The Color of Compromise reveals the chilling connection between the church and racism throughout American history. A survey of the ways Christians of the past have reinforced theories of racial superiority and inferiority provides motivation for a series of bold actions believers must take to forge a future of equity and justice.

How do we effectively confront racial injustice? We need to move beyond talking about racism and start equipping ourselves to fight against it. In this follow-up to the New York Times Bestseller the Color of Compromise, Jemar Tisby offers an array of actionable items to confront racism. How to Fight Racism introduces a simple framework—the A.R.C. Of Racial Justice—that teaches readers to consistently interrogate their own actions and maintain a consistent posture of anti-racist behavior. The A.R.C. Of Racial Justice is a clear model for how to think about race in productive ways: Awareness: educate yourself by studying history, exploring your personal narrative, and grasping what God says about the dignity of the human person. Relationships: understand the spiritual dimension of race relations and how authentic connections make reconciliation real and motivate you to act. Commitment: consistently fight systemic racism and work for racial justice by orienting your life to it. Tisby offers practical tools for following this model and suggests that by applying these principles, we can help dismantle a social hierarchy long stratified by skin color. He encourages rejection passivity and active participation in the struggle for human dignity. There is hope for transforming our nation and the world, and you can be part of the solution.

High rates of intermarriage, especially with Whites, have been viewed as an indicator that Asian Americans are successfully "assimilating," signaling acceptance by the White majority and their own desire to become part of the White mainstream. Comparing two types of Asian American intermarriage, interracial and interethnic, Kelly H. Chong disrupts these assumptions by showing that both types of intermarriages, in differing ways, are sites of complex struggles around racial/ethnic identity and cultural formations that reveal the salience of race in the lives of Asian Americans. Drawing upon extensive qualitative data, Chong explores how interracial marriages, far from being an endpoint of assimilation, are a terrain of life-long negotiations over racial and ethnic identities, while interethnic (intra-Asian) unions and family-making illuminate Asian Americans' ongoing efforts to co-construct and sustain a common racial identity and panethnic culture despite

interethnic differences and tensions. Chong also examines the pivotal role race and gender play in shaping both the romantic desires and desirability of Asian Americans, spotlighting the social construction of love and marital choices. Through the lens of intermarriage, *Love Across Borders* offers critical insights into the often invisible racial struggles of this racially in-between "model minority" group -- particularly its ambivalent negotiations with whiteness and white privilege -- and on the group's social incorporation process and its implications for the redrawing of color boundaries in the U.S.

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this "vital, necessary, and beautiful book" (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and "allows us to understand racism as a practice not restricted to 'bad people' (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

In this spiritual memoir, a white woman in an interracial marriage and mixed-race family paints a beautiful path from white privilege toward racial healing, from ignorance toward seeing the image of God in everyone she meets. Author and speaker Cara Meredith grew up in a colorless world. From childhood, she didn't think issues of race had anything to do with her, and she was ignorant of many

of the racial realities (including individual and systemic racism) in America today. A colorblind rhetoric had been stamped across her education, world view, and Christian theology. Then as an adult, Cara's life took on new, colorful hues. She realized that white people in her generation, seeking to move beyond ancestral racism, had swung so far in believing a colorblind rhetoric that they tried to act as if they didn't see race at all. When Cara met and fell in love with the son of black icon, James Meredith, the power of love helped her see color. She began to notice the shades of life already present in the world around her, while also learning to listen in new ways to black voices of the past. After she married and their little family grew to include two mixed-race sons, Cara knew she would never see the world through a colorless lens again. Cara Meredith's journey will serve as an invitation into conversations of justice, race, and privilege, asking key questions, such as: What does it mean to navigate ongoing and desperately needed conversations of race and justice? What does it mean for white people to listen and learn from the realities our black and brown brothers and sisters face every day? What does it mean to teach the next generation a theology of justice, reconciliation, and love? What does it mean to dig into the stories of our past, both historically and theologically, to see the imago Dei in everyone? Plus, Cara offers an extensive Notes and Recommended Reading section at the end of the book, so you can continue learning, listening, and engaging in this important conversation.

Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. *I Know Why the Caged Bird Sings* captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local "powhitetrash." At eight years old and back at her mother's side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors ("I met and fell in love with William Shakespeare") will allow her to be free instead of imprisoned. Poetic and powerful, *I Know Why the Caged Bird Sings* will touch hearts and change minds for as long as people read. "I Know Why the Caged Bird Sings liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity."—James Baldwin From the Paperback edition.

