The Capitalist Manifesto Yale University Press

In 1956, a U.S. lawyer-economist, Louis O. Kelso, created the employee stock ownership plan (ESOP) to enable the employees of a closely held newspaper chain to buy out its retiring owners. Two

years later, Kelso and his co-author, the philosopher Mortimer J. Adler, explained the macro-economic theory on which the ESOP is based in this best-selling book, *The Capitalist Manifesto*. “When you read this book, you must be prepared for a shock—particularly if you are among the millions of Americans who feel complacent about the material well-being that now prevails in this country. *THE CAPITALIST MANIFESTO* will compel you to examine, reconsider and question many dangerous

economic factors and political tendencies you have accepted as inevitable—and will show you how you can do something about them. “*THE CAPITALIST MANIFESTO* sets the alarm for all American citizens—not simply one group or class. It is for stockholders, workers, labor leaders, corporation executives, investment bankers, taxpayers, small businessmen and industrialists, statesmen, legislators, judges and educators. Its purpose is to arouse us to the real and present dangers

we now face, from inflation and from the progressive socialization of our economy. What is the difference between a well-heeled existence in a welfare state and the good life in a free society? THE CAPITALIST MANIFESTO will tell you what that difference is, and why you must be a man of property in order to be a free man. It will explain the meaning of your ever-expanding opportunities for leisure. It will tell you that the goal of an industrial society should not be full employment in the production of wealth, but full enjoyment of the wealth produced. It will tell you how you, as an individual, can best use wealth to further the happiness and well-being of yourself and your fellow men." "A revolutionary force in human affairs offering still unplumbed promise for the future...."—Time Magazine

Is there an alternative to the neoliberal globalization that is ravaging our planet? These classic works by Ernesto Che Guevara present a revolutionary view of a different world in which human solidarity and understanding replace imperialist aggression and exploitation. Included in

this book are: Socialism and Man in Cuba Message to the Tricontinental: "Create two, three, many Vietnams" Speech in Algiers at the Afro-Asian solidarity conference Ernesto Che Guevara was born in Argentina and traveled through Latin America before joining the Cuban revolutionary movement that toppled the Batista dictatorship in 1959. Although best known as a guerrilla fighter, this book shows Che as a profound thinker with a radical world view that still strikes a chord with young rebels in every country today. The Oxford Handbook of Social Psychology and Social Justice Verso Books

"If you are curious and open to the life around you, if you are troubled as to why, how and by whom political power is held and used, if you sense there must be good intellectual reasons for your unease, if your curiosity and openness drive you toward wishing to act with others, to 'do something,' you already have much in common with the writers of the three essays in this book." — Adrienne Rich With a preface by Adrienne Rich, Manifesto presents the radical vision of four famous young rebels: Marx and Engels' Communist Manifesto, Rosa Luxemburg's

Reform or Revolution and Che Guevara's Socialism and Humanity.

"The twentieth century witnessed not only the devastation of war, conflict, and injustice on a massive scale, but also the emergence of social psychology as a discipline committed to addressing these and other social problems. In the twenty-first century, the promise of social psychology remains incomplete. We witness the reprise of authoritarianism and the endurance of institutionalized forms of oppression such as sexism, racism, and heterosexism across the globe. This volume represents an audacious proposal to reorient social psychology toward the study of social injustice in real-world settings. Contributors cross borders

between cultures and disciplines to highlight new and emerging critical paradigms that interrogate the consequences of social injustice. United in their belief in the possibility of liberation from oppression, the authors of this book offer a blueprint for a new kind of social psychology." --

An updated edition of the Sunday Times Bestseller Britain's best-known classicist Mary Beard, is also a committed and vocal feminist. With wry wit, she revisits the gender agenda and shows how history has treated powerful women. Her examples range from the classical world to the modern day, from Medusa and Athena to Theresa May and Hillary Clinton. Beard explores the cultural underpinnings of misogyny, considering the public voice of women, our cultural assumptions about women's relationship with power, and how powerful women resist being packaged into a male template. A year on since the advent of #metoo, Beard looks at how the discussions have moved on during this time, and how that intersects with issues of rape and consent, and the stories men

tell themselves to support their actions. In trademark Beardian style, using examples ancient and modern, Beard argues, 'it's time for change - and now!' From the author of international bestseller *SPQR: A History of Ancient Rome*.

Classic radical feminist statement from the woman who shot Andy Warhol "Life in this society being, at best, an utter bore and no aspect of society being at all relevant to women, there remains to civic-minded, responsible, thrill-seeking females only to overthrow the government, eliminate the money system, institute complete automation and destroy the male sex." Outrageous and violent, *SCUM Manifesto* was widely lambasted when it first appeared in 1968. Valerie Solanas, the woman who shot Andy Warhol, self-published the book just before she became a notorious household name and was confined to a mental institution. But

for all its vitriol, it is impossible to dismiss as the mere rantings of a lesbian lunatic. In fact, the work has proved prescient, not only as a radical feminist analysis light years ahead of its time—predicting artificial insemination, ATMs, a feminist uprising against underrepresentation in the arts—but also as a stunning testament to the rage of an abused and destitute woman. In this edition, philosopher Avital Ronell's introduction reconsiders the evocative exuberance of this infamous text.

