"First rule in this line of business: don't sleep with the client." My name's Kate Kane, and when an eight-hundred-year-old vampire prince came to me with a case, I should have told her no. But I've always been a sucker for a femme fatale. It always goes the same way. You move too fast, you get in too deep, and before you know it, someone winds up dead. Last time it was my partner. This time it could be me. Yesterday a werewolf was murdered outside the Velvet, the night-time playground of one of the most powerful vampires in England. Now half the monsters in London are at each other's throats, and the other half are trying to get in my pants. The Witch Queen will protect her own, the wolves are out for vengeance, and the vampires are out for, y'know, blood. I've got a killer on the loose, a war on the horizon, and a scotch on the rocks. It's going to be an interesting day.

Working late one night, Natalie Pierce is kidnapped by a creature that looks like a harmless old man, but is something far more terrifying.

Waking up in a creepy mausoleum, she is forced to endure three nights of indescribable agony. Her life is forever altered when she is transformed into a monster of myth and legend; a vampire.

Lonely and full of despair, she comes face to face with the irresistible and enigmatic Lord Lucentio.

Justice bringer for the European Vampire Council, Luc has been sent to Australia to kill Natalie's maker, but someone has already beaten him to it. He quickly discovers that Nat is far from an ordinary fledgling. He suspects that she is Mortis, a figure of both hope and dread among their kind. Natalie is propelled into a dark and mysterious underworld that takes her far away from her hometown of Brisbane. Her arrival was foretold long ago and her fate is already sealed. Nat's entire species is in danger and it is her job to save them. She desperately wants to escape from the burden that has been thrust upon her, but she is inextricably linked to a

two thousand year old prophecy. An unknown enemy has begun to whittle down their already limited numbers. If Nat fails to accept her destiny, all vampires will soon cease to exist. This revolutionary book shows how many people misunderstand jazz phrasing and shows how to replace stiff phrasing with fluid lines that have the right jazz feeling. In this book, master pianist Hal Galper also shows how get that feeling of forward motion and also how to use melody guide tones correctly, how to line up the strong beat in a bar with the strongest chord notes, and much more!

Winner of Best Writer at The Stage Debut Awards 2023 "The men with the Piano look up the narrow staircase of our little flat and they turn to Dad, light their fags, and say; "We might have to take the windows out". A piano came through the sky and landed in Lylah's council flat, just for her. As she pours over the keys and sound floods into all the rooms, Lylah falls in love. At school, Lylah can't ask questions - she's got to be good, good, good or else she'll lose her scholarship. At home she can't ask questions; her cousins say she talks weird, and her parents are distracted. So she asks her piano: Where did you come from? Why are you here? And their shared history tumbles into the light. Part gig, part musical love story, part journey through Empire, this all-new expanded production of Olivier Award nominee Anoushka Lucas' "exquisite" (Evening Standard) Elephant transferred to the Bush Theatre's main house. This revised and expanded edition of the play accompanies the new 2023 production. My New Roots Oxford University Press, USA Why is music significant in life and education? What

One of the Best Books of

the Year: NPR, GQ, Billboard, JazzTimes In jazz parlance, “playing changes” refers to an improviser’s resourceful path through a chord progression. In this definitive guide to the jazz of our time, leading critic Nate Chinen boldly expands on that idea, taking us through the key changes, concepts, events, and people that have shaped jazz since the turn of the century—from Wayne Shorter and Henry Threadgill to Kamasi Washington and Esperanza Spalding; from the phrase “America’s classical music” to an explosion of new ideas and approaches; from claims of jazz’s demise to the living, breathing scene that exerts influence on mass culture, hip-hop, and R&B. Grounded in authority and brimming with style, packed with essential album lists and listening recommendations, *Playing Changes* takes the measure of this exhilarating moment—and the shimmering possibilities to come.

