Ruth Padel is an award-winning poet who has also become renowned as an energetic, generous and thought-provoking guide to reading poetry. Her *52 Ways of Looking at a Poem*, with its lively overview of contemporary writing and eye-opening readings of individual poems, is indispensable for anyone who writes poetry, teaches it, or simply wants to enjoy it. In her new book, she uses sixty poems by some of our finest poets to look at the idea of the journey, through literature and through life. As Padel makes clear in her fascinating introduction, today's debates about how accessible a poem should be are poetry's older tradition. To rhyme or not to rhyme? The Elizabethans fought over that one, while the Greeks couldn't agree about whether poetry should be dumbed down or remain the preserve of the elite. Combining her training as a Classicist with her insights as a

poet, Padel highlights the ways in which the best poets now find a balance between rhymed formal verse and modernism's freer styles, using a traditional, formal craft to convey genuinely felt, up-to-the-minute experience. In an increasingly unstable world, she argues, we need poetry more than ever to help us to see afresh and understand the journeys of our lives.

This remarkable book brings us an intimate and moving interpretation of the life and work of Charles Darwin, by Ruth Padel, an acclaimed British poet and a direct descendant of the famous scientist. Charles Darwin, born in 1809, lost his mother at the age of eight, repressed all memory of her, and poured his passion into solitary walks, newt collecting, and shooting. His five-year voyage on H.M.S. Beagle, when he was in his twenties, changed his life. Afterward, he began publishing his findings and working privately on groundbreaking theories about the development of animal species, including human beings, and he made a nervous proposal to his cousin Emma. Padel's poems sparkle with nuance and feeling as she shows us the marriage

that ensued, and the rich, creative atmosphere the Darwins provided for their ten children. Charles and Emma were happy in each other, but both were painfully aware of the gulf between her deep Christian faith and his increasing religious doubt. The death of three of their children accentuated this gulf. For Darwin, death and extinction were nature's way of developing new species: the survival of the fittest; for Emma, death was a prelude to the afterlife. These marvelous poems—enriched by helpful marginal notes and by Padel's ability to move among multiple viewpoints, always keeping Darwin at the center—bring to life the great scientist as well as the private man and tender father. This is a biography in rare form, with an unquantifiable depth of family intimacy and warmth.

Business writing can be particularly difficult to get right and far too many people resort to deathly-dull jargon and nonsense buzz words to try to get their point across. In *26 Ways of Looking at a Blackberry*, John Simmons proposes that in order to create business communication that is truly engaging, writing needs to be more expressive and adventurous. 'Business-speak' undermines the communication objectives of brands as they try to move beyond respect to 'love'. This is now seen more and more as the imperative for young, aspiring brands as well as big, corporate brands. The book explores ways that everyone involved with communicating a brand's values - marketers, advertisers, PR people and so on - can focus on the potential of language to reach their goals. To illustrate this, the author has taken a basic example of business writing and rewritten it in 26 different ways, each following a constraint. For example, as a fairy story; without using the letter 'e'; written in the style of Dickens; as a letter to a friend; as a six word story; as a sonnet. In each case, Simmons looks at what effect that particular constraint has on the writing, how it helps or hinders, and what lessons can be drawn from the exercise that can be applied to business writing in different situations. A unique and entertaining approach to business writing with some great advice to impart to help you get the most out of writing for business.

Images and ideas associated with masculinity are forever in flux. In this book, Donald Moss addresses the never-ending effort of men—regardless of sexual orientation—to shape themselves in relation to the unstable notion of masculinity. Part 1 looks at the lifelong labor faced by boys and men of assessing themselves in relation to an always shifting, always receding, ideal of "masculinity." In Part 2, Moss considers a series of nested issues regarding homosexuality, homophobia and psychoanalysis. Part 3 focuses on the interface between the body experienced as a private entity and the body experienced as a public entity—the body experienced as one's own and the body subject to the judgments, regulations and punishments of the external world. The final part looks at men and violence. Men must contend with the entwined problems of regulating aggression and figuring out its proper level, aiming to avoid both excess and insufficiency. This section focuses on excessive aggression and its damaging consequences, both to its object and to its subjects. *Thirteen Ways Of Looking At A Man* will be of great interest not only to psychoanalysts and psychotherapists, but also to a much wider audience of readers interested in gender studies, queer studies,

and masculinity.

Redefining English for the More Able is a practical guide offering English teachers a range of strategies to stretch and challenge their students. Written by Ian Warwick, founder of London Gifted and Talented, and Ray Speakman, this book provides a fresh perspective on the purpose of English teaching and the benefits it can offer all students. Drawing on an array of ideas and examples from different genres of literature, the book discusses how 'threshold concepts' can be used to frame English teaching and push the boundaries of students' learning. The chapters provide example lesson plans targeted at different age groups from Key Stages 2-5, and address different aspects of English, including short stories, poetry, film, drama and science fiction. Warwick and Speakman examine how the requirements for teaching more able students have received more recent focus under Ofsted, and offer specific examples of activities and reflective questions that can engage students more deeply in their appreciation of English. This well researched and accessible guide will be an invaluable tool for English teachers, teaching assistants and school leaders wishing to reflect on new ways of motivating and teaching the more able in order to develop the intellectual curiosity of all their students.

