Retrospection and Introspection Bloomsbury Publishing USA
An eclectic history of human curiosity, a great feast of ideas, and a memoir of a reading life from an internationally celebrated reader and thinker Curiosity has been seen through the ages as the impulse that drives our knowledge forward and the temptation that leads us toward dangerous and forbidden waters. The question "Why?" has appeared under a multiplicity of guises and in vastly different contexts throughout the chapters of human history. Why does evil exist? What is beauty? How does language inform us? What defines our identity? What is our responsibility to the world? In Alberto Manguel's most personal book to date, the author tracks his own life of curiosity through the reading that has mapped his way. Manguel chooses as his guides a selection of writers who sparked his imagination. He dedicates each chapter to a single thinker, scientist, artist, or other figure who demonstrated in a fresh way how to ask "Why?" Leading us through a full gallery of inquisitives, among them Thomas Aquinas, David Hume, Lewis Carroll, Rachel Carson, Socrates, and, most importantly, Dante, Manguel affirms how deeply connected our curiosity is to the readings that most astonish us, and how essential to the soaring of our own imaginations.

The Gospel According to Lazarus Babelcube Inc.

Lucifer - The First Angel 'Lucifer - The First Angel' is a brutal epic about how and why the greatest hero of God fell to darkness. From the dawn of creation up to the ruin of all existence, it reveals the true nature of Good and Evil, the meaning of Life and Death, and that even in Hell it is possible to find honor and sacrifice. The author carried out an extensive detailed research on archaeological discoveries and teachings of Taoism, Buddhism, Jewish Christianity, Islam, Brahmanism, among other ancient beliefs and philosophies.

Memoirs of a suicide Yale University Press

Under the guidance of the spirit Leon Denis, the spirit author Camilo Castelo Branco, using the pen name Camilo Cândido Botelho, describes to the médium Yvonne A. Pereira, his dreadful

experience after having discarnated by committing suicide. The book entails invaluable instruction, demonstrating the greatness of the Divine Mercy toward repentant suicides and providing them with the opportunity to understand the universe and life in its fullest dimension. The beginnings of planet Earth, the evolution of the human being, the immortality of the soul, Christian morality, and other relevant themes are presented for the understanding that "... no attempt at moral growth will work if we remain imprisoned in self-ignorance." A complete reading of this work shows that there is a road of reconstruction for those who repent. There is always hope because rehabilitation is possible.

History and Memory Phoenix Books

Those who are trying to understand our world and its origins will find the answers in this book. Of all the events, facts, situations and individuals that down through time have marked our progress, the author highlights the most relevant and presents them in this notable work of historic synthesis. He analyzes the missions of spirits such as Krishna, Buddha, Abraham, Moses, Fo-Hi, Confucius, Lao-Tse, Solomon, Socrates, Plato, Mohammed, the Hebrew Prophets, the Apostles, Paul of Tarsus, St. Francis of Assisi, Luther and Allan Kardec. The book narrates the history of

civilization from the perspective of Spiritism, showing the true position of the Gospel of Christ in the light of earth's religions and philosophies. It addresses the first inhabitants of the earth, touching on the historical pages of peoples, great empires and the changes that have followed one another in the direction of the future. Emmanuel shows us that through divine determinism, we are all on our way to the light!

For the first time—and in the best translation ever—the complete Book of Disquiet, a masterpiece beyond comparison The Book of Disquiet is the Portuguese modernist master Fernando Pessoa's greatest literary achievement. An "autobiography" or "diary" containing exquisite melancholy observations, aphorisms, and ruminations, this classic work grapples with all the eternal questions. Now, for the first time the texts are presented chronologically, in a complete English edition by master translator Margaret Jull Costa. Most of the texts in The Book of Disquiet are written under the semi-heteronym Bernardo Soares, an assistant bookkeeper. This existential masterpiece was first published in Portuguese in 1982, forty-seven years after Pessoa's death. A monumental literary event, this exciting, new, complete edition spans Fernando Pessoa's entire writing life.

Beyond the Essene Hypothesis Wm. B. Eerdmans Publishing

It is October, 2005. In an apartment in the upmarket neighbourhood of Sao Paulo, Brazil, 21-year-old Bruna Surfistinha, or Bruna the Surfer Girl, has sexual encounters with up to five men a day. A teen runaway who has had to turn tricks for a living, Bruna begins to write about her experiences in a blog. What she creates is a scintillating soap opera, loaded with family drama, love stories and, of course, sex! Today, Bruna has become a

celebrity in Brazil with the runaway bestseller *The Scorpion's Sweet Venom: The Diary of a Brazilian Call Girl*. Selling over 30,000 copies in its first month, (and over 100,000 copies to date) the book is a vivid, forthright, explosive account of sex for money, for kicks, for fun, and for love. It even offers how-to tips for readers looking to spice up their sex lives. In the tradition of the bestselling *The Bride Stripped Bare, In My Skin, Belle de Jour* and *Diary of a Manhattan Call Girl*, this translation of *The Scorpion's Sweet Venom* is destined to cause a stir with its intimate revelations of Latino lovers and illicit sex and life as a call girl.

