## **JANIYAH SOSA**

---

*Billboard* Gost Books

Edward Vizetelly's 1901 memoir of his time as a journalist in the Middle East and Africa between 1878 and 1889.

**The Subject Index to Periodicals** Cambridge University Press  
This House to Let is a book by William Le Queux. An old fashioned detective story, where Constable Brown must solve a crime and find the culprits in Kensington, UK.

[The Indiana Farmer](#) Tor Books

A page-turning novel that is also an exploration of the great

philosophical concepts of Western thought, Jostein Gaarder's *Sophie's World* has fired the imagination of readers all over the world, with more than twenty million copies in print. One day fourteen-year-old Sophie Amundsen comes home from school to find in her mailbox two notes, with one question on each: "Who are you?" and "Where does the world come from?" From that irresistible beginning, Sophie becomes obsessed with questions that take her far beyond what she knows of her Norwegian village. Through those letters, she enrolls in a kind of correspondence course, covering Socrates to Sartre, with a mysterious philosopher, while receiving letters addressed to another girl. Who is Hilde? And why does her mail keep turning up? To unravel this riddle, Sophie must use the philosophy she is

learning—but the truth turns out to be far more complicated than she could have imagined.

The Secret Agent: Ultimate Spy Collection brings together an unparalleled assembly of espionage narratives from the pens of some of the most prolific authors in the genre. This extensive anthology spans a wide array of styles, from the classic intrigue of Arthur Conan Doyle to the adventurous tales of John Buchan, and the psychological complexity of Joseph Conrad. Comprising a diverse suite of literary approaches, this collection offers readers a panoramic view of the evolution and thematic depth of spy fiction, from the suspenseful and the fantastical to the deeply introspective, reflecting the variegated scope of human intelligence and duplicity. The authors contributing to this colossal anthology are not only pioneers in the spy and adventure genres but have also been influential voices in shaping the literary landscape of the late 19th and early 20th centuries. Through their collective works, this collection aligns with and contributes to a variety of historical, cultural, and literary movements, offering insights into the zeitgeist of their times. Distinct in their narrative voices, these authors together weave a rich tapestry that explores the nuances of espionage, loyalty, and moral ambiguity, enriching the readers understanding of the complexities involved in the world of international intrigue and covert operations. For enthusiasts of spy fiction, The Secret Agent: Ultimate Spy Collection is an indispensable tome, offering an unrivalled opportunity to explore the domain of espionage across different periods and perspectives. Readers are invited to delve into this comprehensive volume not only for its

entertainment value but for its scholarly merit as well; providing insights into the evolution of spy fiction as a genre. This anthology stands as a testament to the enduring appeal of the spy narrative, engaging with themes of subterfuge, geopolitical stakes, and the perennial question of what it means to lead a double life. In navigating the shadows with these master storytellers, readers will find themselves on a thrilling journey through the annals of literary espionage.

*The Rotarian* David Stanley

From the winner of the 2017 John W. Campbell Award for Best New Writer, Ada Palmer's 2017 Compton Crook Award-winning political science fiction, *Too Like the Lightning*, ventures into a human future of extraordinary originality Mycroft Canner is a convict. For his crimes he is required, as is the custom of the 25th century, to wander the world being as useful as he can to all he meets. Carlyle Foster is a sensayer--a spiritual counselor in a world that has outlawed the public practice of religion, but which also knows that the inner lives of humans cannot be wished away. The world into which Mycroft and Carlyle have been born is as strange to our 21st-century eyes as ours would be to a native of the 1500s. It is a hard-won utopia built on technologically-generated abundance, and also on complex and mandatory systems of labelling all public writing and speech. What seem to us normal gender distinctions are now distinctly taboo in most social situations. And most of the world's population is affiliated with globe-girdling clans of the like-minded, whose endless economic and cultural competition is carefully managed by central planners of inestimable subtlety. To us it seems like a mad combination of heaven and hell. To them, it seems like

normal life. And in this world, Mycroft and Carlyle have stumbled on the wild card that may destabilize the system: the boy Bridger, who can effortlessly make his wishes come true. Who can, it would seem, bring inanimate objects to life... Terra Ignota 1. Too Like the Lightning 2. Seven Surrenders 3. The Will to Battle At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

