Model Tax Convention on Income and on Capital 2014 (Full Version) International Monetary Fund
The United Nations Model Double Taxation Convention between Developed and Developing Countries: 2017 Update is a

publication geared towards the international community especially developing countries and countries with economies in transition. This new revision of the UN Model updates the widely used 2011 version of the Model. It is important for countries that seek assistance in the negotiation and implementation of modern bilateral double tax treaties reflecting their current circumstances and policy priorities. The Model recognizes that to

avoid double taxation of investment, country where the investment takes place and country of the investor often share taxing rights. The Model helps to do it in a way that preserves an appropriate share of taxing rights to developing countries. The Model also promotes cooperation to deal with tax avoidance and evasion. Model Tax Convention on Income and on Capital Linde Verlag GmbH
This publication is the condensed version

of the OECD Model Tax Convention on Income and on Capital, produced in a loose-leaf format to accommodate yearly updates. This fifth edition contains the full text of the Model Tax Convention as it read on 28 January 2003, but without the historical notes.

A Study of Article 2 of the OECD Model Tax Conventions IBFD

This is the tenth edition of the condensed version of the "OECD Model Tax Convention on Income and on Capital". It contains the full text of the "Model Tax Convention on Income and Capital" as it read on 21 November 2017, but without the historical notes and the background reports included...

Model Tax Convention OECD Publishing
This publication is the ninth edition of the full version of the OECD Model Tax Convention on Income and on Capital. This full version contains the full text of the Model Tax Convention on Income and on Capital as it read on 15 July 2014.

Model Tax Convention on Income and on Capital: Non-member countries' positions, previous reports, appendices OECD Publishing
This publication examines the

circumstances under which income is to be attributed to a permanent establishment for purposes of an income tax treaty, particularly where goods, services, or intangibles are transferred between the permanent establishment and the home office or another permanent establishment in a third country.

"Taxes Covered" OECD Publishing
The OECD Model Tax Convention provides the basis for the negotiation and interpretation of more than 3000 tax treaties that make up a network that coordinate the income and corporate tax systems of most countries with the objective of removing tax barriers to cross-border trade and investment.

United Nations Model Double Taxation Convention Between Developed and Developing Countries OECD Publishing
Judicial Interpretation of Tax Treaties is a detailed analytical guide to the interpretation of tax treaties at the national level. The book focuses on how domestic courts interpret and apply the OECD Commentary to OECD Model Tax Convention on Income and on Capital. Adopting a global perspective, the book gives a systematic presentation of the

main interpretive proposals put forward by the OECD Commentary, and analyses selected cases decided in domestic tax systems in order to assess whether and how such solutions are adopted through national judicial process, and indeed which of these are of most practical value. The book operates on two levels: firstly it sets out a clear and comprehensive framework of tax treaty law, which will be an important tool for any tax practitioner. Secondly, the book provides crucial guidance on issues of tax treaty law as applied at domestic level, such as investment or business income, dispute resolution and administrative cooperation. *Condensed Version* Linde Verlag GmbH
This full version of the OECD Model Tax Convention contains the full text of the Model Tax Convention on Income and on Capital as it read on 21 November 2017, including the articles, the commentaries, the non-OECD economies' positions, the recommendation of the OECD Council, the historical notes and the full text of a number of background reports adopted after 1977.

A Reconsideration Model Tax Convention on Income and on Capital:

Condensed Version 2017

This 2000 edition of the Model Tax Convention: Condensed Version has been superseded by more recent editions. This publication is the condensed version of the OECD Model Tax Convention on Income and on Capital, which is produced in a loose-leaf ...

Model Tax Convention on Income and on Capital OECD Publishing

The book describes the difficulties of the current international corporate income tax system. It starts by describing its origins and how changes, such as the development of multinational enterprises and digitalization have created fundamental problems, not foreseen at its inception. These include tax competition—as governments try to attract tax bases through low tax rates or incentives, and profit shifting, as companies avoid tax by reporting profits in jurisdictions with lower tax rates. The book then discusses solutions, including both evolutionary changes to the current system and fundamental reform options. It covers both reform efforts already under way, for example under the Inclusive Framework at the OECD, and potential

radical reform ideas developed by academics.

A Global Analysis of Tax Treaty Disputes Cambridge University Press

This 1963 report presents the articles on the avoidance of double taxation on income and capital, as agreed upon by the Fiscal Committee. Double taxation is the taxation of a single taxpayer with respect to the same subject matter over the same period in more than one country. This draft aims to inspire further conventions on the elimination of double taxation, a threat to trade and migration. The report includes commentaries on the articles, progress on the elimination of double taxation, and possible future developments.

Model Tax Convention on Income and on Capital 2014 (Full Version)

Organization for Economic

This two-volume set offers an in-depth analysis of the leading tax treaty disputes in the G20 and beyond within the first century of international tax law. Including country-by-country and thematic analyses, the study is structured around a novel global taxonomy of tax treaty disputes and includes an unprecedented dataset with over 1500 leading tax treaty cases. By

adopting a contextual approach the local expertise of the contributors allows for a thorough and transparent analysis. This set is an important reference tool for anyone implementing or studying international tax regulations and will facilitate the work of courts, tax administrations and practitioners around the world. It is designed to complement model conventions such as the OECD Model Tax Convention on Income and on Capital. Together with Resolving Transfer Pricing Disputes (2012), it is a comprehensive addition to current debate on the international tax law regime.

Model Tax Convention on Income and on Capital: Condensed Version 2000

OECD Publishing

This 1977 report contains the recommendations of the Committee on Fiscal Affairs for the avoidance of double taxation on income and capital. These recommendations result from consultation with member countries, following the 1963 Draft Convention. Double taxation is the taxation of a single ...

The Law of Double Taxation Conventions Cross-border activities or transactions may trigger tax liability in two or more jurisdictions. In order to mitigate the financial burden resulting from these situations, States have entered into numerous double taxation conventions, which provide for rules that allocate the

taxing rights between the contracting states. This handbook aims at providing an introduction to the law of double taxation conventions. It is designed for students – irrespective of their national background, but the author believes that it will also be of great help for tax experts who wish to know more about double taxation conventions, as well as for international law experts who wish to understand more about tax law. The handbook does not consider one jurisdiction in particular but rather takes examples from a wide range of different countries and their jurisdictions. It includes an overview of the problem of double taxation, the state practice in the conclusion of double tax conventions and their effects, the interpretation of double taxation conventions and treaty abuse. Furthermore, this updated handbook takes new developments into account occurred since the last edition of the book from 2013, in particular also the changes through OECD's BEPS project and the Multilateral Instrument. It deals with the latest versions of the OECD Model Tax Conventions on Income and on Capital and the UN Model Double Taxation Convention

between Developed and Developing Countries, both published in 2017, as well as the latest version of the OECD Model

Double Taxation Convention on Estates and Inheritances and on Gifts.
