Peachpit Press
From the #1 New York
Times bestselling author
of Anathem, Reamde, and
Cryptonomicon comes an
exciting and thought-
provoking science fiction
epic—a grand story of
annihilation and survival

spanning five thousand
years. What would
happen if the world were
ending? A catastrophic
event renders the earth a
ticking time bomb. In a
feverish race against the
inevitable, nations around
the globe band together
to devise an ambitious
plan to ensure the
survival of humanity far
beyond our atmosphere,
in outer space. But the
complexities and

unpredictability of human nature coupled with unforeseen challenges and dangers threaten the intrepid pioneers, until only a handful of survivors remain . . . Five thousand years later, their progeny—seven distinct races now three billion strong—embark on yet another audacious journey into the unknown . . . to an alien world utterly transformed by cataclysm and time: Earth. A writer of dazzling genius and imaginative vision, Neal Stephenson combines science,

philosophy, technology, psychology, and literature in a magnificent work of speculative fiction that offers a portrait of a future that is both extraordinary and eerily recognizable. As he did in *Anathem*, *Cryptonomicon*, *the Baroque Cycle*, and *Reamde*, Stephenson explores some of our biggest ideas and perplexing challenges in a breathtaking saga that is daring, engrossing, and altogether brilliant. A grumpy contractor

upends the wedding planner's life... With hopes of gaining a promotion, Brooke Campbell is all smiles as she temporarily takes charge of the Perky Pink Wedding Company. She's not only overseeing plans for her boss's wedding, but also supervising the renovations of the Seabreeze Wedding Chapel. On her way to her first meeting with the contractor, she stops at her favorite coffee shop. A strikingly handsome firefighter and part-time contractor, Logan

Montgomery, reaches for the same cup of coffee as her. When his touch startles her, the coffee spills, and his forbidding frown is aimed at her. Maybe some would assume it would be a meet-cute, much like a sweet, creamy, whipped coffee, but for these two their first meet is more like a pot of day-old coffee that not even a heap of sugar packets and a dose of creamer can help. Just wait until they find out they are working together... Oh my! Seabreeze Wedding

New Orleans and sets off on a mission to find her most compatible match by going on a date with someone of each astrological sign in this rom-com from the Lambda Literary Award-nominated author of *Queerly Beloved*. Reeling from a breakup with her long-term partner, Gray—an optimistic lesbian Aries—relocates to New Orleans for a new job. Gray wants to meet someone, settle down, and build the loving, accepting family she's

After visiting an iconic astrologer, Gray and her best friend, Cherry, draw up a dramatic scheme: Gray will go on a date with someone of each zodiac sign to test their compatibility and get a jump start on creating the queer family of her dreams—all before her twenty-ninth birthday, when Saturn will usher in a major turning point in her life. Only a few weeks into her new job as a private investigator, Lexi Graves thinks she may have bitten off more than she can chew with her first solo cases. In between going undercover as a plush pony at a "Bronie" conference and following her cheating brother-in-law, she's got a saboteur-turned-killer to catch and a missing woman to find. Two of her cases may be connected, but how? There's no short list of

suspects to investigate, but the closer Lexi gets to the killer, the more her life is put in jeopardy. Trying to avoid being framed for a murder she didn't commit, Lexi knows her luck is running out. To make matters worse, her boyfriend, sexy detective, Adam Maddox, thinks she's out of the PI game faster than she got into it. Her boss, the mysterious Solomon, meanwhile, hopes to get her between the sheets by night, as well as solving cases by day, and Lexi's "just say no" resolve might not be

Science & Business Media This edited volume makes a valuable contribution to the burgeoning research field of English as a lingua franca. In a pioneering step, the collection is exclusively devoted to the English email discourse of Chinese speakers. The studies address innovative topics related to various contexts and relationships, using several different

approaches and theories, which taken together shed light on how English serves as a lingua franca in multiple types of global written communication.

The research topics presented are organized into four thematic sections, including emails from students to professors, emails from students to the international academic community, emails from peer to peer, and emails at the workplace. This collection of empirical research invites readers to consider the special

features of apologies, requests, terms of address, politeness, and discourse organization, and how cultural differences may affect the use or interpretation of each. Throughout the book, readers will also discover how Chinese speakers use special features and strategies to construct their identity, establish relationships, and achieve successful communication in English. This highly informative, thought-provoking book also provides insights on methods for teaching

email discourse using English as a lingua franca and suggests directions for future research. SCM Press
The definitive guide to working with -- and surviving -- bullies, creeps, jerks, tyrants, tormentors, despots, backstabbers, egomaniacs, and all the other assholes who do their best to destroy you at work. "What an asshole!" How many times have you said that about someone at work? You're not alone! In this groundbreaking book,

Stanford University professor Robert I. Sutton builds on his acclaimed Harvard Business Review article to show you the best ways to deal with assholes...and why they can be so destructive to your company. Practical, compassionate, and in places downright funny, this guide offers: Strategies on how to pinpoint and eliminate negative influences for good Illuminating case histories from major organizations A self-diagnostic test and a program to identify and

keep your own "inner jerk" from coming out. The No Asshole Rule is a New York Times, Wall Street Journal, USA Today and Business Week bestseller. *Email Discourse Among Chinese Using English as a Lingua Franca* Harlequin Renowned psychologist and bestselling author of *The Dance of Anger* sheds new light on the two most important words in the English language, "I'm sorry," and offers a unique perspective on the challenge of healing broken relationships and restoring trust. Dr. Harriet

Lerner has been studying apologies for more than two decades, namely, why some people won't give them. Now she offers compelling stories and solid theory that demonstrates the transformative power of making amends and what is required for healing when the damage we've inflicted (or received) is far from simple. Readers will learn how to craft a meaningful apology and avoid signals of insincerity that only deepen suffering. In *Why Won't You Apologize?* Lerner

challenges the popular notion that forgiveness is the only path to peace of mind and helps those who have been injured to resist pressure to forgive too easily. She explains what drives both the non-apologizer and the over-apologizer, and why the people who do the worst things are the least able to own their misdeeds. With her trademark humour and wit, Lerner offers a joyful and sanity-saving guide to setting things right.

This book selects leading, innovative and influential Chinese maritime judgments and presents full translation of them, with brief summary, to the readers so that they can have insights of how the Chinese maritime judges interpret, apply and develop Chinese maritime

law in practice. China trades with other states in trillions of USD every year, and about 95% of the cargoes are carried by ocean-going ships calling at hundreds of Chinese ports each single day. Due to the enormous and steadily growing trade volume and shipping activities, foreign ships, companies and persons are often caught by the Chinese maritime law and court. The parties involved and their lawyers are more than ever enthusiastic to study Chinese maritime cases in

order to deal with their own cases properly or, if possible, predict the potential problems and avoid the disputes outright. The book is appealing to and benefits worldwide law students, academics, practitioners and industrial people in the shipping, trade, insurance and financial fields. The book remedies to certain extent the situation that there is lack of authoritative sources available to foreign personnel to look into how Chinese justice system functions.