NEW YORK TIMES BESTSELLER • Once in a great while, a book comes along that changes our view of the world. This magnificent novel from the Nobel laureate and author of *Never Let Me Go* is “an intriguing take on how artificial intelligence might play a role in our futures ... a poignant meditation on love and loneliness” (The Associated Press). • A GOOD MORNING AMERICA Book Club Pick! Here is the story of Klara, an Artificial Friend with outstanding observational qualities, who, from her place in the store, watches carefully the behavior of those who come in to browse, and of those who pass on the street outside. She remains hopeful that a customer will soon choose her. Klara and the Sun is a thrilling book that offers a look at our changing world through the eyes of an unforgettable narrator, and one that explores the fundamental question: what does it mean to love?

Legacy Collins Reference

Cognitive Development in a Digital Age James Paul Gee begins his classic book with "I want to talk about video games--yes, even violent video games--and say some positive things about them." With this simple but explosive statement, one of America's most well-respected educators looks seriously at the good that can come from playing video games. This revised edition expands beyond mere gaming, introducing readers to fresh perspectives based on games like World of Warcraft and Half-Life 2. It delves deeper into cognitive development, discussing how video games can shape our understanding of the world. An undisputed must-read for those interested in the intersection of education, technology, and pop culture, What Video Games Have to Teach Us About Learning and Literacy challenges traditional norms, examines the educational potential of video games, and opens up a discussion on the far-reaching impacts of this ubiquitous aspect of modern life.

How could General Electric--perhaps America's most iconic corporation--suffer such a swift and sudden fall from grace? This is the definitive history of General Electric's epic decline, as told by the two Wall Street Journal reporters who covered its fall. Since its founding in 1892, GE has been more than just a corporation. For generations, it was job security, a solidly safe investment, and an elite business education for top managers. GE electrified America, powering everything from lightbulbs to turbines, and became fully integrated into the American societal mindset as few companies ever had. And after two decades of leadership under legendary CEO Jack Welch, GE entered the twenty-first century as America's most valuable corporation. Yet, fewer than two decades later, the GE of old was gone. Lights Out examines how Welch's handpicked successor, Jeff Immelt, tried to fix flaws in Welch's profit machine, while stumbling headlong into mistakes of his own. In the end, GE's traditional win-at-all-costs driven culture seemed to lose its direction, which ultimately caused the company's decline on both a personal and organizational scale. Lights Out details how one of America's all-time great companies has been reduced to a cautionary tale for our times.

### **From Cyprus to Zanzibar by the Egyptian Delta**

A classic reference book that has been used by millions all over the world, Roget's International Thesaurus is the product of more than a century and a half of continual expansion, reorganization, and improvement. Today this book is not only the most time-tested and bestselling thesaurus ever, but, newly revised, it is also the most up-to-date and comprehensive reflection of the English language as it is currently used. The revolutionary achievement of Dr. Peter Mark Roget's first edition in 1852 was the development of a brand-new principle: the arrangement of words and phrases according to their meanings. Dr. Roget's system brings together in one place all the terms associated with a single thought or concept; it allows a wide-ranging survey of language within a book of relatively modest size, without the space-consuming repetitions that so severely limit the scope of thesauruses arranged in a dictionary format with A-to-Z entries. This brilliant organization makes Roget's International Thesaurus both the most efficient word finder and a cutting-edge aid in stimulating thought, organizing ideas, and writing and speaking

more clearly and effectively. This revised and updated seventh edition features thousands of new words and phrases, including the newest slang words and expressions that color and inform everyday language. At the same time, it retains all the hallmarks that have made Roget's International Thesaurus the most popular word reference book next to the dictionary.

#### The Builder

"Like man, woman is a human being." When *The Second Sex* was first published in Paris in 1949—groundbreaking, risqué, brilliantly written and strikingly modern—it provoked both outrage and inspiration. *The Independent Woman* contains three key chapters of Beauvoir's masterwork, which illuminate the feminine condition and identify practical social reforms for gender equality. It captures the essence of the spirited manifesto that switched on light bulbs in the heads of a generation of women and continues to exert profound influence on feminists today.
