____ 1. the ratio of the net charge on one plate to the potential difference, measured in farads, between two plates of a capacitor

____ 2. the property of the space around a charged object that exerts a force on other charged objects

____ 3. the work done moving a positive test ... Ch 21 Study Guide - Electric

Fieldson. The first Study Guide worksheet for each chapter reviews vocabulary. Subsequent worksheets closely follow the organization of the textbook, providing review items for each textbook section and references to specific content. Students will find the Study Guide worksheets helpful for previewing or reviewing chapter material. Chapters 21–25 Resources Comprised of 21 chapters, this book starts with an overview of the standard units of measure for length, time, mass, energy, force, pressure, and density. This text then provides the meaning of various terms in physics, including atom, molecule, element, and compound.
