 "Volinworks, in two volumes, is a comprehensive method for the adult beginner,

taking students carefully from the very first steps to around Grade 3 standard. The approach suits self-taught beginners as well as those who have teachers, and emphasizes the importance of good habits from day one, of using your ear, and of always aiming for the best sound. Each volume contains a wide selection of repertoire, plus detailed descriptions and photos to demonstrate correct playing positions. The accompanying CD includes play-along tracks

for all pieces, with piano, string quartet, or band backings, plus aural exercises and downloadable PDFs of piano accompaniments. There are supporting video clips and additional resources on a dedicated website, making Violinworks a complete resource for all new learners."--Publisher's description.

Teaching Piano in Groups provides a one-stop compendium of information related to all aspects of group piano teaching. Motivated by an ever-growing interest in

this instructional method and its widespread mandatory inclusion in piano pedagogy curricula, Christopher Fisher highlights the proven viability and success of group piano teaching, and arms front-line group piano instructors with the necessary tools for practical implementation of a system of instruction in their own teaching. Contained within are: a comprehensive history of group piano teaching; accessible overviews of the most important theories and philosophies

of group psychology and instruction; suggested group piano curricular competencies; practical implementation strategies; and thorough recommendations for curricular materials, instructional technologies, and equipment. Teaching Piano in Groups also addresses specific considerations for pre-college teaching scenarios, the public school group piano classroom, and college-level group piano programs for both music major and non-music

majors. Teaching Piano in Groups is accompanied by an extensive companion website, featuring a multi-format listing of resources as well as interviews with several group piano pedagogues.
