American Government
McGraw-Hill/Glencoe
Declaration of
Statesmanship is a one-
of-a-kind American
Government high school
course. It unites history,

philosophy, and civics in a dynamic blend of narrative and argument. The authors of the course continually endeavor to match the thoughtfulness and elegance of the multiplicity of original sources and fundamental texts found in this course which were pivotal in the founding of the nation. The course has three primary parts. In the first, the text explores the ideals and principles of this nation as expressed in The Declaration of Independence. It examines the philosophy and religious teaching that influenced the founders in their decision to write the Declaration and leave Great Britain. Then the text considers the Declaration in detail and shows how The Articles of Confederation and The Constitution establish a government which fulfills the Declaration's ideals. The second part of the course investigates how some of our greatest statesman were guided by these same ideals when dealing with the difficult questions of slavery and civil rights. From even before the founding there was a conflict between the ideas of liberty and the existence of slavery. This part of the course reviews

how the founding generation addressed the problem of slavery present in the new nation and how future statement have used those same ideals in their struggles. America needs great statesmen, but it has an even greater need, a need of people capable of living as free men. In the third part, the course uses Alexis de Tocqueville's Democracy in America to analyze the peculiarities of America which allowed this experiment in democracy to be so successful, and what is needed to maintain the freedom and self-rule which we have inherited. Declaration of Statesmanship has been designed as a one semester course in American Government for high school students. The program is made up of 4 different components which give students everything they need. The components are a Coursebook, a Reading Book, a Teacher's Manual, and a Video Lecture Series. Coursebook: The Coursebook contains the course text, as well as chapter questions, quizzes and course tests. Reading Book: The Reading Book contains the bulk of the original writings and documents

which accompany the course. Teacher's Manual: The Teacher's Manual contains lesson plans and instructions for the course as well as answers for the questions, quizzes and tests for the coursebook. Video Lectures: The 14 part Video Lecture Series of 30 minute lectures accompanies the coursebook chapters. These classroom style lectures dig into the original texts and documents from the course providing additional insights and expounding upon important points and themes. This course is the perfect tool to inform future generations of their rights, duties and responsibilities as American citizens living in the civic state that is the American Government. **The American Journey** Perfection Learning The Extraordinary Manifesto of Independent Living -Newly Abridged and Introduced in this Powerful Condensation Self-Reliance is a life-changing experience-its message of nonconformity, self-expression, and personal independence can awaken you to a new, and better, way of living. Now, historian and New Thought scholar Mitch

Horowitz has deftly and faithfully retained the most powerful ideas of Ralph Waldo Emerson's original classic, and reintroduced this work in this one-of-a-kind condensation. Listenable within the space of an average commute or lunch hour, the experience of Self-Reliance may represent a true turning point in your life.

Prentice Hall The text begins with the Declaration of Independence and the founding of the United States, explaining how the Declaration contains all the underlying principles and truths that our country was founded on, and continues on through the writing of the Constitution and the forming of the government, and how the founding fathers incorporated all the fundamental principles within the Constitution. The program next discusses the challenges our country faced in the past and how they were eventually solved, and

how those same problems apply to America today. Passage to Freedom Entry Publishing, Incorporated Serving within the supposed pinnacles of power as a respected and influential U.S. Senator from South Carolina, Jim DeMint often felt frustrated and powerless to fight against the frightening growth of the federal bureaucracy and refute the mistaken idea that ever-bigger government is the solution to the nation's problems. In his new role as president and CEO of The Heritage Foundation, Jim DeMint has taken on the daunting responsibility of helping to lead Americans themselves to change their country's course, of redirecting us back to our founding principles and restoring and protecting our economy and culture for future generations. He realized that he - and all of us as fellow citizens - must fall in love with America - again. In this book, DeMint illustrates why Americans must rediscover the power, ingenuity and creativity of our little platoons. He then introduces Americans all across the country whose patriotism was nurtured in exactly the same way, recounting

example after example of how they're working together locally in what he calls the "little platoons" - the families, churches, communities and voluntary organizations succeeding on the model that smaller is better. They are the hands-on citizens who make America the exceptional, caring and can-do country it has always been. DeMint illustrates why each of us - regardless of political party, age, race, religion or ethnicity - must rediscover the power we represent. The country's future is at risk, not just because of constant pressure from "the Bigs" (big government, big banks, big labor, big Wall Street cronies etc.), but because so many of us fear it's too late to solve problems so huge and seemingly intractable. Jim DeMint is here to reassure us that this is not true. In riveting yet plainspoken style, he tells real-life success stories and educates us via logical, historical and fact-based explanations of the issues (education, taxation, regulation, poverty, labor, health-care, environmentalism, Federalism and more). He affirms the compelling truth that conservative

