The evolution of automotive climate control systems is told in more than 500 pages including more than 600 pictures. The progress made in heaters, defrosters, air conditioners, ventilation systems and windshield wipers since 1897 is enormous. This book shows how the automobile manufacturers and suppliers have made driving an

automobile safe and pleasant in any type of weather. The major changes that have occurred from the early use of lap robes and charcoal heaters to the modern, sophisticated, electronically controlled systems are fully documented in this book.--P. [4] of cover.

These are the life and times of Lionel Ricardo Barrow II. If it were up to me, I would have been dead on May 20, 2003. All I broke was my left elbow and right femur. The Lord still kept me alive and I kept writing. There were still things I needed to do and that is how I see it. Then my nephew stood me up and I get into a car accident that was not my fault at 3 AM on October 28, 2018 when I was two exits away from home. I broke my

left leg and right ankle. The Lord still kept me alive and then I wrote this memoir. Even still, there is a lot more to the story. I am a doomed cat from the start that should have not been born and this is a manual on when not to have kids.
