Modern environmental regulation and its complex intersection with international law has led many jurisdictions to develop environmental courts or tribunals. Strikingly, the list of jurisdictions that have chosen to do this include numerous developing countries, including Bangladesh, Kenya and Malawi. Indeed, it seems that developing nations have taken the task of capacity-building in environmental law more seriously than many developed nations. Environmental Justice in India explores the genesis, operation and effectiveness of the Indian National Green Tribunal (NGT). The book has four key objectives. First, to examine the importance of access to justice in environmental matters promoting sustainability and good governance Second, to provide an analytical and critical account of the judicial

structures that offer access to environmental justice in India. Third, to analyse the establishment, working practice and effectiveness of the NGT in advancing a distinctively Indian green jurisprudence. Finally, to present and review the success and external challenges faced and overcome by the NGT resulting in growing usage and public respect for the NGT's commitment to environmental protection and the welfare of the most affected people. Providing an informative analysis of a growing judicial development in India, this book will be of great interest to students and scholars of environmental justice, environmental law, development studies and sustainable development. TERRAINS OF CONSCIOUSNESS emerges from an Indian-German-Swiss research collaboration. The book makes a case for a phenomenology of globalization that pays attention to locally situated socioeconomic terrains, everyday

practices, and cultures of knowledge. This is exemplified in relation to three topics: - the tension between 'terrain' and 'territory' in Defoe's 'Robinson Crusoe' as a pioneering work of the globalist mentality (chapter 1) - the relationship between established conceptions of feminism and the concrete struggles of women in India since the 19th century (chapter 2) - the exploration of urban space and urban life in writings on India's capital - from Ahmed Ali to Arundhati Roy (chapter 3).

The Apocalypse of Enoch and Bhuśunda The Apocalypse of Enoch and Bhuśunda challenges the underlying assumptions of the classical roots of civilization by restoring the original context of creation mythology. In this second volume of A Chronology of the Primeval Gods and the Western Sunrise, ancient

myths from multiple geographies are correlated to spikes in cosmic rays over the past 120,000 years – as documented in ice core data. The chronology and content of these myths tell us that the primary forces behind these cataclysms were the most ancient gods - hyper-nova at the Galactic Center associated with Sgr A\*(The Dragon), Sgr West (The Beast) and Sgr East (Hiranyâksha and Hiranyakas'ipu), with secondary supernova seen as the birth of new, destructive gods. Ancient myth has documented the cataclysmic destruction of the world on at least twenty occasions with four major geo-polar migrations, which has resulted in a shift of the earth's equator on at least one occasion. Multiple myths are shown to represent a view of the sky that can only be seen from the Antarctic region. Multiple versions of the myths of Orion are analyzed, showing clear linkages between the Vedic myth of Trisanku, the Book of Genesis, Senmut's Tomb, and the myths of Prajâpati Daksa representing the oldest version of the Orion myth – older than Trishanku and Genesis by 20,000

years! The stunning conclusion explains how the "Watchers" of Enoch were the Vedic descendants of Ila and Iksvaku. These descendants of the seventh Manu had been observing and recording the stars as a source of cataclysm for at least 15,000 years prior to Enoch, thus allowing Enoch to prophesize a 'new heaven.' That prophecy became the foundation for St John's Book of Revelations, which is shown to be a description of a series of cataclysms attributed to Sgr West. The book offers a new theory for explaining geo-polar migration. That theory suggests small shifts in the location of the earth's center of gravity underlie each migration, but that there are multiple causes for the shifts.

