*Venture Capital Investing* Carol Publishing Corporation  
 A detailed look at how Warren Buffett really invests In this engaging new book, author Prem Jain extracts Warren Buffett's wisdom from his writings, Berkshire Hathaway financial statements, and his letters to shareholders and partners in his partnership firms—thousands of pages written over the last fifty years. Jain uncovers the key elements of Buffett's approach that every investor should be aware of. With *Buffett Beyond Value*, you'll learn that, contrary to popular belief, Warren Buffett is not a pure value investor, but a unique thinker who combines the principles of both value and growth investing strategies. You'll also discover why understanding CEOs is more important than studying financial metrics; and why you need an appropriate psychological temperament to be a successful investor. Reveals Buffett's multifaceted investment principles Discusses how Buffett thinks differently from others about portfolio diversification, market efficiency, and corporate governance Highlights how you can build a diverse and profitable investment

portfolio With this book as your guide, you'll learn how to successfully invest like Warren Buffett.

*Margin of Safety* Cambridge University Press

The ideal companion to *Investment Banking* *Investment Banking WORKBOOK* is the ideal complement to *Investment Banking: Valuation, LBOs, M&A, and IPOs, Third Edition*—enabling you to truly master and refine the core skills at the center of the world of finance. This comprehensive study guide provides an invaluable opportunity to explore your understanding of the strategies and techniques covered in the main text before putting them to work in real-world situations. The *WORKBOOK*, which parallels the main book chapter by chapter, contains over 500 problem-solving exercises and multiple-choice questions. Topics reviewed include:
 

- Valuation and its various forms of analysis, including comparable companies, precedent transactions, and DCF analysis
- Leveraged buyouts—from the fundamentals of LBO economics and structure to detailed modeling and valuation
- M&A sell-side tools and techniques, including an overview of an organized M&A sale process
- M&A buy-side strategy and analysis, including a comprehensive merger consequences analysis that includes

accretion/dilution and balance sheet effects -IPOs, including valuation, structure, and process, as well as SPACs and direct listings The lessons found within will help you successfully navigate the dynamic world of investment banking, LBOs, M&A, IPOs, and professional investing. Investment Banking WORKBOOK will enable you to take your learning to the next level in terms of understanding and applying the critical financial tools necessary to be an effective finance professional.

**The Private Equity Playbook** John Wiley & Sons  
Perspectives from leaders in decision science at Wharton Organized in part through Wharton's Risk Management and Decision Processes Center, the book assembles leading researchers from Wharton's business faculty who demonstrate how to apply the latest approaches in decision-making from four perspectives: personal, managerial, negotiator, and consumer. Each chapter describes how decisions are actually made, presents the ideal scenario, and then provides practical suggestions for improvement. The subjects range from when consumers will choose variety, integrating intuition into decisions, and applying game theory and strategic decisions, to decision factors in negotiations and how choices are made about insurance and health care.

*Africa Rise and Shine* Pearson Prentice Hall  
Entrepreneurs have a problem: startups. Almost all startups either fail or never truly reach a sustainable size. Despite the popularity of entrepreneurship, we haven't engineered a better way to start...until now. What if you could skip the startup phase and generate profitable revenue on day one? In BUY THEN BUILD, acquisition entrepreneur Walker Deibel shows you how to begin with a sustainable, profitable company and grow from there. You'll learn how to: Buy an existing company rather than starting from scratch Use ownership as a path to financial independence Spend a fraction of the time raising capital Find great brokers, generate your own "deal flow," and see new listings early Uncover the best opportunities and biggest risks of any company Navigate the acquisition process Become a successful acquisition entrepreneur And more BUY THEN BUILD is your guide to outsmart the startup game, live the entrepreneurial lifestyle, and reap the financial rewards of ownership now.

*The Truth About Making Smart Decisions* Simon and Schuster  
"In America, while all men and women may be created equal, they do not all end up that way. This book ranks an elite group: the richest Americans in American history." "The Wealthy 100 offers intimate, often surprising portraits of these individuals and how they amassed their fortunes. The rankings are based on estimated total wealth at the time of death - or a given year for current living Americans - as a percentage of the Gross National Product (GNP) in current dollars for that year. This allows the authors to compare the fortunes of people from different centuries."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

*Leaving the Tarmac* FT Press  
Annotation. Successful management buyouts (MBOs) are the pinnacle of business success today and a great way to earn an ever-increasing stake in the American dream. Buyout provides managers and executives with the necessary tools and strategies for leading a company or division buyout. It explores the details of the entire buyout process and empowers managers to seize their destiny and take charge. Managers learn how to: -- Find a company to purchase -- Develop a business plan -- Negotiate with the seller -- Win the "ground war" of due diligence -- Find equity partners and negotiate your management deal with investors -- Run the company after the MBO. Buyout offers real life stories of people who actually pulled off out-of-this-world deals and became rich beyond their wildest expectations.

