eavesdropping on conversations in cafés. In This Muslim American Life, Moustafa Bayoumi reveals what the War on Terror looks like from the vantage point of Muslim Americans, highlighting the profound effect this surveillance has had on how they live their lives. To be a Muslim American today often means to exist in an absurd space between exotic and dangerous, victim and villain, simply because of the assumptions people carry about you. In gripping essays, Bayoumi exposes how contemporary politics, movies, novels, media experts and more have together produced a culture of fear and suspicion that not only willfully forgets the Muslim-American past, but also threatens all of our civil liberties in the present.

*Jihad and Death* MIT Press

In this transnational history of World War II, Kelly A. Hammond places Sino-Muslims at the center of imperial Japan's challenges to Chinese nation-building efforts. Revealing the little-known story of Japan's interest in Islam during its occupation of North China, Hammond shows how imperial Japanese aimed to defeat the Chinese Nationalists in winning the hearts and minds of Sino-Muslims, a vital minority population. Offering programs that presented themselves as protectors of Islam, the Japanese aimed to provide Muslims with a viable alternative—and, at the same time, to create new Muslim consumer markets that would, the Japanese hoped, act to subvert the existing global capitalist world order and destabilize the Soviets. This history can be told only by reinstating agency to Muslims in China who became active participants in the brokering and political jockeying between the Chinese Nationalists and the Japanese Empire. Hammond argues that the competition for their loyalty was central to the creation of the ethno-religious identity of Muslims living on the Chinese mainland. Their wartime experience ultimately helped shape the formation of Sino-Muslims' religious identities within global Islamic networks, as well as their incorporation into the Chinese state, where the conditions of that incorporation remain unstable and contested to this day.

**Khalil** Harvard University Press

Explores the genesis of Islam for insight into the nature of ideological transformation.

*Islam without Extremes: A Muslim Case for Liberty* Kube Publishing Ltd

In this brilliant look at the rise of political Islam, the distinguished political scientist and anthropologist Mahmood Mamdani brings his expertise and insight to bear on a question many Americans have been asking since 9/11: how did this happen? Mamdani dispels the idea of "good" (secular, westernized) and "bad" (premodern, fanatical) Muslims, pointing out that these judgments refer to political rather than cultural or religious identities. The presumption that there are "good" Muslims readily available to be split off from "bad" Muslims masks a failure to make a political analysis of our times. This book argues that political Islam emerged as the result of a modern encounter with Western power, and that the terrorist movement at the center of Islamist politics is an even more recent phenomenon, one that followed America's embrace of proxy war after its

defeat in Vietnam. Mamdani writes with great insight about the Reagan years, showing America's embrace of the highly ideological politics of "good" against "evil." Identifying militant nationalist governments as Soviet proxies in countries such as Nicaragua and Afghanistan, the Reagan administration readily backed terrorist movements, hailing them as the "moral equivalents" of America's Founding Fathers. The era of proxy wars has come to an end with the invasion of Iraq. And there, as in Vietnam, America will need to recognize that it is not fighting terrorism but nationalism, a battle that cannot be won by occupation. Good Muslim, Bad Muslim is a provocative and important book that will profoundly change our understanding both of Islamist politics and the way America is perceived in the world today.

*The War on Islam* Harvard University Press

"An insightful volume that takes on many of the issues confronting Muslim youth in the West, sometimes with humor, oftentimes with brutal frankness, but always with sound knowledge and great clarity."—Imam Zaid Shakir, Zaytuna Institute, California This is not just another book about Muslim youth. It is a book by young Muslims for young Muslims, addressing issues such as media, music, dating, and drugs in a language that is their own. With an introduction by Imam Zaid Shakir.

*China's Muslims and Japan's Empire* St. Martin's Essentials

"After September 11, 2001, the Global War on Terror has made clear that Islam and Muslims are central to an imperial system of racism. Prior to 9/11, white supremacy has always had a violent relationship of dominance to Islam and Muslims. Racism against Muslims today borrows from centuries of white supremacy and is a powerful and effective tool to maintain the status quo. With Stones in Our Hands compiles writings by scholars and activists who are leading the struggle to understand and combat anti-Muslim racism. Through a bold call for a politics of the Muslim Left and the poetics of the Muslim International, this book offers a glimpse into the possibilities of social justice, decolonial struggle, and political solidarity. The essays in this anthology reflect a range of concerns that capture the contemporary moment such as anti-Muslim racism, the settler colonial occupation of Palestine, surveillance and policing, blackness and radical protest traditions, militarism and empire building, social movements, and political repression. The inaugural volume in the new series Muslim International, With Stones in Our Hands offers new ideas to achieve decolonization and global solidarity"--

*Jihadist Ideology and the War on Terror* Potomac Books, Inc.

