Children's Books in Print Cambridge University Press
Pathfinder is a special edition of the GCSE course for SMP Interact. It is an enhanced version of the complete operational course used in pilot schools. Pathfinder is split into three tiers: Foundation, Intermediate and Higher and can be used with any GCSE syllabus. There are two pupils' books in each tier for each of the two years of GCSEs (years 10 and 11). Each pupils' book has an associated Teacher's Guide and Practice Book. The materials do not depend on use of SMP Interact at key stage 3.

SMP GCSE Interact 2-tier Higher 2 Practice Book Cambridge University Press

SMP Interact for GCSE Mathematics has been written specifically for the new linear and modular GCSE specifications. It has been extensively trialled and successfully used in schools, proving to be highly motivating for students. SMP Interact for GCSE Mathematics is a self-contained course which can be used by schools whether or not they have used SMP Interact at Key Stage 3. It is available at Foundation, Intermediate and Higher tiers. Coverage of a whole tier in one book provides a flexible course to fit with schemes of work and gives the opportunity for revision of previous topics. The resource sheets are photocopiable masters that help speed up practical and drawing-based tasks, provide additional questions, games and activity material for students to conduct their own investigations and include optional sheets where support is needed.

SMP Interact for GCSE. Cambridge University Press

Excellent preparation for the linear and modular mathematics GCSE specifications offered by AQA, Edexcel and OCR. Higher transition is for students who have followed any 'core' course in key stage 3 and need to cover or revise basic topics before they start Higher 1 (the first of the two main Higher tier books). To help teachers identify material that can be omitted by some students - or just dipped into for revision or to check competence - chapter sections estimated to be at national curriculum level 6 (or in a few

cases level 5) are labelled as such.

SMP GCSE Interact 2-tier Higher Transition Practice Book

Cambridge University Press

Extensively trialled and praised for building students' confidence, SMP Interact for GCSE is a versatile course for the GCSE three tier mathematics.

SMP Interact for GCSE is a versatile course for the GCSE three tier mathematics.

Resource sheets for book 12 part A and H2 part A. Cambridge University Press

This series is an excellent preparation for the linear and modular mathematics GCSE specifications offered by AQA, Edexcel and OCR. Each chapter is clear and thorough with objectives listed at the outset; ideas are developed carefully and highlighted by key worked examples and discussion points. Plentiful built-in practice includes past exam questions and there is extra challenge for those who need it. Each chapter ends with a 'test yourself' and periodic review sections keep past work alive. A comprehensive contents description and index make navigation easy. Answers are included.

Based on extensive feedback from teachers, these popular A Level titles have been written by the experienced team that produced SMP Interact for GCSE. These are clear, user-friendly texts that both teacher and student will enjoy using. Each chapter's objectives are clearly set out and new concepts are carefully developed in a way that involves the student. Worked examples are designed to clarify ideas and techniques, and there is plenty of well-graded practice and revision, including past exam questions that show the standard required. Key points are highlighted as they arise and are gathered in a summary at the end of the chapter, where there is also a self-assessment section. Each book contains a detailed contents analysis and the chapters are structured so that you can easily tell what part of the

specification you are covering. Opportunities for classroom discussion are marked, and starred questions provide extra challenge where needed.

The materials do not depend on use of SMP Interact at Key Stage 3.

A Pathfinder Edition Cambridge University Press

This series is an excellent preparation for the linear and modular mathematics GCSE specifications offered by AQA, Edexcel and

OCR. Foundation 2 is the second of two main books for the the Foundation tier. Designed for students who are well capable of a grade D or can aspire to a grade C on this tier, it continues the confidence-building style of the preceding books, approaching the hardest topics in the tier in a straightforward way that takes account of students' known learning difficulties and matches the level of demand of the exam papers.