The Rhythm Makers: The 100 Greatest Bass Players of All Time Univ of California Press
A visual history of

America’s jazz nightclubs of the 1940s and 1950s, featuring exclusive interviews and over 200 souvenir photos. In the two decades before the Civil Rights movement, jazz nightclubs were among the first places that opened their doors to both Black and white performers and club goers in Jim Crow America. In this extraordinary collection, Grammy Award-winning record executive and music historian Jeff Gold looks back at this explosive moment in the history of Jazz and American culture, and the spaces at the center of artistic and social change. *Sittin’ In* is a visual history of jazz clubs during these crucial decades when some of the greatest names in in the genre—Billie Holiday, Charlie Parker, Ella Fitzgerald, Dizzy Gillespie, Miles Davis, Louis Armstrong, Oscar Peterson, and many others—were headlining acts across the country. In many of the clubs, Black and white musicians played together and more significantly, people of all races gathered together to enjoy an evening’s entertainment. House photographers roamed the floor and for a dollar, took picture of patrons

that were developed on site and could be taken home in a keepsake folder with the club’s name and logo. *Sittin’ In* tells the story of the most popular club in these cities through striking images, first-hand anecdotes, true tales about the musicians who performed their unforgettable shows, notes on important music recorded live there, and more. All of this is supplemented by colorful club memorabilia, including posters, handbills, menus, branded matchbooks, and more. Inside you’ll also find exclusive, in-depth interviews conducted specifically for this book with the legendary Quincy Jones; jazz great tenor saxophonist Sonny Rollins; Pulitzer Prize-winning fashion critic Robin Givhan; jazz musician and creative director of the Kennedy Center, Jason Moran; and jazz critic Dan Morgenstern. Gold surveys America’s jazz scene and its intersection with racism during segregation, focusing on three crucial regions: the East Coast (New York, Atlantic City, Boston, Washington, D.C.); the Midwest (Chicago, Cleveland, Detroit, St. Louis, Kansas City); and

the West Coast (Los Angeles, San Francisco). This collection of ephemeral snapshots tells the story of an era that helped transform American life, beginning the move from traditional Dixieland jazz to bebop, from conservatism to the push for personal freedom.

Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our

behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover:

- How you can get your dog to come when called by acting less like a primate and more like a dog
- Why the advice to “get dominance” over your dog can cause problems
- Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief
- How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!”

Fascinating, insightful, and compelling, *The Other End of the*

A collection of timely, stirring, and witty prayers that give language to the full breadth of our everyday

experiences—from joy to sorrow, and everything in between “This is the prayer book I need right now, full of humor and beauty, candor and holy longing.”—Jeff Chu, co-curator of *Evolving Faith* and author of *Does Jesus Really Love Me?* In his debut collection of short-form prayers (aka collects), Terry Stokes names many things we didn’t realize we could pray for, such as student loan debt cancellation, strength when we’re about to make small talk, and restraint when we have the opportunity to be petty. The collection features an impressive range of humor and inspiration, and spans lament and solidarity, including prayers for

- when one dreads the thought of returning to work on Monday
- when one has been left on read by a friend
- before

- shooting one’s shot
- after shooting one’s shot
- before walking into Target
- when one fears getting canceled
- those working in retail
- when one’s team is struggling

These tender, moving, and entertaining prayers invite us to access the wonder and joy of God’s presence in every situation we encounter. By putting words to the emotions and needs that lie beneath our petitions, our celebrations, and our protests. Stokes’s prayers make for an engaging and heartfelt read that will delight and encourage any person of faith in the modern age.

Toolbox Delacorte Press
The meteoric rise of online video is reshaping the competition for human attention. *The Rise of the Algorithms* argues that this new technology has changed the way we interact with others, our relationships with public institutions, and our very own behaviors and psyches. In tracing the origins and evolution of online video, John M. Jordan examines the mechanics—and the ethical stakes—of online video platforms,

especially YouTube and TikTok but also others, such as Twitch. Tracing the use of algorithms pioneered by Facebook and Google and so successfully exploited by TikTok's corporate parent, ByteDance, Jordan shows how these platforms now engineer human behavior—with consequences for culture, politics, and identity. Jordan argues that we are at an inflection point. Until now we have proved, as a society, ill-prepared or unwilling to address such problems as the power of digital platforms, the personal cost of viral celebrity, the invasion of privacy, and the proliferation of disinformation. *The Rise of the Algorithms* combines this urgent assessment with a clear-eyed discussion of present challenges and recommendations for reclaiming our online futures. A valuable resource for understanding the transformations that have been and will be brought by YouTube, TikTok, and

similar platforms, Jordan's timely book is a vital work for anyone who uses the internet and especially for policy makers, technologists, communication and media specialists, and researchers who have a direct hand in determining the future of our online world.
