### LYONS MCKEE

**Jean-Michel Frank** Indonesian Ornamental Design

Symmetry suggests order and regularity whilst chaos suggests disorder and randomness.

'Symmetry in Chaos' is an exploration of how combining seemingly contradictory principles can lead to the construction of striking and beautiful images. This book is an engaging look at the interplay of art and mathematics.

**Konstantin Grcic** Triglav Publishing

A richly illustrated look at some of the British Library's most beautiful books from around the world. For centuries across the world, books have been created as objects of beauty, with bookmakers lavishing great care on their paper, binding materials, illustrations, and lettering. The Book by Design, featuring an array of books from the British Library's collection, focuses on the sensory experience of holding and reading these objects. Each selection represents a specific moment in the development of what we know today as the book—from scrolls and bound illuminated

manuscripts to paperbacks and formatted digital information. These range from the seventh century to the present and include examples from China, Japan, Southeast Asia, the Middle East, Europe, and North America, in addition to a look at book traditions in Africa and Oceania. John James Audubon's Birds of America, the works of Chaucer, Russian Futurist books, limited editions, historic copies of the Qur'an and the Bible, mass-market paperbacks, and more come together to tell the visual, tactile, artistic, and cultural history of books. Expert curators and specialists explore these books from the perspective of design and manufacturing, original art photographs offer vivid representations of their textures and materials, and graphics detail the size and specifications of each book. Offering a wide-ranging look at the creation and use of books, illustrated with hundreds of color images, this volume is itself an object of beauty.

*New Asian Interiors* Assouline Publishing

Frits Liefkes (1930-2010) lived with Indonesian art. His house in The Hague was full of it. Bought almost entirely at auctions and from art dealers in the Netherlands during a period of four decades, on his death he bequeathed his collection to Rijksmuseum Volkenkunde in Leiden. This book presents some of his most beautiful and interesting objects. Reflecting his special interests, golden

jewellery and wonderful textiles are particularly well represented in a collection that portrays the skilled craftsmanship of Indonesian artisans.

*Balinese Gardens* Yale University Press

Showcasing travel photographs by more than 150 of America's top architects and designers, Travel by Design is an inspiring guide to the power of travel to shape and expand our world. Travel by Design reminds us of the beauty and importance of travel, with images of more than 100 locations in 60 countries, from exotic destinations and global cities to adventure travels and all-American escapes. More than 350 photographs take readers on a global journey through cityscapes, ancient civilizations, luxurious resorts, and stunning natural wonders, all seen through the discerning and artistic eyes of today's leading creative talents. The images are sure to inspire dreams of escape, and the 40 pages of insider resources—from favorite hotels and restaurants to secret shopping sources and must-see monuments—will make planning future trips reassuring and easy.

**Bali Houses** Watson-Guptill

A survey of spectacular breadth, covering the history of decorative arts and design worldwide over the past six hundred years

**The Continuity of Pre-Islamic Motifs in Javanese Mosque Ornamentation, Indonesia** Debbies Book, Inc

Gold Jewellery of the Indonesian Archipelago features more than 500 stunning, never-before published examples of tribal, ethnic, ancient and courtly body ornaments from Indonesia's outer islands - Sumatra, Borneo, Sulawesi, the Lesser Sunda Islands and Maluku. Written by Anne Richter, author of Arts and Crafts of Indonesia and Jewelry of Southeast Asia, and Bruce Carpenter, acknowledged expert with more than 20 years of experience in the field of Indonesian art, history and culture, and more than 16 books to his name, this volume provides a compelling introduction to the little-known visual power and beauty of Indonesian jewellery. Illustrated with archival artwork and maps as well as photos of carefully selected rare ornamental adornments, this book also traces the historical origins of Indonesia's remarkably diverse culture and peoples.

*Tropical Houses* Timber Press (OR)

Hadiprana is known as the only Indonesian design consultant to pay respect to Indonesian tradition and locality by infusing its culturally identifying aesthetics into all of its projects, hospitality projects that include hotels, villas, and private residences. Signature projects include the Intercontinental Hotel Bali, Anvaya Beach Resort Bali, Royal Tulip Gunung Geulis Golf Resort Bogor, Movenpick Resort & Spa Jimbaran Bali, Rumah Luwih Resort & Spa Bali, the Chedi Club Tanah Gajah Bali, Villa at Uluwatu Bali, and Villa at Cemagi Bali. O'The Aesthetic Journey of Hadiprana' is the first of a series of Hadiprana publications, intended to introduce Hadiprana's design values development throughout the years by focusing on two elements: the first hand experience of a visitor's journey through these spaces, and the root appreciation of the beautiful legacy of Indonesian tradition, all while welcoming the dynamics of the present and the fascination of the future. Exemplified by romance, elegance, and luxury space, a commitment to the local context directs the creative minds of Hadiprana Design Consultant and provides a unique language for transforming space.

