**FRCS General Surgery Viva Topics and  
Revision Notes** CRC Press  
Reflecting the latest exam developments

and covering the entire syllabus, this book focuses on providing complete revision coverage for the PACES exam. It is divided into five easy-to-use chapters, each representing a station from the exam, and integrates both the clinical and non-clinical aspects of the exam. It presents a wide range of commonly asked stations with detailed information laid out in a clear, concise manner, aided by photographs

and diagrams.

Revision Notes for the Final FRCR Part A summarises the core knowledge required for each of the six systems based modules included in the exam, all in highly succinct bullet point format. The book takes the stress out of the revision process by providing candidates with a readymade set of highly synthesised and relevant notes that focus exclusively on the topics encountered in the exam. Each chapter has been authored by recent exam candidates and in turn edited by sub-specialty radiologists to provide highly relevant, high quality, high yield revision notes.

**Get Through MRCP: PACES** CRC Press  
Get Through FRCR Part 1: MCQs and Mock Examination is the essential and highly praised revision aid for the Royal College of Radiologists' FRCR Part 1 exam. Providing comprehensive coverage of the new FRCR Part 1 syllabus, this title presents questions in a similar style to the exam, accompanied by detailed yet uncomplicated explanations. Paying special attention to legislation, this book also covers recent advances in the field and radiation protection issues. Get Through FRCR Part 1 is ideal for FRCR

candidates and tutors, radiographers, radiologists and medical physics students. **Get Through First FRCR: Questions for the Anatomy Module** Radcliffe Publishing  
The MRCPCH clinical examination assesses whether candidates have reached the standard in clinical skills expected of a newly appointed specialist registrar, while the DCH recognises the competence of GPs and other health professionals in caring for children. Success in communication skills is vital to achieve overall success in these examinations. This revised and expanded Second Edition includes over a dozen new scenarios for both examinations, a new chapter on the general approach to effective communication, an expanded clinical exam mark sheet, anchor statements and exam circuit diagrams. Although written to aid candidates for the clinical MRCPCH and DCH examinations, this book will also be useful to paediatric trainees in their day-to-day clinical encounters.

**The SRT Collection of 600 Questions with Explanatory Answers** Cambridge University Press  
First FRCR Anatomy: Mock Papers offers the most up-to-date and comprehensive

coverage of practice cases for trainees preparing for the First FRCR Anatomy exam. Chapters presented as 15 complete mock papers, covering the full range of imaging modalities. Featuring a wealth of practice cases covering all the key topics, this book provides the essential revision tool to maximise chances of exam success. Key Points 300 high quality images, reflecting the breadth of topics encountered in the actual exam 15 mock papers to enable trainees to practice and improve exam technique Highly illustrated to simplify complex anatomy and improve understanding Edited by highly experienced radiological anatomist, Professor Jamie Weir  
**Complements First FRCR Anatomy: Practice Cases** – the complete FRCR Anatomy revision package  
**The Final FRCR** Radcliffe Publishing  
A sound knowledge of basic sciences is vital for any doctor with an interest in ophthalmology, and is a significant part of all postgraduate examinations in the subject. Featuring 640 multiple choice questions, this is a comprehensive revision guide for candidates taking the basic sciences component of the FRCOphth and ICO examinations. It is highl

*Passing the FRCR Part 1: Cracking Anatomy* CRC Press

What are the indications for necrosectomy? How you perform an EUA for acute peri-anal sepsis? What do you understand by the term Early Goal-Directed Therapy (EGDT)? Remember: this is a consultant's exam, and giving a range of options is not good enough. You must tell the examiner what you as a consultant are going to do. The FRCS is a uniquely challenging prospect; highly detailed, wide-ranging and encompassing both theory and practice. Preparation for this exam can be very difficult, and resources tailored to it are scarce. As the consolidated notes of a recent successful candidate, this book is an essential resource when preparing for the viva. The wide variety of questions require you to define, diagnose or choose between treatment options, while MCQs and SBAs help you to objectively evaluate your progress - a unique supplement to your study plan. Answers provided are comprised of an invaluable combination of detailed written answers and lists that will remind you of key points and help you structure your preparation.

*Final Fr Pt A Modules 1-3 Single Best an* CRC Press

Postgraduates studying dermatology can face a lack of appropriate revision aids: reference books are often too exhaustive or out-of-date, while undergraduate and introductory texts lack the necessary detail and depth. This book is specifically designed for postgraduate examinations, and is the perfect accompaniment for the diploma in dermatology.

**First FRCR Anatomy** Cambridge University Press

Legendary American Radiology Board Review Expert Prometheus Lionhart presents a comprehensive review for the FRCR Part A Exam. This is a 2 volume Set. This is Volume 1 which includes, Modules 1-3 (Cardiothoracic and Vascular, Musculoskeletal, and Gastrointestinal).

**SBAs for the FRCR 2A** JP Medical Providing everything you need to pass the FRCR Part 2A, this book provides a thorough assessment of a candidate's radiological knowledge. The book is divided into six chapters, with 75 questions in each chapter, mirroring the modules and exam papers laid out by the Royal College of Radiologists. This makes

you as familiar as possible with its style, content and structure and facilitates directed learning. All questions have been formulated to reflect the current best practice and evidenced-base, ensuring candidates' knowledge of their field is up-to-date. A detailed explanation is provided for each question, including references to review publications or widely-used textbooks, which allow detailed follow-up on the issues discussed.

