From acclaimed author Charlie Donlea comes a twisting, impossible-to-put-down novel of suspense in which a filmmaker helps clear a woman convicted of murder—only to find she may be a puppet in a sinister game. The *Girl of Sugar Beach* is the most watched documentary in television history—a riveting, true-life mystery that unfolds over twelve weeks and centers on a fascinating question: Did Grace Sebold murder her boyfriend, Julian, while on a Spring Break vacation, or is she a victim of circumstance and poor police work? Grace has spent the last ten years in a St. Lucian prison, and reaches out to filmmaker Sidney Ryan in a last, desperate attempt to prove her innocence. As Sidney begins researching, she uncovers startling evidence, additional suspects, and timeline issues that were all overlooked during the original investigation. Before the series even finishes filming, public outcry leads officials to reopen the case. But as the show surges towards its final episodes, Sidney receives a letter saying that she got it badly, terribly wrong. Sidney has just convinced the world that Grace is innocent. Now she wonders if she has helped to free a ruthless killer. Delving into Grace's past, she peels away layer after layer of deception. But as Sidney edges closer to the real heart of the story, she must decide if finding the truth is worth risking her newfound fame, her career . . . even her life.

This book is about the author's personal experience living with paranoia schizophrenia his entire life and how his strong faith in God helped him endure. The story tries to relate his experiences to you the reader who may have a similar mental illness and may need encouragement in carrying out your life to the best of your ability. Mental illness is a very real illness. The general population downplays it sometimes as a character defect in the individual. Research about the cause of mental illness points to a biological or genetic predisposition which could be inherited. For myself I believe it was inherited. I will get into my beliefs on that later on. The environment can also be a factor for some people who develop mental illness. Schizophrenia is a serious mental illness that originates from malfunctioning signals from the brain that effect ones thought processes & behavior. Just because you are diagnosed later in life doesn't mean you were not born with the illness. The illness has a broad effect on a person's everyday functioning such as going to school, working, hygiene or social relationships. Once diagnosed with schizophrenia a person is effected usually in a negative manner. Their lives change dramatically. Their ability to carry on a normal routine becomes limited motivation is many times effected because of the side effects of the medication which they are taking. A person may feel tired & listless much of the time. Medication helps with the delusions and hallucinations that exist in an acute episode but can also slow a person down. Outside supports from family & friends can be a huge asset to someone with schizophrenia, exercise (if you can do it), meditation (relaxation techniques), a strong relationship with God, & a stable & secure living environment all can help in coping with the illness as well. Mental health professionals also can be a huge asset & wanting to get help by the person is definitely necessary.

#1 NEW YORK TIMES BESTSELLER ONE OF BARACK OBAMA'S FAVORITE BOOKS OF THE YEAR NAMED A BEST BOOK OF 2020 BY THE NEW YORK TIMES * THE WASHINGTON POST * NPR * PEOPLE * TIME MAGAZINE* VANITY FAIR * GLAMOUR 2021 WOMEN'S PRIZE FINALIST "Bennett's tone and style recalls James Baldwin and Jacqueline Woodson, but it's especially reminiscent of Toni Morrison's 1970 debut novel, *The Bluest Eye*." —Kiley Reid, *Wall Street Journal* "A story of absolute, universal timelessness ...For any era, it's an accomplished, affecting novel. For this moment, it's piercing, subtly wending its way toward questions about who we are and who we want to be...." - Entertainment Weekly From The New York Times-bestselling author of *The Mothers*, a stunning new novel about twin sisters, inseparable as children, who ultimately choose to live in two very different worlds, one black and one white. The Vignes twin sisters will always be identical. But after growing up together in a small, southern black community and running away at age sixteen, it's not just the shape of their daily lives that is different as adults, it's everything: their families, their communities, their racial identities. Many years later, one sister lives with her black daughter in the same

