From origin stories to contemporary struggles over treaty rights and sovereignty issues, *Indian Nations of Wisconsin* explores Wisconsin's rich Native tradition. This unique volume—based on the historical perspectives of the state's Native peoples—includes compact tribal histories of the Ojibwe, Potawatomi, Oneida, Menominee, Mohican, Ho-Chunk, and Brothertown Indians. Author Patty Loew focuses on oral tradition—stories, songs, the recorded words of Indian treaty negotiators, and interviews—along with other untapped Native sources, such as tribal newspapers, to present a distinctly different view of history. Lavishly illustrated

with maps and photographs, *Indian Nations of Wisconsin* is indispensable to anyone interested in the region's history and its Native peoples. The first edition of *Indian Nations of Wisconsin: Histories of Endurance and Renewal*, won the Wisconsin Library Association's 2002 Outstanding Book Award.

The last "Indian War" was fought against Native American children in the dormitories and classrooms of government boarding schools. Only by removing Indian children from their homes for extended periods of time, policymakers reasoned, could white "civilization" take root while childhood memories of "savagism" gradually faded to the point of extinction. In the words of one official: "Kill the Indian and save the man." *Education for Extinction* offers the first comprehensive account of this dispiriting effort. Much more than a study of federal Indian

policy, this book vividly details the day-to-day experiences of Indian youth living in a "total institution" designed to reconstruct them both psychologically and culturally. The assault on identity came in many forms: the shearing off of braids, the assignment of new names, uniformed drill routines, humiliating punishments, relentless attacks on native religious beliefs, patriotic indoctrinations, suppression of tribal languages, Victorian gender rituals, football contests, and industrial training. Especially poignant is Adams's description of the ways in which students resisted or accommodated themselves to forced assimilation. Many converted to varying degrees, but others plotted escapes, committed arson, and devised ingenious strategies of passive resistance. Adams also argues that many of those who seemingly cooperated with the system were more than passive players in this drama, that the response of accommodation was not synonymous with cultural surrender. This is especially apparent in his analysis of students who returned to the reservation. He reveals the various ways in which graduates struggled to make sense of their lives and selectively drew upon their school experience in negotiating personal and tribal survival in a world increasingly dominated by white men. The discussion comes full circle when Adams reviews the government's gradual retreat from the assimilationist vision. Partly because of persistent student resistance, but also partly because of a complex and sometimes contradictory set of progressive, humanitarian, and racist motivations, policymakers did eventually come to view boarding schools less enthusiastically. Based upon extensive use of government archives, Indian and teacher autobiographies, and school newspapers, Adams's moving account is essential reading

for scholars and general readers alike interested in Western history, Native American studies, American race relations, education history, and multiculturalism.

Underground Literature During Indian Emergency University of Oklahoma Press

A shocking exposé of sexual abuse and the struggle for justice at one of America's most prestigious schools In June 2012, Amos Kamil's New York Times Magazine cover story, "Prep-School Predators," caused a shock wave that is still rippling. In his piece, Kamil detailed a decades-long pattern of sexual abuse at the highly prestigious Horace Mann School in the Bronx. After the article appeared, Kamil closely observed the fallout. While the article revealed the misdeeds of three teachers, this was just the beginning: an extraordinary twenty-two former Horace Mann teachers and administrators have since been accused of abuse. In *Great Is the Truth*, Kamil and his coauthor, Sean Elder, tell the riveting story of how one of the country's leading schools was beset by scandal. In 1970, Horace Mann hired R. Inslee "Inky" Clark Jr. as its headmaster. As Yale's wunderkind dean of admissions, Clark had helped revolutionize the Ivy League by recruiting a more diverse student body. In the coming years, he would raise Horace Mann to new heights of academic distinction even as serious complaints against beloved teachers were ignored. Kamil and Elder introduce those teachers, among them a popular football coach who had reportedly tried out for the Washington Redskins, a distinguished conductor who took his prize students on foreign trips, an otherworldly English teacher who discussed Eastern philosophy over tea and helped tend the school's gardens, and another English instructor, who told his

students that they were mere dust under his foot in comparison to Shakespeare. In gripping detail, Kamil and Elder relate what happened as survivors of abuse came forward and sought redress. We see the school and its influential backers circle the wagons. We meet Horace Mann alumni who work to change New York State's sexual abuse laws. We follow a celebrity lawyer's contentious efforts to achieve a settlement. And we encounter a former teacher who candidly recalls his inappropriate relationships with students. Kamil and Elder also examine other institutions-from prep schools to the Catholic Church-that have sought to atone for their complicity in abuse and to prevent it from reoccurring. "Great is the truth and it prevails" may be the motto of Horace Mann, but for many alumni the truth remains all too hard to come by. This book is essential reading for anyone trying to understand how an elite institution can fail those in its charge, and what can be done about it.