**Get Through FRCR Part 1: MCQs and Mock Examination** Thieme

Eight test papers modelled on the RCR anatomy exam, written by experienced subspecialty radiologists and successful FRCR candidates.

Medical Imaging Physics for the First FRCR Examination Radcliffe Publishing

SBAs for the Final FRCR is an invaluable guide to the new Single Best Answer (SBA) paper for the Final FRCR examination, providing over 350 SBA-style questions and referenced answers written in the style of the Royal College of Radiologists. Each question is accompanied by a concise yet detailed model answer carrying references and additional notes. The answers also act as a useful reference

source for many of the key topics found in the syllabus. Questions are categorised in the same six modules that compose the FRCR 2A: • Cardiothoracic and vascular • Musculoskeletal and trauma • Gastro-intestinal • Genito-urinary, adrenal, obstetrics and gynaecology, breast • Paediatric • Central nervous system, head and neck Written by a group of authors who have recently successfully completed the exams, SBAs for the Final FRCR is an essential revision aid for all candidates undertaking the FRCR Part 2A.

Crack the Core Exam - Volume 1 Anshan Pub

Three years after the publication of the first edition, this book remains the best seller in its category based on its faithful representation of the FRCR Part 1 exam. The second edition is designed to reflect the change in exam format introduced in spring 2013. It includes two new chapters as well as some new cases in the remaining chapters and tests. Under the new exam format, candidates will be presented with 100 cases, with a single question per case and a single mark for the correct answer. This book covers all core topics addressed by the exam in a

series of tests and includes chapters focussing specifically on paediatric cases and normal anatomical variants. The answers to questions, along with explanations and tips, are supplied at the end of each chapter. Care has been taken throughout to simulate the exam itself, so providing an excellent revision guide that will help candidates to identify the level of anatomical knowledge expected by the Royal College of Radiologists.

**SBAs for the Final FRCR 2A** CRC Press  
This is the first revision book to be published specifically for candidates sitting the FRCS(Urol) examination. It presents a selection of questions arising from common clinical scenarios along with detailed model answers. The emphasis is on current concepts and topics asked in the exam. Each chapter has been written by senior urology trainees who have recently passed the examination, in conjunction with experienced consultant urological surgeons. In addition to FRCS(Urol) examination candidates, this book will also be relevant to those sitting the FEBU or MSc urology examination, or to established consultants seeking a useful refresher text in areas outside their

subspecialist interest. 'The British Association of Urological Surgeons (BAUS) is a charity whose mission is to promote the highest standard in the practice of Urology. As President of BAUS, it is therefore a great privilege and pleasure to introduce this excellent book.' - from the Foreword by Derek Fawcett 'No Urology trainee should be without this important and valuable contribution to the training of future consultants.' - from the Foreword by Hashim U Ahmed

First FRCR Anatomy CRC Press

Single best answer (SBA) questions have been introduced into the Final FRCR Part A examination of the Royal College of Radiologists in the UK for the first time. This book of 600 SBA questions and explanatory answers has been written to aid students preparing for the exam by current trainees in clinical radiology, coordinated through The Society of Radiologists in Training (SRT). Questions are grouped by topic and each topic is split into three papers of 70 questions, with explanations separated into chapters to enable readers to either attempt a whole mock exam paper or to browse question by question. The book is a bridge

between a pure revision aid and a reference text, including a bibliography of useful references for further information. Candidates for other professional exams in Radiology will find the text useful, as will and those from other specialties wishing to explore the radiological aspects of their syllabus in greater depth. This is a companion volume to Final FRCR Part A Modules 4-6 Single Best Answer MCQs by the same team.

Strategy Guide and Comprehensive Study Manual OUP Oxford

FRCR Part 1 Anatomy Mock MCQ Examinations provides essential practice for the new anatomy examination introduced by the Royal College of Radiologists. Written according to the syllabus set by the Royal College, each mock examination is laid out and structured in the same way as the actual

papers, ensuring users gain familiarity with both the content and the style. Containing 10 mock examinations and 200 high quality MRI, CT, ultrasound, fluoroscopy, angiography and plain film images, all anatomical areas are covered, including normal variants and paediatric cases. By the end of the book, readers will have encountered every imaging modality and the majority of cases covered in the exam itself. Written by specialist registrars and a highly experienced radiology consultant and Fellowship examiner, FRCR Part 1 Anatomy Mock MCQ Examinations is the must-have revision tool for all Part 1 FRCR candidates.

**FRCR 2B Viva: A Case-based Approach**  
JP Medical Ltd

This book provides a mixture of case-based teaching, structured questions, and self-assessment techniques relevant to the

evolving modern curriculum. It covers critical areas including knowledge of when to investigate a patient, which modality best answers a specific clinical question and how to interpret chest and abdominal X-rays. --

Radiology for Undergraduate Finals and Foundation Years CRC Press

Legendary American Radiology Board Review Expert Prometheus Lionhart presents a comprehensive review for the FRCR Part A Exam. This is a 2 volume Set. This is Volume 2 which includes, Modules 4-6 (Genito-urinary, Adrenal, Obstetrics & Gynaecology, Breast, Paediatrics, Neuroradiology).