Jihad, with its many terrifying associations, is a term widely used today, though its meaning is poorly grasped. Few people understand the circumstances requiring a jihad, or "holy" war, or how Islamic militants justify their violent actions within the framework of the religious tradition of Islam. How Islam, with more than one billion followers, interprets jihad and establishes its precepts has become a critical issue for both the Muslim and the non-Muslim world. John Kelsay's timely and important work focuses on jihad of the sword in Islamic thought, history, and culture. Making use of original sources, Kelsay delves into the tradition of shari'a--Islamic jurisprudence and reasoning--and shows how it defines jihad as the Islamic analogue of the Western "just" war. He traces the arguments of thinkers over the centuries who have debated the legitimacy of war through appeals to shari'a reasoning. He brings us up to the present and demonstrates how contemporary Muslims across the political spectrum continue this quest for a realistic ethics of war within the Islamic tradition. Arguing the Just War in Islam provides a systematic account of how Islam's central texts interpret jihad, guiding us through the historical precedents and Qur'anic sources upon which today's claims to doctrinal truth and legitimate authority are made. In illuminating the broad spectrum of Islam's moral considerations of the just war, Kelsay helps Muslims and non-Muslims alike make sense of the possibilities for future war and peace.

*Islam and the West* Univ of California Press

Encompasses the entire history of the catastrophic encounter between the Global North--China, Russia, Europe, Britain, and America--and Muslim societies from Central Asia to West Africa,

explaining the deep hostilities between them and how they grew over the centuries. --Adapted from publisher description.

#### **Guest House for Young Widows** Muslim International

Early in his career, Hitler took inspiration from Mussolini—this fact is widely known. But an equally important role model for Hitler has been neglected: Atatürk, the founder of modern Turkey, who inspired Hitler to remake Germany along nationalist, secular, totalitarian, and ethnically exclusive lines. Stefan Ihrig tells this compelling story.

#### **The Global Rise of Religious Violence** Princeton University Press

The Muslim Brotherhood and the West is the first comprehensive history of the relationship between the world's largest Islamist movement and the Western powers that have dominated the Middle East for the past century: Britain and the United States. In the decades since the Brotherhood emerged in Egypt in the 1920s, the movement's notion of "the West" has remained central to its worldview and a key driver of its behavior. From its founding, the Brotherhood stood opposed to the British Empire and Western cultural influence more broadly. As British power gave way to American, the Brotherhood's leaders, committed to a vision of more authentic Islamic societies, oscillated between anxiety or paranoia about the West and the need to engage with it. Western officials, for their part, struggled to understand the Brotherhood, unsure whether to shun the movement as one of dangerous "fanatics" or to embrace it as a moderate and inevitable part of the region's political scene. Too often, diplomats failed to view the movement on its own terms, preferring to impose their own external agendas and obsessions. Martyn Frampton reveals the history of this complex and charged relationship down to the eve of the Arab Spring. Drawing on extensive archival research in London and Washington and the Brotherhood's writings in Arabic and English, he provides the most authoritative assessment to date of a relationship that is both vital in itself and crucial to navigating one of the world's most turbulent regions.

#### **How the 9/11 Era Destabilized America and Produced Trump** Verso Books

From the internationally bestselling author of *The Attack* and *The Swallows of Kabul*, a gripping first-person narrative about one young man's involvement in France's worst terrorist attack. Khalil, a twenty-three-year-old Belgian of Moroccan descent, plans to detonate a suicide vest in a crowd outside the Stade de France on November 13, 2015. Explosions are rocking Paris, at cafés and the Bataclan theater, and when other bombs drive the stadium crowd to flee in his direction, near the Metro, his time has come. He presses his button, and . . . nothing. Fearing he has failed in his mission for Fraternal Solidarity (FS), an ISIS affiliate, Khalil has little choice but to blend in with his would-be victims and run. Back in Belgium, he must lie low and avoid his militant brethren and the authorities. He relies on his family and friends for places to stay, but he keeps the truth about himself secret. All the while, he contemplates what he almost did, and what he will do next--particularly when it comes to light that his vest accidentally had been a harmless training unit all along, and FS has a new mission planned for him. In this daring, propulsive literary thriller, Yasmina Khadra takes readers to the margins of Europe's glittering capitals, through neighborhoods isolated by government neglect and popular apathy, if not outright racism. And he brings to life an unusual protagonist, a young man struggling with family, religion, and politics who makes fateful choices, and in doing so dramatizes powerful questions about society and human nature.