Boarding School Syndrome is an analysis of the trauma of the 'privileged' child sent to boarding school at a young age. Innovative and challenging, Joy Schaverien offers a psychological analysis of the long-established British and colonial preparatory and public boarding school tradition. Richly illustrated with pictures and the narratives of adult ex-boarders in psychotherapy, the book demonstrates how some forms of enduring distress in adult life may be traced back to the early losses of home and family. Developed from clinical research and informed by attachment and child development theories 'Boarding School Syndrome' is a new term that offers a theoretical framework on which the psychotherapeutic treatment of ex-boarders may build. Divided into four parts, History: In the Name of Privilege; Exile and Healing; Broken Attachments: A Hidden Trauma, and The Boarding School Body, the book includes vivid case studies of ex-boarders in psychotherapy. Their accounts reveal details of the suffering endured: loss, bereavement and captivity are sometimes compounded by physical, sexual and psychological abuse. Here, Joy Schaverien shows how many boarders adopt unconscious coping strategies including dissociative amnesia resulting in a psychological split between the 'home self' and the 'boarding school self'. This pattern may continue into adult life, causing difficulties in intimate relationships, generalized depression and separation anxiety amongst other forms of psychological distress. Boarding School Syndrome demonstrates how boarding school may damage those it is meant to be a reward and discusses the wider

implications of this tradition. It will be essential reading for psychoanalysts, Jungian analysts, psychotherapists, art psychotherapists, counsellors and others interested in the psychological, cultural and international legacy of this tradition including ex-boarders and their partners.

How technologies can get it wrong in sports, and what the consequences are—referees undermined, fans heartbroken, and the illusion of perfect accuracy maintained. Good call or bad call, referees and umpires have always had the final say in sports. Bad calls are more visible: plays are televised backward and forward and in slow motion. New technologies—the Hawk-Eye system used in tennis and cricket, for example, and the goal-line technology used in English football—introduced to correct bad calls sometimes get it right and sometimes get it wrong, but always undermine the authority of referees and umpires. *Bad Call* looks at the technologies used to make refereeing decisions in sports, analyzes them in action, and explains the consequences. Used well, technologies can help referees reach the right decision and deliver justice for fans: a fair match in which the best team wins. Used poorly, however, decision-making technologies pass off statements of probability as perfect accuracy and perpetuate a mythology of infallibility. The authors re-analyze three seasons of play in English Premier League football, and discover that goal line technology was irrelevant; so many crucial wrong decisions were made that different teams should have won the Premiership, advanced to the Champions League, and been relegated. Simple video replay could have prevented most of these bad calls. (Major League baseball learned this lesson,

introducing expanded replay after a bad call cost Detroit Tigers pitcher Armando Galarraga a perfect game.) What matters in sports is not computer-generated projections of ball position but what is seen by the human eye—reconciling what the sports fan sees and what the game official sees.

The Defiant Optimist Wisconsin Historical Society

Report of a commission set up by the missionary societies of Great Britain and United States.

**Indian Horse** Routledge

The stereotype of the woman missionary has ranged from that of the longsuffering wife, characterized by the epitaph Died, given over to hospitality, to that of the spinster in her unstylish dress and wire-rimmed glasses, alone somewhere for thirty years teaching heathen children. Like all caricatures, those of the exhausted wife and frustrated old maid carry some truth: the underlying message of the stereotypes is that missionary women were perceived as marginal to the central tasks of mission. Rather than being remembered for preaching the gospel, the quintessential male task, missionary women were noted for meeting human needs and helping others, sacrificing themselves without plan or reason, all for the sake of bringing the world to Jesus Christ. Historical evidence, however, gives lie to the truism that women missionaries were and are doers but not thinkers, reactive secondary figures rather than proactive primary ones. The first American women to serve as foreign missionaries in 1812 were among the best-educated women of their time. Although barred from obtaining the college education or ministerial credentials of their husbands, the early missionary wives had read their Jonathan Edwards and Samuel Hopkins. Not

only did they go abroad with particular theologies to share, but their identities as women caused them to develop gender-based mission theories. Early nineteenth-century women seldom wrote theologies of mission, but they wrote letters and kept journals that reveal a thought world and set of assumptions about women's roles in the missionary task. The activities of missionary wives were not random: they were part of a mission strategy that gave women a particular role in the advancement of the reign of God. By moving from mission field to mission field in chronological order of missionary presence, Robert charts missiological developments as they took place in dialogue with the urgent context of the day. Each case study marks the beginning of the mission theory. Baptist women in Burma, for example, are only considered in their first decades there and are not traced into the present. Robert believes that at this early stage of research into women's mission theory, integrity and analysis lies more in a succession of contextualized case studies than in gross generalizations.

