Nine Lives Katha

A Buddhist monk takes up arms to resist the Chinese invasion of Tibet-then spends years trying to atone for the violence by hand-printing the best prayer flags in India. A Jain nun tests her powers of detachment as she watches her best friend ritually starve to death. A woman leaves her middle-class family in Calcutta, and her job in a jute factory, to find unexpected love and fulfilment living as a tantric in a remote cremation ground. A prison warden from Kerala becomes, for two months of the year, a temple dancer and is worshipped as an incarnate deity; then, at the end of February each year, he returns to prison. A devadasi initially resists her initiation into sex work, yet pushes her daughters into a trade she now regards as a sacred calling. These are among the nine lives whose mesmerizing and unforgettable stories William Dalrymple tells with an almost biblical simplicity in his first travel book in a decade. A distillation of twenty-five years of travelling around and observing India, *Nine Lives* takes us deep into worlds we would never have imagined existed, even as it explores how traditional forms of religious life in South Asia have been

transformed in the vortex of the region's rapid change.

The Ninth Life of Louis Drax packs an irresistibly twisted wallop . . .

. An exhilarating, darkly inventive read. -Elle Now a major feature

film starring Jamie Dornan and Aaron Paul Nine-year-old Louis

Drax is a problem child: bright, precocious, deceitful, and

dangerously accident-prone. Every year something violent seems

to happen to him. His psychologist is baffled, and his mother lives

in constant panic. He has always managed to survive-to land on

his feet, like a cat. But cats have only nine lives, and Louis has

used up eight, one for every year.. When he falls off a cliff during

a picnic, the accident seems almost predestined. Louis

miraculously survives-but the family has been shattered. Louis'

father has vanished, his mother is in shock, and Louis lies in a

deep coma from which he may never emerge. In a renowned

coma clinic, a specialist tries to coax Louis back to consciousness.

But the boy defies medical logic, startling the doctor out of his

safe preconceptions, and drawing him inexorably into the dark

heart of Louis' buried world. Only Louis holds the key to the

mystery surrounding his fall-and he can't communicate. Or can

he? The Ninth Life of Louis Drax is the story of a family falling

apart, told in the vivid voices of its comatose son and Dr.

Dannachet as he is drawn into the Draxes' circle. Full of

astounding twists and turns, this is a masterful tale of the secrets the human mind can hide.

The Wicked King (The Folk of the Air #2) Penguin UK

A brave, intimate, beautifully crafted memoir by a survivor of the tsunami that struck the Sri Lankan coast in 2004 and took her entire family. On December 26, Boxing Day, Sonali Deraniyagala, her English husband, her parents, her two young sons, and a close friend were ending Christmas vacation at the seaside resort of Yala on the south coast of Sri Lanka when a wave suddenly overtook them. She was only to learn later that this was a tsunami that devastated coastlines through Southeast Asia. When the water began to encroach closer to their hotel, they began to run, but in an instant, water engulfed them, Sonali was separated from her family, and all was lost. Sonali Deraniyagala has written an extraordinarily honest, utterly engrossing account of the surreal tragedy of a devastating event that all at once ended her life as she knew it and her journey since in search of understanding and redemption. It is also a remarkable portrait of a young family's life and what came before, with all the small moments and larger dreams that suddenly and irrevocably ended.

The winners of the Nobel Prize show how economics, when done right, can help us solve the thorniest social and political problems of our day. Figuring out how to deal with today's critical economic problems is perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it. Immigration and inequality,

globalization and technological disruption, slowing growth and accelerating climate change--these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and Washington, DC. The resources to address these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and urgent, *Good Economics for Hard Times* makes a persuasive case for an intelligent interventionism and a society built on compassion and respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously balanced world.

Five thousand years ago, there came to earth a magical being called Krishna, who brought about innumerable miracles for the good of mankind. Humanity despaired of its fate if the Blue God were to die but was reassured that he would return in a fresh avatar when needed in the eventual Dark Age--the Kaliyug. In modern times, a poor little rich boy grows up believing that he is that final avatar. Only, he is a serial killer. In this heart-stopping tale, the arrival of a murderer who executes his gruesome and brilliantly thought-out schemes in the name of God is the first clue to a sinister conspiracy to expose an ancient secret--Krishna's priceless legacy to mankind. Historian Ravi Mohan Saini must breathlessly dash from the submerged remains of Dwarka and

the mysterious lingam of Somnath to the icy heights of Mount Kailash, in a quest to discover the cryptic location of Krishna's most prized possession. From the sand-washed ruins of Kalibangan to a Vrindavan temple destroyed by Aurangzeb, Saini must also delve into antiquity to prevent a gross miscarriage of justice. Ashwin Sanghi brings you yet another exhaustively researched whopper of a plot, while providing an incredible alternative interpretation of the Vedic Age that will be relished by conspiracy buffs and thriller-addicts alike.

'A revelation' Sunday Times, Books of the Year 2018 The first Penguin anthology of Japanese haiku, in vivid new translations by Adam L. Kern. Now a global poetry, the haiku was originally a Japanese verse form that flourished from the sixteenth to nineteenth centuries. Although renowned for its brevity, usually running three lines long in seventeen syllables, and by its use of natural imagery to make Zen-like observations about reality, in fact the haiku is much more: it can be erotic, funny, crude and mischievous. Presenting over a thousand exemplars in vivid and engaging translations, this anthology offers an illuminating introduction to this widely celebrated, if misunderstood, art form. Adam L. Kern's new translations are accompanied here by the original Japanese and short commentaries on the poems, as well as an introduction and illustrations from the period.

