 The Atrix is one of Motorola's first 4G smartphones, packed full of new features and tools. The Motorola Atrix Survival Guide organizes the wealth of knowledge about the Atrix into one place, where it can be easily accessed and navigated for quick reference. This guide comes with countless screenshots, which complement the step-by-step instructions and help you to realize the Atrix's full potential. The Motorola Atrix Survival Guide provides useful information, such as tips and tricks, hidden features, and troubleshooting advice. You will also learn how to download FREE games and FREE eBooks, and how to personalize your phone with custom ringtones and wallpapers. Whereas the official Atrix manual is stagnant, this guide goes above and beyond by discussing recent known issues and solutions that may be currently available. This information is constantly revised for a complete, up-to-date manual. This Atrix guide includes, but is not limited to: Getting Started: - Button Layout - Navigating the Screens - Making Calls - Using the Speakerphone During a Voice Call - Staring a Conference Call - Managing Your Contacts - Adding a

New Contact - Adding a Favorite Contact (Speed Dial) - Managing Text Messages - Adding Texted Phone Numbers to Contacts - Copying, Cutting, and Pasting Text - Using Swype - Sending Picture and Video Messages - Using the Internet Browser - Managing Open Browser Windows - Managing Photos and Videos - Taking Pictures - Capturing Videos - Using the Gmail Application - Changing Gmail Options - Managing Applications - Sharing an Application - Using the Android Market to Download Applications - Reading User Reviews - Deleting an Application Advanced Topics: - Reading eBooks - Downloading thousands of free eBooks - Adjusting the Settings - Turning Vibration On and Off - Setting Alert Sounds - Changing the Wallpaper - Setting a Pattern Lock - Changing Keyboard Settings - Changing Security Settings - Turning Bluetooth On and Off - Turning Wi-Fi On and Off - Turning Airplane Mode On and Off - Tips and Tricks - Maximizing Battery Life - Resetting Your Atrix - Viewing the Full Horizontal Keyboard - Calling a Number on a Website - Troubleshooting - List of Droid-friendly websites that save you time typing in long URL addresses

*Evaluation Guide (Linux) for MicroStrategy 9.2.1m* John Wiley & Sons

Management and legal counsel of foreign companies operating in China as well as those outside China with Chinese business desperately need to keep up with the fast-paced antitrust developments in the most dynamic market in the world. The author of this book, Becky Koblit, is a seasoned antitrust lawyer for a major U.S. law firm in Beijing. She has decades of legal experience as a prosecutor at the Antitrust Division of the U.S. Department of Justice, as well as in-house counsel for a German subsidiary of a major American real estate development company and as a lawyer at law firms globally. Her rich experience in the U.S., Europe and China, now often regarded as the three centers of global antitrust, makes her the perfect candidate to write a book on China's antitrust development. Her book is a quick read that tells what there is to know about China's antitrust enforcement and includes practical advice and examples for the various aspects of antitrust: dealing with competitors, dealing within the supply chain, mergers, etc. She writes in a straight-forward language such that non-antitrust lawyers can get beyond stock phrases like "illicit price coordination," "abuse of dominance," or "unilateral effect." Her book is a valuable and practical "cookbook" for antitrust compliance training and beyond. Another feature of the book is that it provides both legal and economic perspectives on antitrust analysis in China, which is important given that economic analysis is increasingly adopted by China's antitrust agencies and the Chinese courts. Thus understanding the logic and methodology behind economic analysis as applied to Chinese cases is key to conducting proper antitrust legal analysis that is tailored to the Chinese context. To write a book on the burgeoning antitrust enforcement and practice for the constantly evolving Chinese market is a real challenge. The trick, and it is not as easy as you would think, is to write simple declarative sentences, understandable to the antitrust layman, and at the same time not lose the rigor of antitrust analysis. I think this relatively short book is a remarkable achievement in meeting such a challenge, but I invite you to judge for yourself.