An illustrated survey of global historical scholarship from the ancient world to the present, for courses in theory and historiography. Dictionary of Vedanta Loving Stones is a study of devotees' conceptions of and worshipful interactions with Mount Govardhan, a sacred

mountain located in the Braj region of north-central India that has for centuries been considered an embodied form of Krishna. It is often said that worship of Mount Govardhan "makes the impossible possible." In this book, David L. Haberman examines the perplexing paradox of an infinite god embodied in finite form, wherein each particular form is non-different from the unlimited. He takes on the task of interpreting the worship of a mountain and its stones for a culture in which this practice is quite alien. This challenge involves exploring the interpretive strategies that may explain what seems un-understandable, and calls for theoretical considerations of incongruity, inconceivability, and other realms of the impossible. This aspect of the book includes critical consideration of the place and history of the pejorative concept of idolatry (and its twin, anthropomorphism) in the comparative study of religions. *Loving Stones* uses the worship of Mount Govardhan as a site to explore ways in which scholars engaged in the difficult work of

representing other cultures struggle to make "the impossible possible." *Rediscovering Traditional Practices of Hatha Yoga* Springer

 "Here there be dragons"—this notation was often made on ancient maps to indicate the edges of the known world and what lay beyond. Heroes who ventured there were only as great as the beasts they encountered. This encyclopedia contains more than 2,200 monsters of myth and folklore, who both made life difficult for humans and fought by their side. Entries describe the

appearance, behavior, and cultural origin of mythic creatures well-known and obscure, collected from traditions around the world. Original Yoga Random House India

 Contemporary dilemmas, whether in business or politics, bear an uncanny resemblance to the predicaments witnessed in the ever-timely epic, the Mahabharata. Who else but Bhishma Pitamah then to the rescue of the modern-day manager, politician or bureaucrat! In the epic, Bhishma is the upholder of truth and dharma, his life shaped by the difficult choices he makes. He isn't always infallible, but even where his decisions are questionable, he serves as a role model. Prof. N. Balasubramanian uses this powerful figure and

his selfless values as a guide to make the right choices in *The Bhishma Way*. He discusses the importance of values, dharma, truth, justice and governance in businesses and governments.

Analyses of real-life cases—among them, Union Carbide and the Bhopal gas tragedy, James Hardie and asbestos in Australia, and Ok Tedi in Papua New Guinea—complement the mythological stories and insightful anecdotes in this illuminating and thought-provoking book.

This serves as an instructive read for anyone striving for a higher moral code in day-to-day decision-making and leadership.

This handbook explores mindfulness philosophy and practice as it functions in today's socioeconomic, cultural, and political landscape. Chapters discuss the many ways in which classic concepts and practices of mindfulness clash, converge, and

influence modern theories and methods, and vice versa. Experts across many disciplines address the secularization and commercialization of Buddhist concepts, the medicalizing of mindfulness in therapies, and progressive uses of mindfulness in education. The book addresses the rise of the, "mindfulness movement", and the core concerns behind the critiques of the growing popularity of mindfulness. It covers a range of dichotomies, such as traditional versus modern, religious versus secular, and commodification versus critical thought and probes beyond the East/West binary to larger questions of economics, philosophy, ethics, and, ultimately, meaning.

Featured topics include: A compilation of Buddhist meditative practices.

Selling mindfulness and the marketing of mindful products. A meta-critique of mindfulness critiques - from McMindfulness to critical mindfulness Mindfulness-based interventions in clinical psychology and neuroscience. Corporate mindfulness and usage in the workplace.

Community-engaged mindfulness and its role in social justice. The

*Handbook of Mindfulness* is a must-have resource for clinical psychologists, complementary and alternative medicine professionals/practitioners, neuroscientists, and educational and business/management leaders and policymakers as well as related mental health, medical, and educational professionals/practitioners.

What do you do when you are a twenty-five-year-old Yale graduate making half-a-million dollars a year as a hotshot investment banker on Wall Street? You bust your ass and become a millionaire by thirty, of course. Not if you are Samrat Ratan, born in the USA to immigrant Indian parents; you quit and enrol in business school in India instead. Samrat's rollercoaster journey begins at the Indian Institute of Management (IIM) in Bangalore, where he spends his time getting high on marijuana while his grades - and self-confidence - plummet. Soon, Samrat's quest for identity turns increasingly bizarre as it takes him places he hadn't planned on visiting - prison, for example - and makes him

do things he hadn't banked on doing: 'meditating' stoned with a sexy Danish hippie in the Himalayas, hanging out with a cannibal on the banks of the Ganga, and peddling soap to the formidable Raja Bhaiya in Benares. Does Samrat - Yale valedictorian, investment banker, convict, pothead - survive his fall from grace? *Post-Colonial Theory, India and "The Mystic East"* Taylor & Francis