In this comprehensive history of American Indian education in the United States from colonial times to the present, historians and educators Jon Reyhner and Jeanne Eder explore the broad spectrum of Native experiences in missionary, government, and tribal boarding and day schools. This up-to-date survey is the first one-volume source for those interested in educational reform policies and missionary and government efforts to Christianize and "civilize" American Indian children. Drawing on firsthand accounts from teachers and students, *American Indian Education* considers and analyzes shifting educational policies and

philosophies, paying special attention to the passage of the Native American Languages Act and current efforts to revitalize Native American cultures.

An authentic, definitive and no-holds-barred narrative – packed with fascinating incidents and anecdotes – that brings alive the life and times of one of the most prominent, multifaceted and striking individuals (a former royal) in the sphere of Punjab politics. Beginning with a historical background of how the Patiala kingdom came to be established, and ruled, over the centuries, the author moves on to describe the early years of Amarinder Singh (a scion of that kingdom). He then portrays the Indo-Pak war zone of 1965 (where the protagonist earned his spurs) and finally focuses on the combative arenas of Punjab politics, where numerous electoral and other battles have been (and continue to be) fought. This informative work unravels the subterfuges of politicians and others (including religious leaders) in trying to ensure their dominance. The pages reveal behind-the-scenes intrigues, plots and counter-plots even as Punjab was in the vice-like grip of terrorism in the late twentieth century. Operation Bluestar (June 1984) and its consequences have been objectively recorded. Besides tracing the career graph of Amarinder Singh, who reached his pinnacle when he became the chief minister of Punjab in February 2002, the author provides useful insights into crucial events that have made an immense impact on that state and the neighbouring areas over the past few decades. The text also throws light on Amarinder Singh's five-year tenure as chief

minister (marked by both positive and negative aspects) and on the following period, when Parkash Singh Badal regained that post. The contents are rounded off with an update on the Punjab scenario up to February 2017, which saw Amarinder Singh come back with a thumping victory. Here's a saga that records history in the making in Punjab.

The story of the Thomas Indian School has been overlooked by history and historians even though it predated, lasted longer, and affected a larger number of Indian children than most of the more well-known federal boarding schools. Founded by the Presbyterian missionaries on the Cattaraugus Seneca Reservation in western New York, the Thomas Asylum for Orphan and Destitute Indian Children, as it was formally named, shared many of the characteristics of the government-operated Indian schools. However, its students were driven to its doors not by Indian agents, but by desperation. Forcibly removed from their land, Iroquois families suffered from poverty, disease, and disruptions in their traditional ways of life, leaving behind many abandoned children. The story of the Thomas Indian School is the story of the Iroquois people and the suffering and despair of the children who found themselves trapped in an institution from which there was little chance for escape. Although the school began as a refuge for children, it also served as a mechanism for "civilizing" and converting native children to Christianity. As the school's population swelled and financial support dried up, the founders were forced to turn the school over to the state of New York. Under the State Board of Charities, children were subjected to prejudice, poor treatment, and long-term institutionalization,

resulting in alienation from their families and cultures. In this harrowing yet essential book, Burich offers new and important insights into the role and nature of boarding schools and their destructive effect on generations of indigenous populations.

Growing up in middle-class India, Rajika Bhandari has seen generations of her family look westward, where an American education means status and success. But she resists the lure of

America because those who left never return—they all become flies trapped in honey in a land of opportunity. As a young woman, however, she finds herself heading to a US university to study, following her heart and a relationship. When that relationship ends and she fails in her attempt to move back to India as a foreign-educated woman, she returns to the US and finds herself in a job where the personal is political and professional: she is immersed in the lives of international students who come to America from over 200 countries, the universities that attract them, and the tangled web of immigration that a student must navigate. An unflinching and insightful narrative that explores the global appeal of a Made in America education that is a bridge to America's successful past and to its future, *America Calling* is both a deeply personal story of Bhandari's search for her place and voice, and an incisive analysis of America's relationship with the rest of the world through the most powerful tool of diplomacy: education. At a time of growing nationalism, a turning inward, and fear of the "other," *America Calling* is ultimately a call to action to keep America's borders—and minds—open.

