Speed Writing Skills Training Course: Speedwriting, a guide to faster note taking, an easy to learn alternative to shorthand Most people need a note taking system for work or study but few people have the time or inclination to spend a year or two learning shorthand. BakerWrite Speed Writing enables you to learn a new system in a matter of hours and become proficient within weeks. This book is laid out in 6 easy to follow lessons, that take about an hour each. Practical guided exercises, with full answers, in each chapter and each session is rounded off with a dictation passage (available from <http://www.UoLearn.com>) Save time and become more efficient taking dictation, in meetings, on the telephone, in lectures or interviews. No strange squiggles to learn - just different ways to use the letters you already know. Your notes will be easy to transcribe. A terrific opportunity to save time and change your working practices - for the better
What do people think of this speed writing system? "The principles are very easy to follow, and I am already using it to take notes." "BakerWrite is the easiest shorthand system I have come across. Having studied all the major shorthand systems and even other speed writing courses, I find BakerWrite a sheer delight." "I will use this system all the time." "Your system is so easy to learn and use." Heather studied Pitman shorthand at school and then at secretarial college in England; she later learned Teeline shorthand and now regularly teaches these.

BakerWrite™ is based on her experience with these systems and 22 years as a secretary and PA - taking notes daily. She has been training and coaching secretaries, PAs and administrators since 2000. Please note there is an alternative edition of this book, Easy 4 Me 2 Learn Speed Writing. Heather had over twenty years' experience as a secretary and PA before setting up Baker Thompson Associates Limited in 2000. The company specializes in the training and development of secretarial and administrative staff, www.bakerthompsonassoc.co.uk She now travels all over the UK working with large and small companies to enable their office staff and PAs to work more effectively. She developed this speed writing system to fulfill a requirement by many companies for a quick and easy way for their employees to take notes. The course became very popular and she was often asked if there was a book with the basics of the system - so here it is To contact Heather please visit the speedwriting section of the publishers' website, <http://www.UoLearn.com> I am 51 years old and have been a secretary more or less since I left school. I took the requisite Pitmans shorthand course whilst at school and have never been able to understand it, all those squiggles and lines. I have used my own speed writing version of words through the years and have managed to get by (as long as I dealt with the notes as soon as I had written them and the dictator wasn't too quick - so it was half memory and half being able to read my own shorthand version). But now, everything is so clear and makes complete sense. I take your book on the train every morning and even after the first reading it completely made sense and I could even remember most of what I had read in the first chapter and believe me my memory at retaining new info is not as it used to

be. Even when I was reading your abbreviations I was able to see what they were in a lot of cases before I checked the meaning. I am thoroughly enjoying learning a new skill from a book that is so simple to understand and I have already started to implement my new dictionary of words when taking notes. A great big thank you for developing a system that is so easy to understand and completely workable and I looking forward to showing off my new skills when taking notes (which I will actually be able to understand) at the next board meeting. The GREGG Shorthand Manual Simplified Oxford University Press
W.V. Quine, a champion of philosophical naturalism and pioneer of mathematical logic, was one of the most important philosophers of the 20th century. Contemporary thought in ontology, epistemology, and the philosophy of logic and language

owes much to his influence, yet recent work in these areas has become increasingly dismissive of his views. This is often because of mistaken or overly simplified conceptions of his philosophy which overlook the development of his views over time, in particular the growing importance of a kind of structuralism to his system as it evolved. This volume provides a fuller, richer picture of Quine's views and their development. With contributions from leading philosophers in a range of subfields including philosophical logic, philosophy of language, history of philosophy, mathematics, philosophy of time, and set theory, it is the first to investigate Quine's views on structure and how it permeates and shapes his attitude to a range of philosophical questions.

The year 2008 marks the four hundredth anniversary of the first publication of *King Lear*, and for four centuries the play has remained a consummate bibliographical mystery. Winner of the 2007 Jay L. Hailo prize for best manuscript in Shakespeare studies, *Shakespeare in Shorthand* demonstrates that many textual anomalies derive from the play's transcription in Elizabethan shorthand. The shorthand system of John Willis, *Stenographie* (1602), shows a high correlation with the unusual textual features found in the first quarto of *Lear* (1608). The patterns of variants in the quarto conform to Willis' rules regarding the reduction of diphthongs and digraphs and the omission of aspirated, doubled, or unsounded letters. In the past two decades the textual interrelation of quarto and folio (1623) *Lear* has proven one of the most contested issues in Shakespearean studies, and an examination of *Stenographie*

reveals that some of these textual differences result not from authorial revision, but from transmission in abbreviated writing. Bibliographical evidence also indicates that some textual omissions from the folio version are neither authorial nor theatrical, but derive from the printing house.