Thirty years after Lyndon Johnson declared a War on Poverty, the United States still lags behind most Western democracies in national welfare systems, lacking such basic programs as national health insurance and child care support. Some critics have explained the failure of social programs by citing our tradition of individual freedom and libertarian values, while others point to weaknesses within the working class. In *The Color of Welfare*, Jill Quadagno takes exception to these claims, placing race at the center of the "American Dilemma," as Swedish economist Gunnar Myrdal did half a century ago. The "American creed" of liberty, justice, and equality clashed with a history of active racial discrimination, says Quadagno. It is racism that has undermined the War on Poverty, and

America must come to terms with this history if there is to be any hope of addressing welfare reform today. From Reconstruction to Lyndon Johnson and beyond, Quadagno reveals how American social policy has continually foundered on issues of race. Drawing on extensive primary research, Quadagno shows, for instance, how Roosevelt, in need of support from southern congressmen, excluded African Americans from the core programs of the Social Security Act. Turning to Lyndon Johnson's "unconditional war on poverty," she contends that though anti-poverty programs for job training, community action, health care, housing, and education have accomplished much, they have not been fully realized because they became inextricably intertwined with the civil rights movement of the 1960s, which triggered a white backlash. Job training programs, for instance, became affirmative action programs, programs to improve housing became programs to integrate housing, programs that began as community action to upgrade the quality of life in the cities were taken over by local civil rights groups. This shift of emphasis eventually alienated white, working-class Americans, who had some of the same needs—for health care, subsidized housing, and job training opportunities—but who got very little from these programs. At the same time, affirmative action clashed openly with organized labor, and equal housing raised protests from the white suburban middle-class, who didn't want their neighborhoods integrated. Quadagno shows that Nixon, who initially supported many of Johnson's programs, eventually caught on that the white middle class was disenchanted. He realized that his grand plan for welfare reform, the Family Assistance Plan, threatened to undermine wages in the South and alienate the Republican party's new constituency—white, southern Democrats—and therefore dropped it. In the 1960s, the United States embarked on a journey to resolve the "American dilemma." Yet instead of finally instituting full democratic rights for all its citizens, the policies enacted in that turbulent decade failed dismally. *The Color of Welfare* reveals the root cause of this failure—the inability to address racial inequality.

From the New York Times bestselling author of *Deacon King Kong* and *The Good Lord Bird*, winner of the National Book Award for Fiction: The modern classic that Oprah.com calls one of the best memoirs of a generation and that launched James McBride's literary career. More than two years on The New York Times bestseller list. Who is Ruth McBride Jordan? A self-declared "light-skinned" woman evasive about her ethnicity, yet steadfast in her love for her twelve black children. James McBride, journalist, musician, and son, explores his mother's past, as well as his own upbringing and heritage, in a poignant and powerful debut, *The Color of Water: A Black Man's Tribute to His White Mother*. The son of a black minister and a woman who would not admit she was white, James McBride grew up in "orchestrated chaos" with his eleven siblings in the poor, all-black projects of Red Hook, Brooklyn. "Mommy," a fiercely protective woman with "dark eyes full of pep and fire," herded her brood to Manhattan's free cultural events, sent them off on buses to the best (and mainly Jewish) schools, demanded good grades, and commanded respect. As a young man, McBride saw his mother as a source of embarrassment, worry, and confusion—and reached thirty before he began to discover the truth about her early life and long-buried pain. In *The Color of Water*, McBride retraces his mother's footsteps and, through her searing and spirited voice, recreates her remarkable story. The daughter of a failed itinerant Orthodox rabbi, she was born Rachel Shilsky (actually Ruchel Dwara Zylska) in Poland on April 1, 1921. Fleeing pogroms, her family emigrated to

America and ultimately settled in Suffolk, Virginia, a small town where anti-Semitism and racial tensions ran high. With candor and immediacy, Ruth describes her parents' loveless marriage; her fragile, handicapped mother; her cruel, sexually-abusive father; and the rest of the family and life she abandoned. At seventeen, after fleeing Virginia and settling in New York City, Ruth married a black minister and founded the all-black New Brown Memorial Baptist Church in her Red Hook living room. "God is the color of water," Ruth McBride taught her children, firmly convinced that life's blessings and life's values transcend race. Twice widowed, and continually confronting overwhelming adversity and racism, Ruth's determination, drive and discipline saw her dozen children through college—and most through graduate school. At age 65, she herself received a degree in social work from Temple University. Interspersed throughout his mother's compelling narrative, McBride shares candid recollections of his own experiences as a mixed-race child of poverty, his flirtations with drugs and violence, and his eventual self-realization and professional success. *The Color of Water* touches readers of all colors as a vivid portrait of growing up, a haunting meditation on race and identity, and a lyrical valentine to a mother from her son. This book was recently reprinted with a new cover. You may receive one of the two covers shown.

A *White Side of Black Britain* explores the racial consciousness of white women in the United Kingdom who have had children with black men, primarily British-born men of Caribbean heritage. Contending that social scientists do not adequately understand how white members of black families negotiate race, France Winddance Twine describes the everyday lives of white women raising children of African Caribbean descent in a racially diverse mid-size British city. Varying in age, income, and education, the women at the centre of Twine's ethnography share moving stories about how they met the fathers of their children, how they incorporate ideas about race and racism into their parenting, and how their thinking about race and social relations changed over time. Interviewing and observing more than forty multiracial families over the span of a decade, Twine discovered that the white women's sense of belonging and racial consciousness was derived as much from their interactions with their partner's family and friends as it was from their romantic relations with black men. In addition to the white birth mothers, Twine interviewed their children, partners, and extended families, and her book can be read in part as a dialogue about race among black and white members of the same families. It includes intimate photographs of the women and their children, partners, extended families, and community.