*Indonesian ornamental design* Tuttle Publishing

The study of human body measurements on a comparative basis is known as anthropometrics. Its applicability to the design process is seen in the physical fit, or interface, between the human body and the various components of interior space. Human Dimension and Interior Space is the first major anthropometrically based reference book of design standards for use by all those involved with the physical planning and detailing of interiors, including interior designers, architects, furniture designers, builders, industrial designers, and students of design. The use of anthropometric data, although no substitute for good design or sound professional judgment should be viewed as one of the many tools required in the design process. This comprehensive overview of anthropometrics consists of three parts. The first part deals with the theory and application of anthropometrics and includes a special section dealing with physically disabled and elderly people. It provides the designer with the fundamentals of anthropometrics and a basic understanding of how interior design standards are established. The second part contains easy-to-read, illustrated anthropometric tables, which provide the most current data available on human body size, organized by age and percentile groupings. Also included is data relative to the range of joint motion and body sizes of children. The third part contains hundreds of dimensioned drawings, illustrating in plan and section the proper anthropometrically based relationship between user and space. The types of spaces range from residential and commercial to recreational and institutional, and all dimensions include metric conversions. In the Epilogue, the authors challenge the interior design profession, the building industry, and the furniture manufacturer to seriously explore the problem of adjustability in design. They expose the fallacy of designing to accommodate the so-called average man, who, in fact, does not exist. Using government data, including studies prepared by Dr. Howard Stoudt, Dr. Albert Damon, and Dr. Ross McFarland, formerly of the Harvard School of Public Health, and Jean Roberts of the U.S. Public Health Service, Panero and Zelnik have devised a system of interior design reference standards, easily understood through a series of charts and situation drawings. With Human Dimension and Interior Space, these standards are now accessible to all designers of interior environments.

*Italian Chic* Images Publishing

This EDM bestseller is now available in a compact paperback edition, featuring a new cover.

*The Graphic Design Idea Book* University of Chicago Press

Nestled in Switzerland's alpine Engadin Valley, St. Moritz stands on its own amidst a sea of celebrated ski resorts in that it has long maintained an elusive allure. The winter home of personalities from Gunter Sachs and Gianni Agnelli to Sofia Loren, Elizabeth Taylor, Audrey

Hepburn, John Lennon, and Claudia Schiffer, there are few places in the world that manage to unite so many of the top names in cinema, art, and fashion all in one place, year after year. Author Dora Lardelli takes the reader on a journey through Chanel and Hitchcock's favorite haunts and the hidden parties at Badrutt's Palace where royalty goes to play, without forgetting the natural beauty, village charm and architectural mastery that define it. St. Moritz also takes readers on a majestic tour of its special events, from Winter Olympics to the annual Snow Polo World Cup, as well as the summertime Jazz Festival and the British Classic Car Meeting. In St. Moritz creatives and royals share skiwassers slope-side on the sheepskin benches of El Paradiso, pause to sip champagne on long strolls around its frozen, crystalline lake and enjoy coffee and confections at the centuries old Hanselmann. St. Moritz has never lost its inimitable appeal, and will continue to reign as an elegant hideaway for all those who have come to call it a home away from home.

*The Book by Design* Assouline Publishing

Now available in paperback, this beautiful guide is a fresh approach to an ancient art. Exquisite photography and illustrations join with a unique, comprehensive theory to reveal the beauty of flowers and their role as teachers of floral design. Though directed toward the advanced practitioner, it is equally accessible to the floral designer who is just beginning.

*Living in Paradise* Archaeopress Publishing Ltd

Living in Paradise brims with the best of tropical residential designs. Architecture and interior design experts Annie Kelly and Tim Street-Porter have selected unique interiors that will inspire readers to create their own paradises. The stunning venues in lush settings profiled here range in style from the environmentally sustainable utilizing indigenous materials, such as thatching and bamboo, to breezy courtyard spaces. These homes take into account the dramatic natural landscapes--some are surrounded by tropical plantings, while others open onto dramatic sun-drenched beaches. The interiors incorporate organic textures such as cane and bamboo furnishings, some covered in exotic Indonesian fabrics, including ikat- and batik-style textiles. Pool pavilions with decorative roof details are perfect for outdoor entertaining, and infinity pools are presented as a striking and organic part of the landscape. Beautifully photographed, this will inspire readers with design ideas that can be gleaned from these breathtaking dwellings.