EVA McGraw Hill Professional  
Publisher Description

*A Treasury of Wall Street Wisdom* Harpercollins  
The Oxford Guide to Financial Modeling is accompanied by a companion web site that serves as an interactive workbook designed specifically for the book. This site is simple to use yet exceedingly robust with regard to its technological efficiency and purposeful usability. It is designed to further enhance understanding of the use and applications of the models referred to in the book and it is accessible free of charge at [www.thomasho.com](http://www.thomasho.com). This on-line workbook and resource tool contains more than 95 downloadable Excel models. The models provide clear expositions of the mathematical formulations and can be used along with the book. The companion web site is rich with a plethora of research and analytic tools designed for "doing finance" on-line.

*The Go Point* Amacom Books

Manager in allen Branchen werden mit dem Thema neue, zukunftsweisende Technologien konfrontiert. Hierher gehören nicht nur elektronische Technologien, sondern jede neue Technologie, die in der Lage ist, neue Industriezweige zu schaffen oder bestehende zu verändern. Diese Technologien sind ein "neues Spiel", dessen Regeln unvereinbar sind mit Kultur und Geschäftsmethoden der meisten etablierten Unternehmen. Das erste Buch auf dem Markt, das sich mit diesem wichtigen Thema gezielt auseinandersetzt. Ein interdisziplinäres Expertenteam der Wharton School erläutert, wie Geschäftspraktiken geändert werden müssen, um Innovationen wie der Biotechnologie, der Informationstechnologie und dem Internet zu begegnen. Darüber hinaus wird diskutiert, wie Manager ihre Methoden zur Finanzanalyse, Markteinschätzung und zur Wettbewerbsstrategie ändern müssen, und wie etablierte Firmen künftig die gängigen Fehler im Zusammenhang mit neuen Technologien vermeiden können.

*Organize Your Mind, Organize Your Life* Pearson Higher Ed  
With relevant anecdotes, surveys, examples, and research from the financial press, company documents, and academic literature, the book focuses less on mathematics and more on the intuition of share valuation as a function of dividend policy.

*The Power of Impossible Thinking* Harvard Business Press  
This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. For courses in International Investment. Global Investments, the Sixth Edition of the previously titled International Investments, provides accessible coverage of international capital markets using numerous examples to illustrate the applications of concepts and theories. The new title reflects the current understanding that the distinction between domestic and international is no longer relevant and that asset management is global. This book is ideal for CFA® (Chartered Financial Analyst) candidates, advanced finance undergraduates, and MBA individuals, and it has been selected by the CFA Institute as part of the curriculum to deliver the Candidate Body of Knowledge for the CFA. The text is also widely used by professionals working in the investments area, as the level is accessible to readers and portfolio managers without recent training in portfolio theory.

*HBR Guide to Buying a Small Business* Columbia University Press  
The investment theories of Ben Graham, author of Security Analysis, have never been more popular. Now, Janet Lowe delivers a new book that provides an easy, accessible way to use Graham's classic, but complex investment theories. In addition to presenting Graham's teachings in a readily understandable way, Lowe includes examples of how Warren Buffett and other disciples have used the principles. Illustrations.

*The Wealthy 100 Crown Currency*

All CFA® Program exams through November 2021 will reflect the 2020 curriculum. Purchase your copy and begin studying for Level II now! The CFA® Program Curriculum 2020 Level II Box Set provides candidates and other motivated investment professionals with the official curriculum tested on the Level II CFA exam. This set includes practical instruction on the 10 core topics covered in the Candidate Body of Knowledge (CBOK) to prepare readers for their 2020 or 2021 Level II exam windows. Beyond the fundamentals, this set also offers expert guidance on how the CBOK is applied in practice. The Level II CFA® Program Curriculum focuses on complex analysis and asset valuation; it is designed to help candidates use essential investment concepts in real-world situations analysts encounter in the field. Topics explored in this box set include ethical and professional standards, quantitative analysis, economics, financial reporting and analysis, corporate finance, equities, fixed income, derivatives, alternative investments, and portfolio management. Visuals like charts, graphs, figures, and diagrams illustrate complex material covered on the Level II exam, and practice questions with answers help you understand your study progress while reinforcing important content. The CFA® Program Curriculum 2020 Level II Box Set builds from the foundational investment skills covered in Level I. This set helps you:

- Incorporate analysis skills into case evaluations
- Master complex calculations and quantitative techniques
- Understand the international standards used for valuation and analysis
- Gauge your skills and understanding against each Learning Outcome Statement
- Perfect for anyone considering the CFA® designation or currently preparing for a 2021 exam window, the 2020 Level II Box Set is a must-have resource for applying the skills required to become a Chartered Financial Analyst®.

*Global Investments* John Wiley & Sons

Tells how to avoid investment fads, explains the basic concepts of value-investment philosophy, and offers advice on portfolio management

**The Network Challenge** Black Classic Press

The first long-term stock options, LEAPS were introduced in October, 1990. Today, thousands of individual and institutional investors are discovering that these unique instruments can be used to implement any investment strategy--bullish, bearish, or neutral. This book is the first guide to show readers how to achieve their investment goals using LEAPS. Harrison Roth shows readers how they can use LEAPS with less risk than more common options because of the larger time-delay factor, detailing conservative, moderate, and aggressive strategies.

*Security Analysis and Business Valuation on Wall Street* McGraw Hill Professional

While managers typically view business through the lens of a single firm, this book challenges readers to take a broader view of their enterprises and opportunities. Here, more than 50 leading thinkers in business and many other disciplines take on the challenge of understanding, managing, and leveraging networks.

The Wall Street MBA: Your Personal Crash Course in Corporate Finance John Wiley & Sons

When the economy was booming and dot-coms were flying high, venture capitalists were admired as impresarios of innovation. Then the market tanked, start-ups fizzled, and those same deal-makers were rebuked as predators out for a quick score. So which portrayal is accurate? Where is this much-hyped industry heading? And what will it mean for the future of innovation in the global economy? In this definitive book, industry experts Paul Gompers and Josh Lerner provide the first cool-headed explanation of the venture capital industry and the role it plays in our economy. They underscore that, regardless of the economic

conditions, innovation is incredibly difficult to finance, take to market, and translate into value. While venture capital has evolved to address these problems-the industry has fueled innovation, economic growth, and wealth creation for decades-features of the venture industry have left it vulnerable to boom-and-bust cycles. In the near future, say the authors, the industry must transform dramatically, with important implications for industry players and the entrepreneurs and organizations they serve. Drawing from compelling research and industry "war stories," Gompers and Lerner present a series of practical frameworks for understanding the relationships among venture capital, innovation, and entrepreneurial success. They demystify how the venture capital world operates, and outline the opportunities and obstacles faced by all players in this evolving arena. They explore:

- The problems entrepreneurs encounter in securing financing, and how the venture capital model can help innovators to resolve them
- How venture capitalists can effectively pursue promising opportunities while building a sustainable franchise
- How corporations, nonprofits, and government institutions can harness the power-and avoid the pitfalls-of the venture capital model when applying it in their own sectors

Whether the industry is enjoying an incredible growth spurt or weathering an economic slowdown, readers will find this book an immensely practical guide to leveraging the venture capital model to turn innovation into value. Paul A. Gompers is a Professor of Business Administration and a Director of Research at Harvard Business School. Josh Lerner is a Professor of Business Administration at Harvard Business School. Both authors live in the Boston area.

Why Should White Guys Have All the Fun? AMACOM Div American Mgmt Assn

The key to a less hectic, less stressful life is not in simply organizing your desk, but organizing your mind. Dr. Paul Hammerness, a Harvard Medical School psychiatrist, describes the latest neuroscience research on the brain's extraordinary built-in system of organization. Margaret Moore, an executive wellness coach and codirector of the Institute of Coaching, translates the science into solutions. This remarkable team shows you how to use the innate organizational power of your brain to make your life less stressful, more productive and rewarding. You'll learn how to:

- Regain control of your frenzy
- Embrace effective uni-tasking (because multitasking doesn't work)
- Fluidly shift from one task to another
- Use your creativity to connect the dots

This groundbreaking guide is complete with stories of people who have learned to stop feeling powerless against multiplying distractions and start organizing their lives by organizing their minds.