#### **Islamophobia, Extremism, and the Domestic War on Terror** Yale University Press

The virulent new brand of Islamic extremism threatening the West In November 2015, ISIS terrorists massacred scores of people in Paris with coordinated attacks on the Bataclan concert hall, cafés and restaurants, and the national sports stadium. On Bastille Day in 2016, an ISIS sympathizer drove a truck into crowds of vacationers at the beaches of Nice, and two weeks later an elderly French priest was murdered during morning Mass by two ISIS militants. Here is Gilles Kepel's explosive account of the radicalization of a segment of Muslim youth that led to those attacks—and of the failure of governments in France and across Europe to address it. It is a book everyone in the West must read. *Terror in France* shows how these atrocities represent a paroxysm of violence that has long been building. The turning point was in 2005, when the worst riots in modern French history erupted in the poor, largely Muslim suburbs of Paris after the accidental deaths of two boys who had been running from the police. The unrest—or "French intifada"—crystallized a new consciousness among young French Muslims. Some have fallen prey to the allure of "war of civilizations" rhetoric in ways never imagined by their parents and grandparents. This is the highly anticipated English edition of Kepel's sensational French bestseller, first published shortly after the Paris attacks. Now fully updated to reflect the latest developments and featuring a new introduction by the author, *Terror in France* reveals the truth about a virulent new wave of jihadism that has Europe as its main target. Its aim is to divide European societies from within by instilling fear, provoking backlash, and achieving the ISIS dream—shared by Europe's Far Right—of separating Europe's growing Muslim minority community from the rest of its citizens.

#### **A Novel** American Trust Publications

"Kepel examines the impact of global terrorism and the ensuing military operations to stem its tide. He questions the United States' ability to address the Middle East challenge with Cold War rhetoric, while revealing the fault lines in terrorist ideology and tactics. Finally, he proposes a way out of the Middle East quagmire that triangulates the interests of Islamists, the West, and the Arab and Muslim ruling elites. That path leads through Muslim immigrant communities in the West--the ultimate battlefield where the struggle for the democratization of Islamic societies will be won or lost"--Dust jacket.

#### **The War Within Our Hearts** Harvard University Press

Completely revised and updated, this new edition of *Terror in the Mind of God* incorporates the events of September 11, 2001 into Mark Juergensmeyer's landmark study of religious terrorism. Juergensmeyer explores the 1993 World Trade Center explosion, Hamas suicide bombings, the Tokyo subway nerve gas attack, and the killing of abortion clinic doctors in the United States. His

personal interviews with 1993 World Trade Center bomber Mahmud Abouhalima, Christian Right activist Mike Bray, Hamas leaders Sheik Yassin and Abdul Aziz Rantisi, and Sikh political leader Simranjit Singh Mann, among others, take us into the mindset of those who perpetrate and support violence in the name of religion.

#### **Arguing the Just War in Islam** NYU Press

"The creator of the CIA's controversial Enhanced Interrogation Program provides a dramatic firsthand account of the design, implementation, flaws and aftermath of the program, including personally interrogating 9/11 mastermind Khalid Sheikh Mohammed and learning from America's enemies what we need to know to win the continuing struggle against global jihad"--

#### **Terror in the Mind of God** University of Arkansas Press

Presents the central tenets of Islam in the words of Muslim doctors, engineers, politicians, bankers, carpenters, and theologians