Three speeches on corporate globalism and imperialism by one of the most widely known guerilla fighters, political theorists, and organizers, Che Guevara. In this collection of three speeches, Ernesto Che Guevara offers a revolutionary view of a world in which human solidarity and understanding replace imperialist aggression and exploitation. First, in a

sharp speech given in Algeria on February 24, 1965 at the Afro-Asia Economic Seminar, Che speaks about the nature of capitalism and the revolutionary struggle that would open the way for a new, socialist society. Guevara's 1965 essay, "Socialism and Man in Cuba," is a milestone in twentieth-century emancipatory social thought. Finally, "Message to the Tricontinental" is one of Che's more well-known works, which outlines the tactics and strategies that should be followed in revolutionary struggle. This collection of writings merges Che's philosophy, politics, and economics in his all encompassing, coherent revolutionary vision. His ideas and his struggle strike a chord in the current search for global justice.

Manifesto Oxford University Press
 Democracy in America(Complete) And
 Manifesto of the Communist Party De La
 Démocratie en Amérique is a classic
 French text by Alexis de Tocqueville. Its
 title translates as On Democracy in
 America, but English translations are
 usually simply entitled Democracy in
 America. In the book, Tocqueville
 examines the democratic revolution that
 he believed had been occurring over the
 previous seven hundred years. In 1831,
 Alexis de Tocqueville and Gustave de
 Beaumont were sent by the French
 government to study the American prison
 system. In his later letters Tocqueville
 indicates that he and Beaumont used their
 official business as a pretext to study
 American society instead. They arrived in
 New York City in May of that year and
 spent nine months traveling the United
 States, studying the prisons, and collecting
 information on American society, including
 its religious, political, and economic
 character. The two also briefly visited
 Canada, spending a few days in the
 summer of 1831 in what was then Lower
 Canada (modern-day Quebec) and Upper
 Canada (modern-day Ontario). After they

returned to France in February 1832,
 Tocqueville and Beaumont submitted their
 report, *Du système pénitentiaire aux
 États-Unis et de son application en France*,
 in 1833. When the first edition was
 published, Beaumont, sympathetic to
 social justice, was working on another
 book, *Marie, ou, L'esclavage aux Etats-
 Unis* (two volumes, 1835), a social critique
 and novel describing the separation of
 races in a moral society and the conditions
 of slaves in the United States. Before
 finishing *Democracy in America*,
 Tocqueville believed that Beaumont's
 study of the United States would prove
 more comprehensive and penetrating. The
Communist Manifesto (originally *Manifesto
 of the Communist Party*) Is an 1848
 political pamphlet by German philosophers
 Karl Marx and Friedrich Engels.
 Commissioned by the Communist League
 and originally published in London (in
 German as *Manifest der Kommunistischen
 Partei*) just as the revolutions of 1848
 began to erupt, the *Manifesto* was later
 recognised as one of the world's most
 influential political manuscripts. It
 presents an analytical approach to the
 class struggle (historical and then-present)

and the problems of capitalism and the
 capitalist mode of production, rather than
 a prediction of communism's potential
 future forms. The *Communist Manifesto*
 summarises Marx and Engels' theories
 about the nature of society and politics,
 that in their own words, "The history of all
 hitherto existing society is the history of
 class struggles". It also briefly features
 their ideas for how the capitalist society of
 the time would eventually be replaced by
 socialism.

International Relations, as a discipline,
 tends to focus upon European and
 Western canons of modern social and
 political thought. Alternatively, this book
 explores the global imperial and colonial
 context within which knowledge of
 modernity has been developed. The

chapters sketch out the historical depth and contemporary significance of non-Western thought on modernity, as well as the rich diversity of its individuals, groups, movements and traditions. The contributors theoretically and substantively engage with non-Western thought in ways that refuse to render it exotic to, superfluous to or derivative of the orthodox Western canon of social and political thought. Taken as a whole, the book provides deep insights into the contested nature of a global modernity shaped so fundamentally by Western colonialism and imperialism. Now, as ever, these insights are desperately needed for a discipline that is so closely implicated in Western foreign policy making and yet retains such a myopic horizon of inquiry. This work provides a significant contribution to the field and will be of great interest to all scholars of politics, political theory and international relations theory.

What do we know about ordinary people in our towns and cities, about what really matters to them and how they organize their lives today? This book visits an ordinary street and looks into thirty households. It reveals the aspirations and frustrations, the tragedies and accomplishments that are played out behind the doors. It focuses on the things that matter to these people, which quite often turn out to be material things - their house, the dog, their music, the Christmas decorations. These are the means by which they express who they have become, and relationships to objects turn

out to be central to their relationships with other people - children, lovers, brothers and friends. If this is a typical street in a modern city like London, then what kind of society is this? It's not a community, nor a neighbourhood, nor is it a collection of isolated individuals. It isn't dominated by the family. We assume that social life is corrupted by materialism, made superficial and individualistic by a surfeit of consumer goods, but this is misleading. If the street isn't any of these things, then what is it? This brilliant and revealing portrayal of a street in modern London, written by one of the most prominent anthropologists, shows how much is to be gained when we stop lamenting what we think we used to be and focus instead on what we are now becoming. It reveals the forms by which ordinary people make sense of their lives, and the ways in which objects become our companions in the daily struggle to make life meaningful.

Although it was published in 1848, The Communist Manifesto is as controversial and provocative as ever. Its stirring and

poetic language helped spread Marx and Engels' socialist message far and wide, unleashing a century of political revolution. In an age of great inequality, the Manifesto's message of an exploited and suffering working class that must rise up and claim the means of production and wealth continues to resonate. This deluxe edition features an insightful introduction from Tom Butler-Bowdon which explains how the text came to be written, and why it remains popular.