southern town she once tried to escape. The other secretly passes for white, and her white husband knows nothing of her past. Still, even separated by so many miles and just as many lies, the fates of the twins remain intertwined. What will happen to the next generation, when their own daughters' storylines intersect? Weaving together multiple strands and generations of this family, from the Deep South to California, from the 1950s to the 1990s, Brit Bennett produces a story that is at once a riveting, emotional family story and a brilliant exploration of the American history of passing. Looking well beyond issues of race, *The Vanishing Half* considers the lasting influence of the past as it shapes a person's decisions, desires, and expectations, and explores some of the multiple reasons and realms in which people sometimes feel pulled to live as something other than their origins. As with her New York Times bestselling debut *The Mothers*, Brit Bennett offers an engrossing page-turner about family and relationships that is immersive and provocative, compassionate and wise.

As downward mobility continues to be an international issue, Robin Brooks offers a timely intervention between the humanities and social sciences by examining how Black women's cultural production engages debates about the growth in income and wealth gaps in global society during the late twentieth and early twenty-first centuries. Using an interdisciplinary approach, this innovative book employs major contemporary texts by both African American and Caribbean writers—Toni Morrison, Gloria Naylor, Dawn Turner, Olive Senior, Oonya Kempadoo, Merle Hodge, and Diana McCaulay—to demonstrate how neoliberalism, within the broader framework of racial capitalism, reframes structural inequalities as personal failures, thus obscuring how to improve unjust conditions. Through interviews with authors, textual analyses of the fiction, and a diagramming of cross-class relationships, Brooks offers compelling new insight on literary portrayals of class inequalities and division. She expands the scope of how the Black women's literary tradition, since the 1970s, has been conceptualized by repositioning the importance of class and explores why the imagination matters as we think about novel ways to address long-standing and simultaneously evolving issues.

Outsourcing Like a Boss This book will serve established small business owners (with revenue of six-figures to seven-figures) who do everything themselves. With the ever-growing fast-paced advancements in technology, most business owners do not realize the potential improvements that are available to them within their grasp. Why? They have started their business, built it from scratch (usually from home), now have a location, and are wearing all of the hats within their business and are too consumed by the workload. Yes, you (the business owner) might have wonderful family holidays, take breaks often to recharge, but do you take the time to re-evaluate your business to streamline and automate it with a human touch? This book will describe how I, Toni Turner, the owner and founder of Diverse Glass & Aluminium, worked alongside my husband to build our trade-based business from a startup to become an award-winning seven-figure company with twelve team members and over ten virtual assistants. You will learn how to break your business down into categories and assess what you have to ensure you are providing excellent high-quality service to your customers, effective and efficient with automation and most importantly, profitability. My purpose in life is to help small business owners to end each day with happiness, joy and love for their business. This will be achieved by hiring offshore virtual assistants for a fraction of the price you would pay for a local employee. By changing your mindset and allowing a shift, you'll develop a new understanding of virtual assistants and how they can implement many changes within your business to be cost-effective, enthusiastic and to

African American Political Thought offers an unprecedented philosophical history of thinkers from the African American community and African diaspora who have addressed the central issues of political life: democracy, race, violence, liberation, solidarity, and mass political action. Melvin L. Rogers and Jack Turner have brought together leading scholars to reflect on individual intellectuals from the past four centuries, developing their list with an expansive approach to political expression. The collected essays consider such figures as Martin Delany, Ida B. Wells, W. E. B. Du Bois, James Baldwin, Toni Morrison, and Audre Lorde, whose works are addressed by scholars such as Farah Jasmine Griffin, Robert Gooding-Williams, Michael Dawson, Nick Bromell, Neil Roberts, and Lawrie Balfour. While African American political thought is inextricable from the historical movement of African American political thought, this volume stresses the individuality of Black thinkers, the transnational and diasporic consciousness, and how individual speakers and writers draw on various traditions simultaneously to broaden our conception of African American political ideas. This landmark volume gives us the opportunity to tap into the myriad and nuanced political theories central to Black life. In doing so, *African American Political Thought: A Collected History* transforms how we understand the past and future of political thinking in the West.
