for Nonfiction This compelling #1 New York Times bestseller examines the legacy of slavery in America—and how both history and activism continue to shape our everyday lives. Beginning in his hometown of New Orleans, Clint Smith leads the reader on an unforgettable tour of monuments and landmarks—those that are honest about the past and those that are not—that offer an intergenerational story of how slavery has been central in shaping our nation's collective history, and ourselves. It is the story of the Monticello Plantation in Virginia, the estate where Thomas Jefferson wrote letters espousing the urgent need for liberty while enslaving more than four hundred people. It is the story of the Whitney Plantation, one of the only former plantations devoted to preserving the experience of the enslaved people whose lives and work sustained it. It is the story of Angola, a former plantation-turned-maximum-security prison in Louisiana that is filled with Black men who work across the 18,000-acre land for virtually no pay. And it is the story of Blandford Cemetery, the final resting place of tens

of thousands of Confederate soldiers. A deeply researched and transporting exploration of the legacy of slavery and its imprint on centuries of American history, *How the Word Is Passed* illustrates how some of our country's most essential stories are hidden in plain view—whether in places we might drive by on our way to work, holidays such as Juneteenth, or entire neighborhoods like downtown Manhattan, where the brutal history of the trade in enslaved men, women, and children has been deeply imprinted. Informed by scholarship and brought to life by the story of people living today, Smith's debut work of nonfiction is a landmark of reflection and insight that offers a new understanding of the hopeful role that memory and history can play in making sense of our country and how it has come to be.

This landmark publication distills the body of knowledge that characterizes mineral processing and extractive metallurgy as disciplinary fields. It will inspire and

inform current and future generations of minerals and metallurgy professionals. Mineral processing and extractive metallurgy are atypical disciplines, requiring a combination of knowledge, experience, and art. Investing in this trove of valuable information is a must for all those involved in the industry—students, engineers, mill managers, and operators. More than 192 internationally recognized experts have contributed to the handbook's 128 thought-provoking chapters that examine nearly every aspect of mineral processing and extractive metallurgy. This inclusive reference addresses the magnitude of traditional industry topics and also addresses the new technologies and important cultural and social issues that are important today. Contents

Love is the greatest gamble of all . . . Nina Sheridan desperately needs a timeout vacation. With a fiancé who can't even remember how she takes her coffee, Nina wants some distance to rethink her engagement. Flying halfway around the world from England to a mountain town in Colorado should do the trick. But when she finds a gorgeous man at her rental cabin, Nina's cold, lonely adventure suddenly heats up. The owner of the house, Holden "Max" Maxwell is surprised by the beautiful woman who turns up at his door. But when Nina becomes ill, Max spends days nursing

her back to health. A private man with a broken heart, Max finds himself drawn to the strong-willed woman. Soon it becomes impossible for Nina and Max to deny their growing attraction to one another. Yet even as these two wounded lovebirds think about taking a chance on a relationship, a dangerous secret from Max's past emerges and threatens to end their love for good.

*Jury Instructions on Products Liability, Fourth Edition* covers the issues likely to arise in a trial. Judges have given them, juries have followed them, and appeals courts have tested them. Each instruction cites supporting case law, including relevant law review articles and annotations to American Law Reports, to save time and effort in finding support for your request. *Jury Instructions on Products Liability* explains the issues for the layman, translating complex legal issues into everyday language. Tailor each instruction to fit the unique details of your case and fine-tune the issues to assert more control over jury

deliberations. *Jury Instructions on Products Liability* includes hundreds of instructions on these and other topics:

- Duty to warn
- Strict products liability
- Unavoidably unsafe products
- Warranty liability and misrepresentation
- Design defect liability
- Risk-utility doctrines
- Testing and inspection
- Industry standards and customs
- Comparative negligence
- Assumption of risk
- Causation

The Fourth Edition also addresses the New Restatement of Torts: *Products Liability*.

Effective risk communication is essential to the well-being of any organization and those people who depend on it. Ineffective communication can cost lives, money and reputations.