ideas are really American ideas, and they must guide us as we turn our institutions upside-down, taking them from the top-down centrally-controlled bureaucracies they've become back to the bottom-up democratic framework the Constitution intended. Through this heartfelt, fascinating and inspiring look inside the America of both yesterday and today, and the everyday citizens who are working tirelessly and selflessly to insure its future fulfills the promise of its beginnings, Jim DeMint is beckoning us to join him on one of the most meaningful and momentous journeys we have ever undertaken together: *FALLING IN LOVE WITH AMERICA AGAIN*. *American Government* Glencoe/McGraw-Hill School Publishing Company Learning from Each Other includes 20 original chapters written by well-known experts in the field of teaching and learning. George Takei has captured hearts and minds worldwide with his magnetic performances, sharp wit, and outspoken commitment to equal rights. forced from their home into an uncertain future. In 1942, at the order of President Franklin D. Roosevelt, every person of Japanese descent on the west coast was rounded up and shipped to one of ten "relocation centers," hundreds or thousands of miles from home, where they would be held for years under armed guard. THEY CALLED US ENEMY is Takei's firsthand account of those years behind barbed wire, the terrors and small joys of childhood in the shadow of legalized racism, his mother's hard choices, his father's tested faith in democracy, and the way those experiences planted the seeds for his astonishing future. Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c.

1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

America at Risk gathers original essays by a distinguished and bipartisan group of writers and intellectuals to address a question that matters to Americans of every political persuasion: what are some of the greatest dangers facing America today? The answers, which range from dwindling political participation to rising poverty, and religion to empire, add up to a valuable and timely portrait of a particular moment in the history of American ideas. While the opinions are many, there is a central theme in the book: the corrosion of the liberal constitutional order that has long guided the country at home and abroad. The authors write about the demonstrably important dangers the United States faces while also breaking the usual academic boundaries: there are chapters on the family, religious polarization, immigration, and the economy, as well as on governmental and

partisan issues. *America at Risk* is required reading for all Americans alarmed about the future of their country. Contributors Traci Burch James W. Ceaser Robert Faulkner Niall Ferguson William A. Wilson Alan Wolfe Robert Faulkner is Professor of Political Science at Boston College. Susan Shell is Professor of Political Science at Boston College. "America at Risk goes well beyond the usual diagnoses of issues debated in public life like immigration, war, and debt, to consider the Republic's founding principles, and the ways in which they have been displaced by newer thoughts and habits in contemporary America. A critical book for understanding our present condition." —Francis Fukuyama, Bernard L. Schwartz Professor of International Political Economy, Johns Hopkins School of Advanced International Studies "In this penetrating book, the nation's finest social and political thinkers from across the spectrum take a careful and no-holds-

barred look at the dangers facing the American political system. The conclusions are more unsettling than reassuring---but that is because they are honest and real." —Norm Ornstein, Resident Scholar, American Enterprise Institute "In the midst of overwrought pundits, irate soccer moms, and outraged bloggers, it is difficult to distinguish genuine dangers from false alarms and special pleading. This book enables us to do so, in a way that helps us to actually think about, not just feel anxious about, threats to those features of American society that are worth cherishing. The authors range in ideology and expertise, but they are uniformly judicious, incisive, and informative. This is a fascinating book about issues that the political system usually ignores or exaggerates." —Jennifer L. American Government: Stories of a Nation Simon and Schuster

"The main strength of this book is that it presents a 'human' side to American Government that challenges students to think critically while still presenting the 'teaching' side with objectives, self-tests, and chapter

reviews." —Kathleen Barrett, University of West Georgia In the Second Edition of American Government, Essentials Edition, author Scott F. Abernathy tunes in to the voices of all Americans, showing how our diverse ideas shape the way we participate and behave, the laws we live by, and the challenges we face. From the Constitutional Convention to Ferguson, Missouri, each chapter features rich, personal narratives that illustrate how the American political system is the product of strategies, calculations, and miscalculations of countless individuals. It focuses on real people, the actions they take, the struggles they face, and how their choices influence outcomes. The key concepts are memorable because they are tied to real politics, where students see political action and political choices shaping how institutions advance or impede the fulfillment of fundamental ideas. Participation is at the heart of this groundbreaking new text, with ample background on how and why to participate. Not only will all students see themselves reflected in the pages, but they will

come to understand that they, too, are strategic players in American politics, with voices that matter.