*Parts and Wholes* Gibbs Smith

This Balinese design book, containing over 300 beautiful photos and extensive commentary will add a distinctive tropical flair to your interior decorating and architecture. The phenomenon loosely termed "Bali style" has been the subject matter for countless books on art, architecture, and interior design. In this book, author and architect Gianni Francione showcases the new generation of Bali-style homes, interiors, and artifacts that utilize what he terms a new internationalism. Even though the timeless, distinctive Balinese bale, open to a panorama of rice fields and the evening breeze, is still there, it may now be made in marble or stone. Similarly, present-day villas, resort bungalows, shops, restaurants, and other buildings are just as likely to use modernist techniques and materials as they are to utilize along-alang and coconut wood. Bali Houses presents this new departure in architecture, interior design, glassware, table settings, textiles, furniture, and furnishings in many never-before-photographed locations. It is a fitting sequel to Bali Modern.

*Living with Indonesian Art* Assouline Publishing

During America's Gilded Age (dates), the country was swept by a mania for all things Japanese. It spread from coast to coast, enticed everyone from robber barons to street vendors with its allure, and touched every aspect of life from patent medicines to wallpaper. Americans of the time found in Japanese art every design language: modernism or tradition, abstraction or realism, technical virtuosity or unfettered naturalism, craft or art, romance or functionalism. The art of Japan had a huge influence on American art and design. Title compares juxtapositions of American glass, silver and metal arts, ceramics, textiles, furniture, jewelry, advertising, and packaging with a spectrum of Japanese material ranging from expensive one-of-a-kind art crafts to mass-produced ephemera. Beginning in the Aesthetic movement, this book continues through the Arts & Crafts era and ends in Frank Lloyd Wright's vision, showing the reader how that model became transformed from Japanese to American in design and concept. Hannah Sigur is an art historian, writer, and editor with eight years' residence and study in East and Southeast Asia. She has a master's degree from the Institute of Fine Arts, New York University, and is completing a PhD in the arts of Japan. Her writings include co-authoring A Master Guide to the Art of Floral Design (Timber Press, 2002), which is listed in "The Best Books of 2002" by The Christian Science Monitor and is now in its second edition; and "The Golden Ideal: Chinese Landscape Themes in Japanese Art," in Lotus Leaves, A Master Guide to the Art of Floral Design (2001). She lives in Berkeley.

*ARCHINESIA 5* Assouline Publishing

Provides a comprehensive introduction to exterior green wall design Showcases innovative case studies with spectacular images and technical drawings and diagrams to illustrate the professional expertise, knowledge of planning, design concepts, installation procedures, maintenance, and effective plan selections Covers a wide range of international projects drawn from many well-known architects and designers Showcases a collection that is inspirational and a strong practical reference for architects, planners, preservationists, landscape and interior designers, and all who are directly involved in green wall design In recent years, vertical greening has become more and more popular. No doubt many architects have begun to consider the application of vertical greeneries when designing architecture. We can see that both the vertical garden in Acros Fukuoka and the green façade of One Central Park have attracted world-wide attention. Exterior Green Wall Design has included the latest green wall practices from around the world, and meanwhile provided readers with detailed introductions, summaries and analysis, along with abundant images, drawings and diagrams. Readers can get a good understanding of the development, characteristics, planning, design and plant selection for green walls. This is a definitive practical reference book for landscape designers, architects, students and all those interested in environmental practices.

Didier Millet, Csi

This book tells the story of critical avant-garde design in Japan, which emerged during the 1960s and continues to inspire designers today. The practice communicates a form of visual and material protest drawing on the ideologies and critical theories of the 1960s and 1970s, notably feminism, body politics, the politics of identity, and ecological, anti-consumerist and anti-institutional critiques, as well as the concept of otherness. It also presents an encounter between two seemingly contradictory concepts: luxury and the avant-garde. The book challenges the definition of design as the production of unnecessary decorative and conceptual objects, and the characterisation of Japanese design in particular as beautiful, sublime or a product of 'Japanese culture'. In doing so it reveals the ways in which material and visual culture serve to voice protest and formulate a social critique.