When did America become obsessed with racial differences? After decades of progress healing real-world prejudices and anger, we suddenly live in an America where we're expected to view every single thing through the lens of race. Children are taught the politics of racial resentment and fear in schools. Films, novels, and even comic books are judged by the color of their protagonists—and their adherence to the latest "woke" messaging. Corporate America has universally adopted the slogan "Black Lives Matter" in every piece of marketing, those words serving as a talisman to protect them from Twitter mobs and outraged activists. And the 1619 Project and similar pieces of academic propaganda seek to redefine and undermine the very notion of America as a unified and great nation. Meanwhile, organized BLM advances a radical and dangerous political agenda which, if

enacted, would mean the end of the American experiment as we know it. The nation faces a pivotal moment: will we reject the Race Crazies, or let them destroy us?

"With narrative fluency and deftness, constructed on a bedrock of prodigious archival research, HoSang's book provides a sorely needed genealogy of the 'color-blind consensus' that has come to define race and recode racism within US politics, law and public policy. This will be a book that lasts."--Nikhil Pal Singh, author of *Black is a Country: Race and the Unfinished Struggle for Democracy* "An important analysis of both the exact contours of white supremacy and the failures of electoral anti-racism."--George Lipsitz, author of *The Possessive Investment in Whiteness* "Racial Propositions brilliantly documents the history of race in California's post-World War II ballot initiatives to show that nothing is what it seems when it comes to race and politics in America's ethnoracial frontier. Daniel HoSang provides readers with a sharply focused interdisciplinary lens through which to see how the language and politics of political liberalism veil what are ultimately racialized ballot initiatives. If California is a harbinger for the rest of the country, then HoSang's tour de force is required reading for anyone interested how the United States will negotiate diversity in the 21st century."--Tomás R. Jiménez, author of *Replenished Ethnicity: Mexican Americans, Immigration, and Identity*

How interracial couples in Brazil and the US navigate racial boundaries How do people understand and navigate being married to a person of a different race? Based on individual interviews with forty-seven black-white couples in two large, multicultural cities—Los Angeles and Rio de Janeiro—*Boundaries of Love* explores how partners in these relationships ultimately reproduce, negotiate, and challenge the "us" versus "them" mentality of ethno-racial boundaries. By centering marriage, Chinyere Osuji reveals the family as a primary site for understanding the social construction of race. She challenges the naive but widespread belief that interracial couples and their children provide an antidote to racism in the twenty-first century, instead highlighting the complexities and contradictions of these relationships. Featuring black husbands with white wives as well as black wives with white husbands, *Boundaries of Love* sheds light on the role of gender in navigating life married to a person of a different color. Osuji compares black-white couples in Brazil and the United States, the two most populous post-slavery societies in the Western hemisphere. These settings, she argues, reveal the impact of contemporary race mixture on racial hierarchies and racial ideologies, both old and new.

The aftereffect of the book is the enhanced capacity for diversity, which comes from examining and redefining key parts of popular history, language and perceptions learned since childhood. Written with an impartial view of the past, this text shows how current ideas, perspectives, fears and realities came to be. By examining common global human attitudes and emotions in specific survival situations over time, it shows how groups and individuals have become who they are. The standard premises used to solve contemporary social problems have lacked insight. In studying the terms that we use to define our world we find clarity by understanding the mindsets that created them. The resulting new understanding can socially bring us into the 21st century. This is my planet where I live with my people. Thoughts From Our Readers: "This book is clearly about why a divided America does not get along and how it can." -A. PARADE's Best Books to Read this Summer "A rich historical novel that illustrates why connection is more important and more vital than ever." -New York Times bestselling author Lisa See Daniel Abe, a young doctor in Chicago, is finally coming back to Hawai'i. He has his own reason for returning to his childhood home, but it is not to revisit the past, unlike his Uncle Koji. Koji lives with the memories of Daniel's mother, Mariko, the love of his life, and the scars of a life hard-lived. He can't wait to see Daniel, who he's always thought of as a son, but he knows the time has come to tell him the truth about his mother, and his father. But Daniel's arrival coincides with the awakening of the Mauna Loa volcano, and its dangerous path toward their village stirs both new and long ago passions in their community. Alternating between past and present—from the day of the volcano eruption in 1935 to decades prior—The Color of Air interweaves the stories of Daniel, Koji, and Mariko to create a rich, vibrant, bittersweet chorus that celebrates their lifelong bond to one other and to their immigrant community. As Mauna Loa threatens their lives and livelihoods, it also unearths long held secrets simmering below the surface that meld past and present, revealing a path forward for them all.