This book brings together ancient spiritual wisdom and modern science and philosophy to address age-old questions regarding our existence, free will and the nature of conscious awareness. Stuart Hameroff MD Professor, Anesthesiology and Psychology, and Director, Center for Consciousness Studies The University of Arizona, Tucson, Arizona This book presents a rich, broad-ranging overview of contemporary research and scholarship into consciousness and the self.... It is ... to their credit that the editors have assembled a highly stimulating set of scholars whose expertise cover all the relevant areas. I strongly recommend the book to anyone with an interest in understanding

the directions in which contemporary thinking about the nature of consciousness is headed. B. Les Lancaster Emeritus Professor of Transpersonal Psychology Liverpool John Moores University, UK This volume is a collection of 23 essays that contribute to the emerging discipline of consciousness studies with particular focus on the concept of the self. The essays together argue that to understand consciousness is to understand the self that beholds consciousness. Two broad issues are addressed in the volume: the place of the self in the lives of humans and nonhuman primates; and the interrelations between the self and consciousness, which contribute to the understanding of cognitive functions, awareness, free will, nature of reality, and the complex experiential and behavioural attributes of consciousness. The book presents cutting-edge and original work from well-known authors and scholars of philosophy, psychiatry, behavioural sciences and physics. This is a pioneering attempt to present to the reader multiple ways of conceptualizing and thus

understanding the relation between consciousness and self in a nuanced manner. *The Ethical Philosophy of the Gita* Springer Science & Business Media This Book Shows How The Culture Of India Emerged As A Result Religio-Spiritual Thinking Of The Indian Seers And Saints. Also It Takes A Close Look At Marriage, Sex Relations, Status Of Women, Spirituality, Religion, Philosophy, Language, Literature, Art And Living Conditions Of The People. **Muslim Perceptions of Other Religions** Shambhala Publications Widely respected yoga teacher and author Richard Rosen draws on ancient yoga encyclopedias to explain how yoga was practiced before it became popular in the West. He compares the three main existing sources known to yoga scholars to describe how complex and rich the practice of yoga once was. It included systematic teachings on

personal hygiene, good health, and good relationships, and other practices of yoga that went far beyond just the physical postures. Each section of the book offers a guided practice session of ancient poses and breathing techniques to enable readers to connect to the roots of their yoga and to offer a framework from which to understand the sequences they use in their regular sessions.

This book examines the making of the Goddess Durga both as an art and as part of the intangible heritage of Bengal. As the 'original site of production' of unbaked clay idols of the Hindu Goddess Durga and other Gods and Goddesses, Kumartuli remains at the centre of such art and heritage. The art and heritage of Kumartuli have been facing

challenges in a rapidly globalizing world that demands constant redefinition of 'art' with the invasion of market forces and migration of idol makers. As such, the book includes chapters on the evolution of idols, iconographic transformations, popular culture and how the public is constituted by the production and consumption of the works of art and heritage and finally the continuous shaping and reshaping of urban imaginaries and contestations over public space. It also investigates the caste group of Kumbhakars (Kumars or the idol makers), reflecting on the complex relation between inherited skill and artistry. Further, it explores how the social construction of art as 'art' introduces a tangled web of power asymmetries between 'art' and 'craft', between an 'artist' and an

'artisan', and between 'appreciation' and 'consumption', along with their implications for the articulation of market in particular and social relations in general. Since little has been written on this heritage hub beyond popular pamphlets, documents on town planning and travelogues, the book, written by authors from various fields, opens up cross-disciplinary conversations, situating itself at the interface between art history, sociology of aesthetics, politics and government, social history, cultural studies, social anthropology and archaeology. The book is aimed at a wide readership, including students, scholars, town planners, heritage preservationists, lawmakers and readers interested in heritage in general and Kumartuli in particular.