*2015 - DEBBIES BOOK(R) 27th Edition* Assouline Publishing

This is the 26th Edition of Debbies Book®. Now, after the release of our Android version of our iPhone App in January 2014, it's time to release our 26th print edition. You now have 3 ways to experience Debbies Book®! • A physical book for users who want to hold it in their hands • A printable book for users who want to print certain pages • A tablet-friendly eBook for users who love their iPads and eReaders The book is organized by categories in alphabetical order. Listings for Prop Houses and Costume Rental Houses are shortened to one or two lines to save space. Their full contact information is located within the Prop House and Costume Rental Houses categories only.

*Symmetry in Chaos* IMAJBooks

Since the 1990s, in response to dramatic transformations in the worlds of technology and the economy, design - a once relatively definable discipline, complete with a set of sub-disciplines - has become unrecognizable. Consequently, design scholars have begun to address new issues, themes and sub-disciplines such as: sustainable design, design for well-being, empathic design, design activism, design anthropology, and many more. The Routledge Companion to Design Studies charts this new expanded spectrum and embraces the wide range of scholarship relating to design - theoretical, practice-related and historical - that has emerged over the last four decades. Comprised of forty-three newly-commissioned essays, the Companion is organized into the following six sections: Defining Design: Discipline, Process Defining Design: Objects, Spaces Designing Identities: Gender, Sexuality, Age, Nation Designing Society: Empathy, Responsibility, Consumption, the Everyday Design and Politics: Activism, Intervention, Regulation Designing the World: Globalization, Transnationalism, Translation Contributors include both established and emerging scholars and the essays offer an international scope, covering work emanating from, and relating to, design in the United Kingdom, mainland Europe, North America, Asia, Australasia and Africa. This comprehensive collection makes an original and significant contribution to the field of Design Studies.

**Essay on Ornamental Art** Debbies Book, Inc

GOOD DESIGN IN ARCHITECTURE NOW. One of the most important quite dominant processes in architecture is design process, and the goal of architecture design is to obtain good design. Good design has double meaning, aesthetic and ethic. In architecture the two should be united as a

single goal that a design process should strive for. Moreover, an architectural product does not only effect its client and architect. On a broader level, architectural products also effect their surrounding environments. In a large scale, they may even have an effect on the economy and the social and political condition. The question is : How does an architectural design attain the label 'good design'? We tried to find the answer through a round table discussion by inviting the two groups of professionals in Indonesia: practitioners and academics. What are their thought on this matter ? You can peruse them in the main coverage of Archnesia vol.5. Built Project in Southeast Asia : House in Semarang, (Revano Satria) Serenity House, Phuket (Duangrit Bunnag) Spiral House, Surabaya (Archimetric) B House, Bali (d-associates) Recycled Wood House, Jakarta (Mamostudio) #1 The Mori, Bandung (LABO) Ize Hotel, Bali (Studio Tonton) River Safari, Singapore (DP Architects) Anjung Salihara, (Studiopasar) Audi Centre, Singapore (Ong&Ong) Kineforum Misbar, Jakarta

**Ibiza Bohemia** Editions Didier Millet

Today's convergent media environment offers unprecedented opportunities for sourcing and disseminating previously obscure popular culture material from Japan. However, this presents concerns regarding copyright, ratings and exposure to potentially illegal content which are serious problems for those teaching and researching about Japan. Despite young people's enthusiasm for Japanese popular culture, these concerns spark debate about whether it can be judged harmful for youth audiences and could therefore herald the end of 'cool Japan'. This collection brings together Japan specialists in order to identify key challenges in using Japanese popular culture materials in research and teaching. It addresses issues such as the availability of unofficially translated and

distributed Japanese material; the emphasis on adult-themes, violence, sexual scenes and underage characters; and the discrepancies in legislation and ratings systems across the world.

Considering how these issues affect researchers, teachers, students and fans in the US, Canada, Australia, China, Japan and elsewhere in Asia, the contributors discuss the different ways in which academic and fan practices are challenged by local regulations. Illustrating from personal experience the sometimes fraught nature of teaching about 'cool Japan', they suggest ways in which Japanese Studies as a discipline needs to develop clearer guidelines for teaching and research, especially for new scholars entering the field. As the first collection to identify some of the real problems faced by teachers and researchers of Japanese popular culture as well as the students over whom they have a duty of care, this book will be of great interest to students and scholars of Japanese Studies and Cultural Studies.