India Calling Springer

A seemingly random selection of heads of state are struck down like flies by unnamed killers who work with the clinical efficiency of butchers. Except that they leave no trace of their methods. Welcome back to the shadowy and addictive world of Ashwin Sanghi. After *The Rozabal Line*, *Chanakya's Chant*, *The Krishna Key* and *The Sialkot Saga*, Ashwin Sanghi returns at last with another quietly fearsome tale-this time of men who guard the 'Kalachakra' or The Wheel of Time. Sanghi describes a world of people at war with one another-a boomeranging conflict of faiths that results in acts of such slow and planned human cruelty that they defy human imagination. Caught in the midst of this madness is Vijay Sundaram, a geek scientist who is only dimly aware that the wider sky outside his laboratory is stretched taut and close to being torn apart by forces that he wants simply to have nothing to do with. But events conspire to propel Vijay into the labyrinth of Milesian Labs, a centre of research deep in the forested hills of Uttarakhand. What he stumbles upon is a primordial clue to a galactic secret that could accelerate the downward spiral of humankind. Trapped and wholly unaware of his actual foe, Vijay races against time to save humanity-and himself. Zigzagging from Rama's crossing to Lanka to the birth of

Buddhism; from the origin of Wahhabism to the Einsteinian gravitational wave-detectors of LIGO; from the charnel-grounds of naked tantric practitioners to the bespoke suits of the Oval Office; and from the rites of Minerva, shrouded in frankincense, to the smoke-darkened ruins of Nalanda, *Keepers of the Kalachakra* is a journey that will have you gasping for breath-but one that you cannot abandon till all the pieces of the jigsaw come together. Till you come up gobsmack against an end that you simply did not see coming.

In the Remixed Classics series, authors from marginalized backgrounds reinterpret classic works through their own cultural lens to subvert the overwhelming cis het, white, and male canon. Two British Indian teens cut off from their heritage find solace in each other in this gothic *Wuthering Heights* YA remix that subverts the default whiteness of the original text. Sometimes, lost things find their way home... Yorkshire, North of England, 1786. As the abandoned son of a lascar—a sailor from India—Heathcliff has spent most of his young life maligned as an "outsider." Now he's been flung into an alien life in the Yorkshire moors, where he clings to his birth father's language even though it makes the children of the house call him an animal, and the maids claim he speaks gibberish. Catherine is the younger child of the estate's owner, a daughter with light skin and brown curls and a mother that nobody talks about. Her father is grooming her for a place in proper society, and that's all that matters. Catherine knows she must mold herself into someone pretty and good and marriageable, even though it might destroy her spirit.

As they occasionally flee into the moors to escape judgment and share the half-remembered language of their unknown kin, Catherine and Heathcliff come to find solace in each other. Deep down in their souls, they can feel they are the same. But when Catherine's father dies and the household's treatment of Heathcliff only grows more cruel, their relationship becomes strained and threatens to unravel. For how can they ever be together, when loving each other—and indeed, loving themselves—is as good as throwing themselves into poverty and death? The women in this book are not extraordinary or famous, and yet their stories and testimonies, narrated here by one of India's best-known women journalists, provide a passionate, often deeply touching, revelation of what it means to be a woman in India today. The women tell of marriage and widowhood, unfair work practices, sexual servitude, the problems of bearing and rearing children in poverty, religion, discrimination, other forms of exploitation ... Yet they also talk of fulfilling relationships, the joys of marriage and children, the exhilaration of breaking free from the bonds of tradition, ritual, caste, religion ... Interwoven with all this is the story of one woman's journey--of how Anees Jung, the author, brought up in purdah, succeeded in shaking off the restricting influences of her traditional upbringing to become a highly successful, independent career woman, still a comparatively rare phenomenon in India. As such, the book is

essential reading for anyone wishing to understand the women of India--the silent majority that is now beginning to make itself heard.

Good Economics for Hard Times Nine Lives

A masterpiece of linguistics scholarship, at once erudite and entertaining, confronts the thorny question of how—and whether—culture shapes language and language, culture. Linguistics has long shied away from claiming any link between a language and the culture of its speakers: too much simplistic (even bigoted) chatter about the romance of Italian and the goose-stepping orderliness of German has made serious thinkers wary of the entire subject. But now, acclaimed linguist Guy Deutscher has dared to reopen the issue. Can culture influence language—and vice versa? Can different languages lead their speakers to different thoughts? Could our experience of the world depend on whether our language has a word for "blue"? Challenging the consensus that the fundamentals of language are

hard-wired in our genes and thus universal, Deutscher argues that the answer to all these questions is—yes. In thrilling fashion, he takes us from Homer to Darwin, from Yale to the Amazon, from how to name the rainbow to why Russian water—a "she"—becomes a "he" once you dip a tea bag into her,

demonstrating that language does in fact reflect culture in ways that are anything but trivial. Audacious, delightful, and field-changing, *Through the Language Glass* is a classic of intellectual discovery.
