The Earth and Its Peoples: A Global History, Volume II: Since 1500  
Verso Books

Best-selling author Jackson Spielvogel has helped over one million students learn about the present by exploring the past. Spielvogel's engaging narrative weaves the political, economic, social, religious, intellectual, cultural, and military aspects of history into a gripping story that is as memorable as it is instructive. Updated to reflect current scholarship, WESTERN CIVILIZATION, 10th Edition, includes more than 150 maps and excerpts of more than 250 primary sources that enliven the past while introducing students to the source material of historical

scholarship. Additionally, the text is illustrated with more than 400 photographs that add visual context. A variety of pedagogical tools, including focus and critical thinking questions, primary source features with assignable questions, and end-of-chapter study aids, make this edition accessible to any learning style. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

### **Western Civilization** Cengage Learning

This brief, best-selling Western Civilization text has helped thousands of students learn about the world they live in by exploring the story of its past. Jackson Spielvogel's engaging chronological narrative and extensive inclusion of primary source documents weave the political, economic, social, religious, intellectual, cultural, and military aspects of history into a

gripping story that is as memorable as it is instructive. This edition includes new historiographical sections along with updated scholarship and new images. The textbook is available in the following split options: WESTERN CIVILIZATION: A BRIEF HISTORY, 9th EDITION COMPLETE, VOLUME I: TO 1715, and VOLUME II: SINCE 1500. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Featuring a beautiful new design, THE EARTH AND ITS PEOPLES, Sixth Edition, presents world history in a balanced, global framework, shifting the focus away from political centers of power. This truly global text for the world history survey course employs fundamental themes of “environment and technology” and “diversity and dominance” to explore patterns of humans' interactions with their surroundings and with each other. The authors' approach reveals how humanity continues to shape and be shaped by the environment and how dominant structures and traditions are balanced and challenged by alternate beliefs. Special emphasis is given to technological development and how

it underlies all human activity. Highly acclaimed in their fields of study, the authors bring a wide array of expertise to the program. A combination of strong scholarship and detailed pedagogy gives the book its reputation for rigor and student accessibility.

#### The West and the Rest Cengage Learning

People around the world are confused and concerned. Is it a sign of strength or of weakness that the US has suddenly shifted from a politics of consensus to one of coercion on the world stage? What was really at stake in the war on Iraq? Was it all about oil and, if not, what else was involved? What role has a sagging economy played in pushing the US into foreign adventurism and what difference does it make that neo-conservatives rather than neo-liberals are now in power? What exactly is the relationship between US militarism abroad and domestic politics? These are the questions taken up in this compelling and original book. Closely argued but clearly written, 'The New Imperialism' builds a conceptual framework to expose the underlying forces at work behind these momentous shifts in US policies and politics. The compulsions behind the projection of US power on the world as a 'new imperialism' are here, for the first time, laid bare for all to see. This new paperback edition contains an Afterword written to coincide with the result of the 2004 American presidential election.

*Essays in National, Transnational and Conceptual History* BRILL

In this companion volume to the acclaimed classic *The Overthrow of Colonial Slavery*, Robin Blackburn traces European doctrines of

race and slavery from medieval times to the early modern epoch. At the time when European powers colonized the Americas, the institution of slavery had almost disappeared from Europe itself. Having overcome an institution widely regarded as oppressive, why did they sponsor the construction of racial slavery in their new colonies? *The Making of New World Slavery* finds in the emergent West both a stigmatization of the ethno-religious Other and a new culture of consumption, freed from earlier moral restrictions. Robin Blackburn argues that independent commerce, geared to burgeoning consumer markets, was the driving force behind the rise of plantation slavery. The Baroque state fed greedily off this commerce whilst unsuccessfully seeking to regulate slavery. Successive chapters of the book consider the deployment of slaves in the colonial possessions of the Portuguese, the Spanish, the Dutch, the English and the French. Robin Blackburn argues that the organization of slave plantations placed the West on a destructive path to modernity and that greatly preferable alternatives were both proposed and rejected. Finally he shows that the surge of Atlantic trade, premised on the killing toil of the plantations, made a decisive contribution to both the Industrial Revolution and the rise of the West. *The Making of New World Slavery* is a masterly study of this momentous and baleful epoch in the making of the modern world.

Over the last 50 years, language policy has developed into a major discipline, drawing on research and practice in many nations and at many levels. This is the first Handbook to deal with language policy as a whole and is a complete 'state-of-the-field'

survey, covering language practices, beliefs about language varieties, and methods and agencies for language management. It provides a historical background which traces the development of classical language planning, describes activities associated with indigenous and endangered languages, and contains chapters on imperialism, colonialism, effects of migration and globalization, and educational policy. It also evaluates language management agencies, analyzes language activism and looks at language cultivation (including reform of writing systems, orthography and modernized terminology). The definitive guide to the subject, it will be welcomed by students, researchers and language professionals in linguistics, education and politics.

