Breakthrough Business Analysis Berrett-Koehler Publishers
Susan Orlean's bestseller and New York Times Notable Book is "a sheer delight...as rich in insight and as varied as the treasures contained on the shelves in any local library" (USA TODAY)—a dazzling love letter to a beloved institution and an investigation into one of its greatest mysteries. "Everybody who loves books should check out *The Library Book*" (The Washington Post). On the morning of April 28, 1986, a fire alarm sounded in the Los Angeles Public Library. The fire was disastrous: it reached two thousand degrees and burned for more than seven hours. By the time it was extinguished, it had consumed four hundred thousand books and damaged seven hundred thousand more. Investigators descended on the scene, but more than thirty years later, the mystery remains: Did someone purposefully set fire to the library—and if so, who? Weaving her lifelong love of books and reading into an investigation of the fire, award-winning New Yorker reporter and New York Times bestselling author Susan Orlean delivers a "delightful...reflection on the past, present, and future of libraries in America" (New York magazine) that

manages to tell the broader story of libraries and librarians in a way that has never been done before. In the "exquisitely written, consistently entertaining" (The New York Times) *The Library Book*, Orlean chronicles the LAPL fire and its aftermath to showcase the larger, crucial role that libraries play in our lives; delves into the evolution of libraries; brings each department of the library to vivid life; studies arson and attempts to burn a copy of a book herself; and reexamines the case of Harry Peak, the blond-haired actor long suspected of setting fire to the LAPL more than thirty years ago. "A book lover's dream...an ambitiously researched, elegantly written book that serves as a portal into a place of history, drama, culture, and stories" (Star Tribune, Minneapolis), Susan Orlean's thrilling journey through the stacks reveals how these beloved institutions provide much more than just books—and why they remain an essential part of the heart, mind, and soul of our country.

Katharine Norbury was abandoned as a baby in a Liverpool convent. Raised by a loving adoptive family, she grew into a wanderer, drawn by the landscape of the British countryside. One summer, following the miscarriage of a much-longed-for child, Katharine sets out—accompanied by her nine-year-old daughter, Evie—with the idea of following a river from the sea to its source. The luminously observed landscape grounds the walkers, providing both a constant

and a context to their expeditions. But what begins as a diversion from grief evolves into a journey to the source of life itself: a life threatening illness forces Katharine to seek a genetic medical history, and this new and unexpected path delivers her to the door of the woman who abandoned her all those years ago. Combining travelogue, memoir, exquisite nature writing, and fragments of poems with tales from Celtic mythology, *The Fish Ladder* has a rare emotional resonance. It is a portrait of motherhood, of a literary marriage, a hymn to the adoptive family, but perhaps most of all it is an exploration of the extraordinary majesty of the natural world. Imbued with a keen and joyful intelligence, this original and life-affirming book is set to become a classic of its genre.

Secrets of the Garden Berrett-Koehler Publishers

When a Chinese monk broke into a hidden cave in 1900, he uncovered one of the world's great literary secrets: a time capsule from the ancient Silk Road. Inside, scrolls were piled from floor to ceiling, undisturbed for a thousand years. The gem within was the Diamond Sutra of AD 868. This key Buddhist teaching, made 500 years before Gutenberg inked his press, is the world's oldest printed book. The Silk Road once linked China with the Mediterranean. It conveyed merchants, pilgrims and ideas. But its cultures and oases were swallowed by shifting sands. Central to the Silk Road's rediscovery was a man named Aurel Stein, a Hungarian-born scholar and archaeologist employed by the British service. Undaunted by the vast Gobi Desert, Stein crossed thousands of desolate miles with his fox terrier Dash. Stein met the Chinese monk and secured the Diamond Sutra and much more. The scroll's journey—by camel through arid desert, by boat to London's curious scholars, by train to evade the bombs of World War II—merges an explorer's adventures, political intrigue, and continued controversy. The Diamond Sutra has inspired Jack Kerouac and the Dalai

Lama. Its journey has coincided with the growing appeal of Buddhism in the West. As the Gutenberg Age cedes to the Google Age, the survival of the Silk Road's greatest treasure is testament to the endurance of the written word.