LIFELINE A&C Black

Where are you from? What does 'native' mean if the 'English' oak is an immigrant from Spain? With its vivid portraits of life on the move, Ruth Padel's magnificent tapestry of poetry and prose shows us that the evolutionary point of migration is survival. Cells travel in our bodies, the migration of eight million fruit bats pollinates the African rainforest, geese battle winds over Everest,

and at the climax of their epic migration, wildebeest plunge into the Mara River teeming with crocodiles. Migration is crucial to all life on the planet, not least human beings: the history of civilization is also the story of migration. Yet today human displacement poses one of the greatest challenges we face. After the animals come compelling images of historical displacements: the Flight into Egypt, the refugee who founded Rome, John James Audubon feeding migrant birds on a boat to America, and haunting poems of refugees on our drastically changing planet. Startling, moving and highly original, *The Mara Crossing* weaves science and myth, wild nature and human life to conjure up a world created and sustained by migration. Here is a beautiful and unforgettably lyrical hybrid from the acclaimed author of *Darwin: A Life in Poems*.

The essayist and cultural commentator Ilan Stavans and the analytic philosopher Jorge J. E. Gracia share long-standing interests in the intersection of art and ideas. Here they take thirteen pieces of Latino art, each reproduced in color, as occasions for thematic discussions. Whether the work at the center of a particular conversation is a triptych created by the brothers Einar and Jamex de la Torre, Andres Serrano's controversial *Piss Christ*, a mural by the graffiti artist BEAR_TCK, or *Above All Things*, a photograph by María Magdalena Campos-Pons, Stavans and Gracia's exchanges inevitably open out to literature, history, ethics, politics, religion, and visual culture more broadly. Autobiographical details pepper Stavans and Gracia's conversations, as one or the other tells what he finds meaningful in a given work. Sparkling with insight, their exchanges allow the reader to eavesdrop on two celebrated intellectuals—worldly, erudite, and unafraid to disagree—as they reflect on the pleasures of seeing.

Eight Ways of Looking at Christianity CreateSpace

How John Wrote the Book of Revelation is the first of its kind, and introduces genetic literary reconstruction to Biblical studies. It enables the reader to produce prior drafts of Hebrew and

Christian Scriptures, thereby allowing the reader to apply the literary science of genetic criticism to a book in the Bible. *How John Wrote the Book of Revelation* takes the most difficult book to understand in the Christian Scriptures and reveals the sequence in which it was written, from the very first line to the final parallel. This provides the reader, for the first time, with the experience of observing how a Biblical book was written, and does this from an intimate perspective, as though they were looking over John's shoulders as he crafted it. *How John Wrote the Book of Revelation* is the first book that teaches the reader how to read Revelation the way it was written. After centuries of blind guess work trying to divine meaning, and weak interpretations of symbols, this book finally presents a clear, precise, and consistent method. It is a guidebook to identify all the rich symbols and their meanings within Revelation. Inside the pages of this book is the all-encompassing theory of construction for the book of Revelation. It includes three prior drafts of the book of Revelation, along with hundreds of charts and illustrations. *How John Wrote the Book of Revelation* is like no other book that has been written before, and sets a new paradigm for all Biblical works.

What happens when we engage with fictional characters? How do our imaginative engagements bear on our actions in the wider world? Moving between the literary and the philosophical, Sophie Ratcliffe considers the ways in which readers feel when they read, and how they understand ideas of feeling. *On Sympathy* uses dramatic monologues based on *The Tempest* as its focus, and broaches questions about fictional belief, morality, and the dynamics between readers, writers, and fictional characters. The book challenges conventionally accepted ideas of literary identification and sympathy, and asks why the idea of sympathy has been seen as so important to liberal humanist theories of literary value. Individual chapters on Robert Browning, W. H. Auden, and Samuel Beckett, who all drew on Shakespeare's late play, offer new readings of some major works, while the book's epilogue tackles questions of contemporary sympathy. Ranging

from the nineteenth century to the present day, this important new study sets out to clarify and challenge current assumptions about reading and sympathetic belief, shedding new light on the idea and ideal of sympathy, the workings of affect and allusion, and the ethics of reading.

"British poetry is in a wonderful state at present. Never have so many poets been saying so many interesting things in such lively, up-to-date ways. Yet many people feel shut out or know little about poetry and have no idea where to begin. In this groundbreaking book, Ruth Padel takes fifty-two of the poems she discussed in her newspaper column - a year's worth - and suggests ways of reading them. The poems are by a wide range of living poets, on experiences we all share - love, sex, death, nature, history, war - which show how reading a poem can enhance everyone's life as powerfully and as pleasurably as reading novels or watching a film."