In *BURMA BANYAN, A Daughter's Odyssey*, the reader is invited on an intimate set of travels as the author overcomes qualms about returning to Burma after a life span. Memories of Dawnie, her child self, besiege her. These memories are not set in the peaceful, civilized atmosphere of Dehra Dun, nestled in the hills north of Delhi, the setting of her notable first memoir—*Jackals'*

*Wedding, A Memoir of a Childhood in British India*—but in remote areas of northern Burma and in Mandalay, the capital of "Upper Burmah," in an unstable atmosphere and generally unsafe surroundings. The Burma sojourn of the author's immediate family following Japanese occupation during World War II begins with a replay of their last days in India, continuing the compelling true story within a family story. Counterpoint with modern-day travels, the author once again revisits a long-locked past to probe the truth of romanticized early life. She reveals how she and her sister coped with expectations and warnings and absorbed the fears and insecurity of their parents in the aftermath of war to compound their own secret worries, how they became adept at assessing their grownups' mood swings, and chameleonic in adapting themselves accordingly. Entertaining stories of the generations before, ancestors who settled in India and Burma from faraway lands, flow naturally as the daughters' parents, Pansy and William, return to live for a time in the country of their birth. Their resulting storm-and-sun relationship, the nucleus of the symbolic "jackals' wedding," continues as such in *BURMA BANYAN*. Kawahara's odyssey, which completes in an unexpected way, also takes readers from Hawai'i to the British Isles, and forays to Australia and New Zealand in search of "lost" family members. The search for a missing father—and a home—is the taproot of these journeys.

Has your life ever been a proverbial bed of roses? Have you had a father who always took care of all the family's needs? Have you had the leisure of never having to think about the future until post-graduation? Did reality wake you up? This biography of H. L. Dutt is one such journey. After his father's untimely death, Dutt's mother told him that as the eldest son it was his duty to look after the family—his sister, four brothers and mother. For the first time, he faced reality, wept tears and began to plan the future. Income had dried up and they had to make do with his father's gratuity and some savings. Life was stark, life was real and ominous. This is the making of a teacher, and discovering his love for teaching by a chance encounter at a lecturer's job and realizing his love for the open life, natural history, dramatics, oration, and in short all aspects of school life as it should be. He would go on to become the head of famed institutions in the nation, Mayo College, Colvin Taluqdars' College, Daly College and Hyderabad Public School, loved and respected by peers and students alike. His thoughts on education will interest people with some novelty. The book is about the author's experiences, somewhat haphazard but true and sincere.

Indian Education Act--Title IV Milkweed Editions

General Richard Henry Pratt, best known as the founder and longtime superintendent of the influential Carlisle Indian School in Pennsylvania, profoundly shaped Indian education and federal Indian policy at the turn of the twentieth century. His experiences led him to dedicate himself to Indian education, and from 1879 to 1904 he directed the Carlisle school, believing that the only way to save Indians from extinction was to remove Indian youth to nonreservation settings and there inculcate in them what he considered civilized ways.

Farrar, Straus and Giroux

Published in the year of the school's 125th anniversary, Hail Mount Hermon! A Tribute is a tribute not only to the school's founders, principals and teachers but also to all Hermonites (alumni) of all eras and ages who have great love and affection for their alma mater and hopes that Mount Hermon School looks back to its great legacy and lives on to reach greater heights. The book chronicles the school's tragic beginning soon after its opening in 1895, founding of Queen's Hill School in the beginning of the 20th century, the establishment of Mount Hermon School at the present campus in Darjeeling in 1929-30, and how the school has grown and progressed thereafter right up to the

present era. Throughout its 125 years of existence (1895–2020), Mount Hermon School, founded by Christian missionaries of America in the latter part of the 19th century, had its share of ups and downs. However, the school was able to pull through hard times mainly because of the faith, dedication and determination of its leadership. Major events and renowned personalities of the school are well-documented in this book for posterity to note the spirit in which the school was initially

founded and why it survived for so long despite trying circumstances to become one of the leading educational institutions in India. The efforts of the Hermonites and their concern for their alma mater to regain its past glory is recorded in the latter part of this book. Their love and concern for their alma mater is a profound reflection of the spirit that not only gave birth to this great institution but kept it going in the past 125 years through troubled times.
