Renowned American humorist Mark Twain turns his incisive wit loose on his own life story in this unique take on the nineteenth-century memoir. Originally composed in a format that studiously ignored the careful chronological structure that most autobiographies follow, these essays were first published in book form ten years after the author's death. Twain fans will love the author's account of his quintessentially American upbringing, wildly zig-zagging career path, and gradual transition into the writing life.

Teaching English to the World: History, Curriculum, and Practice is a unique collection of English language teaching (ELT) histories, curricula, and personal narratives from non-native speaker (NNS) English teachers around the world. No other book brings such a range of international ELT professionals together to describe and narrate what they know best. The book includes chapters from Brazil, China, Germany, Hong Kong, Hungary, India, Indonesia, Israel, Japan, Lebanon, Poland, Saudi Arabia, Singapore, Sri Lanka, and Turkey. All chapters follow a consistent pattern, describing first the history of English language teaching in a particular country, then the current ELT curriculum, followed by the biography or the autobiography of an English teacher of that country. This consistency in the structuring of chapters will enable readers to assimilate the information easily while also comparing and contrasting the context of ELT in each country. The chapter authors--all born in or residents of the countries they represent and speakers of the local language or languages as well as English--provide insider perspectives on the challenges faced by local English language teachers. There is clear evidence that the majority of English teachers worldwide are nonnative speakers (NNS), and there is no doubt that many among them have been taught by indigenous teachers who themselves are nonnative speakers. This book brings the professional knowledge and experience of these teachers and the countries they represent to a mainstream Western audience including faculty, professionals, and graduate students in the field of ESL; to the international TESOL community; and to ELT teachers around the world.

An Introduction Routledge
Teaching English by Design has become a classic resource for preservice teachers as well as in-service teachers who consider it their go-to guide to creating lessons and units organized around key concepts. In the Second Edition, Peter Smagorinsky updates the content for today's teachers with discussions of New Literacies, using technology in the classroom, LGBTQ issues, and an expansive new chapter on preparing for Beginning Teacher Performance Assessments. He also brings in a fresh new voice and outlook from Darren Rhym, a high school teacher in rural Georgia. Following a new chapter on "Teaching Stressed Students Under Stressful Circumstances," Peter and Darren collaborated to create a unit on Power and Race. Designed to help students develop agency in improving their lives and those of the people in their communities, this sample unit provides a practical framework for addressing the needs of low-SES students who rely on limited resources. Together with Peter's unique insight about students, how they learn, and the kinds of classrooms that support their achievement, *Teaching English by Design*, 2/e is more valuable and relevant than ever.

Literacy Strategies and Resources for K-6 Heinemann Educational Books

A Book for Every Teacher: Teaching English Language Learners is a unique and compressive text written for mainstream classroom teachers. The passion for writing this book comes from our working experiences with the K-12 teachers in four school districts through our ELL Center professional development program. Through this program, we provide professional training through our federally funded research and service projects. The purpose of our professional training is to prepare general education teachers to work effectively with English language learners (ELLs). While working with the teachers on a daily basis, we know the immediate needs of the teachers. This motivated us to embark this book project. In recent years, the ELL school population has the highest increase among school populations. As the NEA data indicates, providing ELL students with high quality services and programs is an important investment in America's future (NEA, 2013). This book is our investment in helping teachers to meet their challenges and provide useful information and strategies for teaching ELLs. The book is designed with K-12 teachers in mind. It is best used by teachers who have or will have ELLs in their classrooms and who seek information and strategies to better work with and serve their ELLs to achieve academic success. With this design, teachers can use the book as a text or reference tool. This book can also be adopted as text materials for professional training. Teachers are the most important factor for ELLs' academic success.
