"Dr. Phil," Canada's best-
known automotive expert,
invites another driver to
come aboard. After forty-
six years and almost two
million copies sold, Phil
Edmonston is joined by a
co-pilot for the Lemon-Aid

Guide — George Iny,
along with the editors of
the Automobile Protection
Association. The 2017
Lemon-Aid has
everything: an
encyclopedic lineup of the
best and worst cars,
trucks, and SUVs sold
since 2007; secret
warranties and tips on the
"art of complaining" to
help you get your money
back; and new-car buying

tips that will save you tons of money by revealing the inflated cost of fancy and frivolous add-ons. Lemon-Aid is an essential guide for careful buyers and long-time gear-heads who don't know as much as they think.

Bad Mojo Plunkett Research, Ltd.

Show students how to use pricing decisions to maximize a firm's profits by creating and capturing customers. PRICING STRATEGY: SETTING PRICE LEVELS, MANAGING PRICE DISCOUNTS AND ESTABLISHING PRICE STRUCTURES is written by

Tim J. Smith, recognized pricing thought leader and successful principal of a respected pricing firm. The most comprehensive pricing text on the market, **PRICING STRATEGY** highlights the stakeholder's importance in making decisions, as well as key trade-offs to consider when choosing between opposing outcomes. Students will gain a better understanding of the most important influences to consider when making pricing decisions. This text strikes an appropriate

balance between quantitative skill sets and the qualitative concepts necessary for business growth. Core concepts are presented in chapters with optional appendices that require more rigorous knowledge of introductory calculus. The book draws the best thinking from numerous disciplines, including marketing, economics, and finance, to deliver a comprehensive presentation that comes alive through numerous case studies, memorable examples, and graphs.

Assist students in developing the pricing strategies and skills needed for business success with Smith's **PRICING STRATEGY**. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Dynamics Gibbs Smith Franklin, Jack, Marla, Thadius, and Caitlin... this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job - no, really, we mean any

bloody job (money's a bit tight right now)! Trudge through disgusting sewers to battle manatee-massacring mermaids and soggy cultists, creep through creepy, fog-littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasties, creepies, and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad, Mad Scientist, a surly Necromancer, a Banshee's granddaughter,

and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over the tele-privilege-schedule long enough to get the job done! Not likely.

Dynamics can be a major frustration for those students who don't relate to the logic behind the material -- and this includes many of them! Engineering Mechanics: Dynamics meets their needs by combining rigor with user friendliness. The presentation in this text is very personalized, giving students the sense that they are having a one-on-one discussion with the authors. This minimizes the air of mystery that a more austere

presentation can engender, and aids immensely in the students' ability to retain and apply the material. The authors do not skimp on rigor but at the same time work tirelessly to make the material accessible and, as far as possible, fun to learn. *Cincinnati Magazine*

Lemon-Aid shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto

production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada's automotive "Dr. Phil" for over 40 years, Edmonston pulls no punches. His Lemon-Aid is more potent and provocative than ever. *Fuel Economy Guide*

BMW Z4: Design, Development and Production is the story of the creation of the Z4 from the first concept in the summer of 1998 until the delivery of customer cars in October 2002.

David Lightfoot had exclusive access to the designers, engineers, and production personnel involved in the Z4, and provides an exciting

behind-the-scenes look into the process. Never before has the story been told of how BMW brings together creative people and world renowned technical resources to deliver dream machines to its devoted clientele. David Lightfoot is a BMW enthusiast of the first order. He writes for Roundel, the publication of the BMW Car Club of America, on topics ranging from BMW history to future products and development. A particular interest is high performance driving; he

has been an instructor with his local BMW Club for more than 20 years. The irony of his driving style and his last name have been brought to his attention many times. He is a lifelong resident of Seattle, Washington. This is his first book.