#### **Knowing the Enemy** The War for Muslim Minds Islam and the West

A fascinating journey into Islam's diverse history of ideas, making an argument for an "Islamic Enlightenment" today In *Reopening Muslim Minds*, Mustafa Akyol, senior fellow at the Cato Institute and opinion writer for *The New York Times*, both diagnoses "the crisis of Islam" in the modern world, and offers a way forward. Diving deeply into Islamic theology, and also sharing lessons from his own life story, he reveals how Muslims lost the universalism that made them a great civilization in their earlier centuries. He especially demonstrates how values often associated with Western Enlightenment — freedom, reason, tolerance, and an appreciation of science — had Islamic counterparts, which sadly were cast aside in favor of more dogmatic views, often for political ends. Elucidating complex ideas with engaging prose and storytelling, *Reopening Muslim Minds* borrows lost visions from medieval Muslim thinkers such as Ibn Rushd (aka Averroes), to offer a new Muslim worldview on a range of sensitive issues: human rights, equality for women, freedom of religion, or freedom from religion. While frankly acknowledging the problems in the world of Islam today, Akyol offers a clear and hopeful vision for its future.

#### **Inside the Minds and Motives of the Islamic Terrorists Trying to Destroy America** Penguin

In this fifth edition, Masud--recipient of the Human Rights Foundation, 2002 Gold Award--provides valuable insights on the conflict between Islam and the West, beginning with the Gulf War of 1991 to America's recent financial debacle, stemming in part from its unnecessary wars.

#### **Reopening Muslim Minds** Columbia University Press

Death came instantly to Imam Luqman, as four FBI agents fired semiautomatic rifles at him from a few feet away. Another sixty officers surrounded the building on that October morning, the culmination of a two-year undercover investigation that had infiltrated the imam's Detroit mosque. The FBI quickly claimed that Luqman Abdullah was "the leader of a domestic terrorist group." And yet, caught on tape, he had refused to help "do something" violent, as it might injure innocents, and no terrorism charges were ever lodged against him. Jameel Scott thought he was exercising his rights when he went to challenge an Israeli official's lecture at Manchester University. But the teenager's presence at the protest with fellow socialists made him the subject of police surveillance for the next two years. Counterterrorism agents visited his parents, his relatives, his school. They asked him for activists' names and told him not to attend demonstrations. They called his mother and told her to move the family to another neighborhood. Although he doesn't identify as Muslim, Jameel had become another face of the presumed homegrown terrorist. The new front in the War on Terror is the "homegrown enemy," domestic terrorists who have become the focus of sprawling counterterrorism structures of policing and surveillance in the United States and across Europe. Domestic surveillance has mushroomed—at least 100,000 Muslims in America have been secretly under scrutiny. British police compiled a secret suspect list of more than 8,000 al-Qaeda "sympathizers," and in another operation included almost 300 children fifteen and under among the potential extremists investigated. MI5 doubled in size in just five years. Based on several years of research and reportage, in locations as disparate as Texas, New York, and Yorkshire, and written in engrossing, precise prose, this is the first comprehensive critique of counterradicalization strategies. The new policy and policing campaigns have been backed by an industry of freshly minted experts and liberal commentators. *The Muslims Are Coming!* looks at the way these debates have been transformed by the embrace of a narrowly configured and ill-conceived antiextremism.

#### **Enhanced Interrogation** New Amsterdam Books

A groundbreaking investigation into why so many Islamic radicals are engineers The violent actions of a few extremists can alter the course of history, yet there persists a yawning gap between the potential impact of these individuals and what we understand about them. In *Engineers of Jihad*, Diego Gambetta and Steffen Hertog uncover two unexpected facts, which they imaginatively leverage to narrow that gap: they find that a disproportionate share of Islamist radicals come from an engineering background, and that Islamist and right-wing extremism have more in common than either does with left-wing extremism, in which engineers are absent while social scientists and humanities students are prominent. Searching for an explanation, they tackle four general questions about extremism: Under which socioeconomic conditions do people join extremist groups? Does the profile of extremists reflect how they self-select into extremism or how groups recruit them? Does ideology matter in sorting who joins which group? Lastly, is there a mindset susceptible to certain types of extremism? Using rigorous methods and several new datasets, they explain the link between educational discipline and type of radicalism by looking at two key factors: the social mobility (or lack thereof) for engineers in the Muslim world, and a particular mindset seeking order and hierarchy that is found more frequently among engineers. Engineers' presence in some extremist groups and not others, the authors argue, is a proxy for individual traits that may account for the much larger question of selective recruitment to radical activism. Opening up markedly new perspectives on the motivations of political violence, *Engineers of Jihad* yields unexpected answers about the nature and emergence of extremism.