Hapgood's tour de force is back in print! This riveting account of how earth's poles have flipped positions many times is the culmination of Hapgood's extensive research of Antarctica, ancient maps and the geological record. This amazing book discusses the various pole shifts in earth's history -- occurring when earth's crust slips in the inner core -- and gives evidence for each one. It also predicts future pole shifts: a planetary alignment will cause the next one on 5 May 2000! Packed with illustrations, this book is the reference other books on the subject cite over and over again. With millennium madness in full swing, this is just the book to generate even more excitement at the unknown possibilities.

From two of the world's great physicists—Stephen Hawking and Nobel laureate Roger Penrose—a lively debate about the nature of space and time Einstein said that the most incomprehensible thing about the universe is that it is comprehensible. But was he right? Can the quantum theory of fields and Einstein's general theory of relativity, the two most accurate and successful theories in all of physics, be united into a single quantum theory of gravity? Can quantum and cosmos ever be combined? In *The Nature of Space and Time*, two of the world's most famous physicists—Stephen Hawking (*A Brief History of Time*) and Roger Penrose (*The Road to Reality*)—debate these questions. The

authors outline how their positions have further diverged on a number of key issues, including the spatial geometry of the universe, inflationary versus cyclic theories of the cosmos, and the black-hole information-loss paradox. Though much progress has been made, Hawking and Penrose stress that physicists still have further to go in their quest for a quantum theory of gravity. *The Large Scale Structure of Space-Time* The Hero with a Thousand Faces

Joseph Campbell, arguably the greatest mythologist of our time, was certainly one of our greatest storytellers.

"One of the most adventurous and rewarding collections since the publication of Cortázar's own Blow-up." —Los Angeles Times
A traffic jam outside Paris lasts for weeks. Che Guevara and Fidel Castro meet on a mountaintop during the Cuban Revolution. A flight attendant becomes obsessed with a small Greek island, resulting in a surreal encounter with death. In *All Fires the Fire*, Julio Cortázar (author of *Hopscotch* and the short story "Blow-Up") creates his own mindscapes beyond space and time, where lives intersect for brief moments and situations break and refract. *All Fires the Fire* contains some of Julio Cortázar's most beloved stories. It is a classic collection by "one of the world's great writers" (Washington Post).

The Passion According to G.H. New World Library

Zohar, the Book of Enlightenment Edfu Books

In this new book, Bauman examines how we have moved away from a 'heavy' and 'solid', hardware-focused modernity to a 'light' and 'liquid', software-based modernity. This passage, he argues, has brought profound change to all aspects of the human condition. The new remoteness and un-reachability of global systemic structure coupled with the unstructured and under-

defined, fluid state of the immediate setting of life-politics and human togetherness, call for the rethinking of the concepts and cognitive frames used to narrate human individual experience and their joint history. This book is dedicated to this task. Bauman selects five of the basic concepts which have served to make sense of shared human life - emancipation, individuality, time/space, work and community - and traces their successive incarnations and changes of meaning. *Liquid Modernity* concludes the analysis undertaken in Bauman's two previous books *Globalization: The Human Consequences* and *In Search of Politics*. Together these volumes form a brilliant analysis of the changing conditions of social and political life by one of the most original thinkers writing today.

Sérgio Buarque de Holanda's *Roots of Brazil* is one of the iconic books on Brazilian history, society, and culture. Originally published in 1936, it appears here for the first time in an English language translation with a foreword, "Why Read *Roots of Brazil* Today?" by Pedro Meira Monteiro, one of the world's leading experts on Buarque de Holanda. *Roots of Brazil* focuses on the multiple cultural influences that forged twentieth-century Brazil, especially those of the Portuguese, the Spanish, other European colonists, Native Americans, and Africans. Buarque de Holanda argues that all of these originary influences were transformed into a unique Brazilian culture and society—a "transition zone." The book presents an understanding of why and how European culture

flourished in a large, tropical environment that was totally foreign to its traditions, and the manner and consequences of this development. Buarque de Holanda uses Max Weber's typological criteria to establish pairs of "ideal types" as a means of stressing particular characteristics of Brazilians, while also trying to understand and explain the local historical process. Along with other early twentieth-century works such as *The Masters and the Slaves* by Gilberto Freyre and *The Colonial Background of Modern Brazil* by Caio Prado Júnior, *Roots of Brazil* set the parameters of Brazilian historiography for a generation and continues to offer keys to understanding the complex history of Brazil. *Roots of Brazil* has been published in Italian, Spanish, Japanese, Chinese, German, and French. This long-awaited English translation will interest students and scholars of Portuguese, Brazilian, and Latin American history, culture, literature, and postcolonial studies.
