Kaplan & Sadock's Synopsis of Psychiatry Penguin

New York Times Bestseller: The moving, entertaining, never-before-told story of how one man found his calling: to see that those who defend this country and its freedoms are never forgotten. "The book is called Grateful American, and I promise you after you read it you will be grateful for what Gary has accomplished and contributed to our country." -- Clint Eastwood As a kid in suburban Chicago, Gary Sinise was more interested in sports and rock 'n' roll than reading or schoolwork. But when he impulsively auditioned for a school production of West Side Story, he found his purpose--or so it seemed. Within a few years Gary and a handful of friends created what became one of the most exciting and important new theater companies in America. From its humble beginnings in a suburban Chicago church basement and eventual move into the city, the Steppenwolf Theatre Company launched a series of groundbreaking productions, igniting Gary's career along with those of John Malkovich, Joan Allen, Gary Cole, Laurie Metcalf, Jeff Perry, John Mahoney, and others. Television and film came calling soon after, and Gary starred in *Of Mice and Men* (which he also directed) and *The Stand* before taking the role that would change his life in unforeseeable ways: Lieutenant Dan in the Academy Award-winning *Forrest Gump*. The military community's embrace of the character of the disabled veteran was matched only by the depth of Gary's realization that America's defenders had not received all the honor, respect, and gratitude their sacrifices deserve. In the aftermath of the September 11 attacks, this became Gary's mission. While starring in hits like *Apollo 13*, *Ransom*, *Truman*, *George Wallace*, *CSI:NY*, and *Criminal Minds: Beyond Borders*, Gary has worked tirelessly on behalf of those who serve this country... entertaining more than a half million troops around the world playing bass guitar with his Lt. Dan Band, raising funds on behalf of veterans, and founding the Gary Sinise Foundation with a mission to serve and honor America's defenders, veterans, first responders, their families, and those in need. Grateful American is the moving, entertaining, profoundly gripping story of how one man found his calling: to see that those who defend this country and its freedoms are never forgotten.

All the Right Reasons Nancy Caroline's Emergency Care in the Streets

A riveting personal exploration of the healthcare crisis facing inner-city communities, written by an emergency room physician who grew up in the very neighborhood he is now serving Sampson Davis is best known as one of three friends from inner-city Newark who made a pact in high school to become doctors. Their book *The Pact* and their work through the Three Doctors Foundation have inspired countless young men and women to strive for goals they otherwise would not have dreamed they could attain. In this book, Dr. Davis looks at the healthcare crisis in the inner city from a rare perspective: as a doctor who works on the front line of emergency medical care in the community where he grew up, and as a member of that community who has faced the same challenges as the people he treats every day. He also offers invaluable practical advice for those living in such communities, where conditions like asthma, heart disease, stroke, obesity, and AIDS are disproportionately endemic. Dr. Davis's sister, a drug addict, died of AIDS; his brother is now paralyzed and confined to a wheelchair as a result of a bar fight; and he himself did time in juvenile detention—a wake-up call that changed his life. He recounts recognizing a young man who is brought to the E.R. with critical gunshot wounds as someone who was arrested with him when he was a teenager during a robbery gone bad; describes a patient whose case of sickle-cell anemia rouses an ethical dilemma; and explains the difficulty he has convincing his landlord and friend, an older woman, to go to the hospital for much-needed treatment. With empathy and hard-earned wisdom, *Living and Dying in Brick City* presents an urgent picture of medical care in our cities. It is an important resource guide for anyone at risk, anyone close to those at risk, and anyone who cares about the fate of our cities. Praise for *Living and Dying in Brick City* "A pull-no-punches look at health care from a seldom-heard sector . . . *Living and Dying* isn't a sky-is-falling chronicle. It's a real, gutsy view of a city hospital."—Essence "Gripping . . . a prescription to help kids dream bigger than their circumstances, from someone who really knows."—People "[Dr. Davis] is really a local hero. His story has inspired so many of our young people, and he's got his finger on the pulse of what is a challenge in Newark, and frankly all across America. . . . I think his book is going to make a big impact."—Cory Booker "Some memoirs are heartfelt, some are informative and some are even important. Few, however, are all three. . . . As rare as it is for a book to be heartfelt, well written and inspirational, it's even rarer for a critic to say that a book should be required reading. This ought to be included in high school curricula—for the kids in the suburbs who have no idea what life is like in the inner cities, and for the kids in the inner cities to know that there is a way out."—The Star-Ledger "Dramatic and powerful."—New York Daily News "This book just might save your life. Sampson Davis shares fascinating stories from the E.R. and addresses the inner-city health crisis. His book is an important investment in your most valuable resource: your health."—Suze Orman, author of *The Money Class*

From the "hilarious, heartbreaking, and insightful" (The Miami Herald) bestselling author Jennifer Weiner comes a sweeping, modern day fairy tale about first romance and lasting love. Rachel Blum and Andy Landis are eight years old when they meet late one night in an ER waiting room. Born with a congenital heart defect, Rachel is a veteran of hospitals, and she's intrigued by the boy who shows up all alone with a broken arm. He tells her his name. She tells him a story. After Andy's taken back to the emergency room and Rachel's sent back to her bed, they think they'll never see each other again. Rachel, the beloved, popular, and protected daughter of two doting parents, grows up wanting for nothing in a fancy Florida suburb. Andy grows up poor in Philadelphia with a single mom and a rare talent that will let him become one of the best runners of his generation. Over the course of three decades, through high school and college, marriages and divorces, from the pinnacles of victory and the heartbreak of defeat, Andy and Rachel will find each other again and again, until they are finally given a chance to decide whether love can surmount difference and distance and if they've been running toward each other all along.