Global Trends 2030 Penguin

Winner of the first Paul A. Baran-Paul M. Sweezy Memorial Award for an original monograph concerned with the political economy of imperialism, John Smith's *Imperialism in the Twenty-First Century* is a seminal examination of the relationship between the core capitalist countries and the rest of the world in the age of neoliberal globalization. Deploying a sophisticated Marxist methodology, Smith begins by tracing the production of certain iconic commodities—the T-shirt, the cup of coffee, and the iPhone—and demonstrates how these generate enormous outflows of money from the countries of the Global South to transnational corporations headquartered in the core capitalist nations of the Global North. From there, Smith draws on his empirical findings to powerfully theorize the current shape of imperialism. He argues that the core capitalist countries need no longer rely on military force and colonialism (although these still occur) but increasingly are able to extract profits from workers in the Global

South through market mechanisms and, by aggressively favoring places with lower wages, the phenomenon of labor arbitrage. Meticulously researched and forcefully argued, *Imperialism in the Twenty-First Century* is a major contribution to the theorization and critique of global capitalism.

*Making Europe: The Story of the West, Volume I to 1790* Cengage Learning

More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, *Orientalism* remains one of the most important books written about our divided world.

**World History, Volume I: To 1800** GENERAL PRESS

The idea for this book came while I was observing a student teacher and a master teacher. I realized that most student teachers while in training do not have the opportunity to think creatively about their lessons. I also noticed that teachers new to the field of teaching suffer the same fate; they are too busy trying to survive the day and are not sure how to plan and organize their teaching. Lesson plans are one of the most important tools for a teacher and more important for the novice teacher. I believe that during student teaching or during their

undergraduate years, if students were equipped with this book their first year teaching will not look so first year. Imagine an undergraduate class filled with soon to be Social Studies teachers discussing these selected lesson plans, improving upon them and making them their own. Most first year teachers over teach or under teach and both types still miss the marks on the standardized test. These lesson plans will give the new teacher a place to begin.

**From the Baroque to the Modern, 1492-1800** Cengage Learning

Noted teachers and scholars William J. Duiker and Jackson J. Spielvogel present a balanced, highly readable overview of world history that explores common challenges and experiences of the human past and identifies key patterns over time. Thorough coverage of political, economic, social, religious, intellectual, cultural, and military history is integrated into a chronological framework to help students gain an appreciation and understanding of the distinctive character and development of individual cultures in society. This approach, with organization around seven major themes (Science and Technology, Art and Ideas, Family and Society, Politics and Government, Earth and the Environment, Religion and Philosophy, and Interaction and Exchange), helps students link events together in a broad comparative and global framework, thereby placing the contemporary world in a more meaningful historical context. Available in the following options: *WORLD HISTORY*, Eighth Edition (Chapters 1–30); Volume I: To 1800 (Chapters 1–18); Volume II: Since 1500 (Chapters 14–30). Important Notice: Media content referenced within the product description or the product

text may not be available in the ebook version.

Cengage Learning

*VOYAGES IN WORLD HISTORY, BRIEF EDITION*, masterfully uses the theme of movement—the journeys of peoples, ideas, and goods—to help students make sense of the huge range of people, places, and events throughout history. Each chapter is framed around the story of a person who traveled within the time period and region under discussion. Students can practice being critical readers by evaluating the traveler's observations and attitudes. A primary source feature, “Movement of Ideas,” helps students develop the core skill of analyzing sources by allowing them to compare multiple explanations of significant ideas. This brief text meets the needs of instructors who want a lively narrative style without sacrificing the themes and pedagogy that make world history understandable to students; it is also ideal for instructors who want to supplement a text with many primary sources. Available in the following options: *VOYAGES IN WORLD HISTORY, BRIEF EDITION*, 2nd Edition (Chapters 1–32); Volume I: To 1600 (Chapters 1–16); Volume II: Since 1500 (Chapters 15–32). Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Introduction: Politics on the boundaries -- The U.S.-indigenous relationship : a struggle over colonial rule -- Resisting American domestication : the U.S. Civil War and the Cherokee struggle to

be "still, a nation"--1871 and the turn to postcolonial time in U.S.-indigenous relations -- Indigenous politics and the "gift" of U.S. citizenship in the early twentieth century -- Between civil rights and decolonization : the claim for postcolonial nationhood -- Indigenous sovereignty versus colonial time at the turn of the twenty-first century -- Conclusion: The third space of sovereignty. *Scaling the Balkans* Horney Press

Vladimir Ilich Lenin's *Imperialism: The Highest Stage of Capitalism*, originally published in 1916, was one of the first attempts to account for the increasing importance of the world market in the twentieth century. The essay is a synthesis of Lenin's modifications and developments of economic theories that Karl Marx formulated in 'Das Kapital'. This remarkable Marxist text explains fully the inescapable flaws and destructive power of Capitalism. Lenin offers a predictive scenario of a world shaken by competitive instability, warfare and crisis, dominated by monopolies, the merging of finance and industrial capital, and fierce territorial competition. Its pertinence is now greater than ever. Lenin vaticinated that those third world countries used merely as capitalist labour would have no choice but to join the Communist revolution in Russia. His theoretical framework remains the best method for understanding recent global

developments.
