[What Is Cupping Therapy? Uses, Benefits, Side Effects, and ...](#) Cupping Therapy
 Traditional Chinese Medicine Cupping is a therapy used in traditional Chinese medicine (TCM) to remove stagnation and stimulate the flow of qi (chi). Qi is the free flow of vital energy circulating through the body and the world around us, if the qi is disrupted or disturbed, it can create stagnation (blockages) or imbalances in the body. Does Cupping Therapy Work? Side Effects, Benefits & Types He has studied further in Nanjing, China, at the College of Traditional Chinese Medicine and First Affiliated Hospital in the Internal Medicine, Dermatology and Gynaecology departments. Ilkay has practiced cupping from an early age, gaining his first experience of the technique when employing the traditional Turkish folklore remedy for colds. Traditional Chinese Medicine Cupping Therapy ... According to traditional Chinese medicine (TCM), cupping is done to dispel stagnation (stagnant blood and lymph), thereby improving qi flow, in order to treat respiratory diseases such as the common cold, pneumonia and bronchitis. Cupping also is used on back, neck, shoulder and other musculoskeletal conditions. Cupping therapy - Wikipedia Cupping therapy in traditional Chinese Medicine is created by placing a glass or plastic jars on the surface of the body to create a vacuum. After the air is removed (by either air pump or fire) the cups create suction and are placed over the area of pain or muscle tension. Fire Cupping Therapy-Traditional

Chinese Medicine Traditional Chinese Medicine cupping works on your body's meridian system, to open any potential stagnant/stagnating/blocked points for a better flow of Qi. This will also help to rejuvenate specific meridians and organs that have/are not functioning at their maximum/best potential. Traditional Chinese Medicine (TCM) Cupping "Acupuncture and cupping, more than half of the ills cured," is a famous Chinese saying, supporting traditional Chinese medicine. Traditional Chinese medicine brings to mind acupuncture and the use of natural herbs as healing remedies.