A Song for the Road Unearthing Business Requirements Elicitation Tools and Techniques

Growing up as the daughter of a funeral director in Fort Bend County, Texas, Marie Theresa Hernández was a frequent visitor to the San Isidro Cemetery, a burial place for Latino workers at the Imperial Sugar Company, based in nearby Sugar Land. During these years she acquired from her father and mother a sense of what it was like to live as an ethnic minority in Jim Crow Texas.

Therefore, returning to the cemetery as an ethnographer offered Hernández a welcome opportunity to begin piecing together a narrative of the lives and struggles of the Mexican American community that formed her heritage. However, Hernández soon realized that San Isidro contained hidden depths. The cemetery was built on the former grounds of an old slave-owning plantation. Her story quickly burgeoned from one of immigrant laborers working the land of the giant sugar company to one of the slave laborers who had worked the sugar plantations decades before, but whose history had been largely wiped out of the narrative of the affluent, white-majority county. Much like an archeologist, Hernández began carefully brushing away layers of time to reveal the fragile, entombed remnants of a complex, unknown past. A professional photographer as well as a scholar, Hernández provides visual images to spur the reader's imagination and anchor the narrative in historical reality. She mines interviews, newspaper accounts, and other primary sources—interpreted through her own rich sense of place and time—to reconstruct the identity of a community where the Old South, the wealthy New South, and the culture from south of the border all come together to form an almost iconic symbol for today's America. In this complex and nuanced, self-reflexive ethnography, Hernández interweaves personal memory and group history, ethnic experience and class . . . even death and life.

Elizabeth Gilbert, author of *The Signature of All Things* and *Eat, Pray, Love* "What a cool and fascinating ride. Leigh Ann Henion has tackled one of the great questions of contemporary, intelligent, adventurous women: Is it possible to be a wife and mother and still explore the world? Her answer seems to be that this is not only possible, but essential. This story shows how. I think it will open doors for many." Heartfelt and awe-inspiring, Leigh Ann Henion's *Phenomenal* is a moving tale of physical grandeur and emotional transformation, a journey around the world that ultimately explores the depths of the

human heart. A journalist and young mother, Henion combines her own varied experiences as a parent with a panoramic tour of the world's most extraordinary natural wonders. Phenomenal begins in hardship: with Henion deeply shaken by the birth of her beloved son, shocked at the adversity a young mother faces with a newborn. The lack of sleep, the shrinking social circle, the health difficulties all collide and force Henion to ask hard questions about our accepted wisdom on parenting and the lives of women. Convinced that the greatest key to happiness—both her own and that of her family—lies in periodically venturing into the wider world beyond home, Henion sets out on a global trek to rekindle her sense of wonder. Henion's quest takes her far afield, but it swiftly teaches her that freedom is its own form of parenting—one that ultimately allows her to meet her son on his own terms with a visceral understanding of the awe he experiences every day at the fresh new world. Whether standing on the still-burning volcanoes of Hawai'i or in the fearsome lightning storms of Venezuela, amid the vast animal movements of Tanzania or the elegant butterfly migrations of Mexico, Henion relates a world of sublimity and revelation. Henion's spiritual wanderlust puts her in the path of modern-day shamans, reindeer herders, and astrophysicists. She meets laypeople from all over the world, from all walks of life, going to great lengths to chase migrations, auroras, eclipses, and other phenomena. These seekers trust their instincts, follow their passions, shape their days into the lives they most want to lead. And, somewhere along the way, Leigh Ann Henion becomes one of them. A breathtaking memoir, Phenomenal

reveals unforgettable truths about motherhood, spirituality, and the beauty of nature. Oprah.com "Part travel memoir, part parenting manifesto and part inquiry into those 'fleeting, extraordinary glimpses of something that left us groping for rational explanations in the quicksand of all-encompassing wonder.'"