*Communicating Risks and Benefits: An Evidence-Based User's Guide* provides the scientific foundations for effective communications. The book authoritatively summarizes the relevant research, draws out its implications for communication design,

and provides practical ways to evaluate and improve communications for any decision involving risks and benefits. Topics include the communication of quantitative information and warnings, the roles of emotion and the news media, the effects of age and literacy, and tests of how well communications meet the organization's goals. The guide will help users in any organization, with any budget, to make the science of their communications as sound as the science that they are communicating.

Seattle has a long tradition of being at the forefront of technological innovation. In 1919, an eager young inventor named Alfred M. Hubbard made his first newspaper appearance with the announcement of a perpetual motion machine that harnessed energy from Earth's atmosphere. From there, Hubbard transformed himself into a charlatan, bootlegger, radio pioneer, top-secret spy, millionaire and uranium entrepreneur. In 1953, after discovering the transformative effects of a little-known hallucinogenic compound, Hubbard would go on to

become the "Johnny Appleseed of LSD," introducing the psychedelic to many of the era's vanguards and an entire generation. Join author and historian Brad Holden as he chronicles the fascinating life of one of Seattle's legendary figures.

Justice Lonesome has enjoyed a life of bounty. Even so, she's inherited the curse of the Lonesome. A poet's soul. Which means she's still searching for something. Searching for peace. Searching for the less...that's more. And when the foundation of her life is pulled out from under her, grieving, she goes to the mountains to find her oasis. She hits Carnal, Colorado and decides to stay. Deke Hightower lost everything at the age of two. He lost it again at fifteen. His life has not been about bounty. It's been about learning to live with less, because there's no way to get more. Deke's also watched all his friends go down to the women who gave them what they needed. He wants that for himself. But he knows that search isn't going to be easy because he's a

rider. His home is the road. That's the only place he can breathe. And the woman who takes her place at his side has to do it sitting on the back of his bike. When Deke meets Justice, he knows she's not that woman. She's cute. She's sweet. And she's into him, but she's got it all and Deke knows he won't fit into that. So he holds her at arm's length. Establishes boundaries. And Justice will take it because she wants Deke any way he'll let her have him. But when Justice finds herself a pawn in a dangerous game, Deke makes a decision. When he does, he has no idea he's just opened himself up to bounty.

From the Grammy-nominated singer, drummer, and percussionist who is world renowned for her contributions throughout the music industry, a moving memoir about the healing power of music and spiritual growth inspired by five decades of life and love on the stage. She was born Sheila Escovedo in 1957, but the world knows her

as Sheila E. She first picked up the drumsticks and started making music at the precocious age of three, taught by her legendary father, percussionist Pete Escovedo. As the goddaughter of Tito Puente, music was the heartbeat of her family, and despite Sheila's impoverished childhood in Oakland, California, her family stayed strong, inspired by the music they played nightly in their living room. When she was only five, Sheila delivered her first solo performance to a live audience. By nineteen, she had fallen in love with Carlos Santana. By twenty-one, she met Prince at one of her concerts. Sheila E. and Prince would eventually join forces and collaborate for more than two decades, creating hits that catapulted Sheila to her own pop superstardom. *The Beat of My Own Drum* is both a walk through four decades of Latin and pop music—from her tours with Marvin Gaye, Lionel Richie, Prince, and Ringo Starr to her own solo career. At the same time, it's also a heartbreaking, ultimately redemptive look at how the sanctity of music can save a person's

life. Having repeatedly endured sexual abuse as a child, Sheila credits her parents, music, and God with giving her the will to carry on and to build a lasting legacy. Rich in musical detail, pop, and Latin music history, this is a fascinating walk through some of the biggest moments in music from the '70s and '80s. But as Sheila's personal story, this memoir is a unique glimpse into a world-famous drummer's singular life—a treat for both new and longtime fans of Sheila E. And above all, *The Beat of My Own Drum* is a testament to how the positive power of music has fueled Sheila's heart and soul—and how it can transform your life as well.
