The story of how Brompton, the iconic folding bicycle that you can take anywhere—and that can take you

anywhere—grew from a small cult bike company to a multimillion-dollar business Lightweight, compact, distinctively styled, and now, electric: The Brompton isn't the only folding bicycle—or even the first. But everyone who has been on one will enthusiastically testify to its marvelous design (virtually unchanged over decades) and the particular joy of riding it. Will Butler-Adams, CEO of Brompton Bicycles, has been at the company for twenty years. Initially, he worked as an engineer for Andrew Ritchie, the bike's brilliant inventor and the business's founder, before taking the helm in 2008. Butler-Adams's heartfelt mission is to grow and promote sustainable urban transportation and to improve city-dwellers' lives everywhere. Under his

leadership, Brompton has grown from making a few hundred bikes a year to over 90,000, with revenue of \$130 million. But progress hasn't always been easy: There have been boardroom struggles, supply-chain problems, and conflicts with founder Andrew Ritchie. In *The Brompton*, Butler-Adams brings to life what it means to grow a company to global scale. He also tells the stories of the people who make the Brompton and the people who ride it. And he explains how customers all around the world fell in love with a brand that never set out to be a brand.

Two-Stroke Performance Tuning Everything you need to know to restore or customize your classic Japanese motorcycle. Whether you want to correctly restore a classic Japanese motorcycle or create a modified, custom build, you need the right information about how to perform the mechanical and cosmetic tasks required to get an old, frequently neglected, and often long-unridden machine back in working order.

How to Rebuild and Restore Classic Japanese Motorcycles is your thorough, hands-on manual, covering all the mechanical subsystems that make up a motorcycle. From finding a bike to planning your project to dealing with

each mechanical system, *How to Rebuild and Restore Classic Japanese Motorcycles* includes everything you need to know to get your classic back on the road. Japanese motorcycles have been the best-selling bikes in the world since the mid-1960s, driven by the "big four": Honda, Yamaha, Suzuki, and Kawasaki. Of course certain bikes have always had a following - Honda CB750, 305 Hawk, CB400-4, Benly; Suzuki GT750, Katana, GS1000S; Yamaha XS650, RD400 Daytona, TZ; Kawaski H1, H2, Z1R - and these have now become the blue-chip Japanese bikes leading collectors to seek out more common (and now more affordable) alternatives. This is the perfect book for anyone interested in classic Japanese motorcycles, as well as prepping a bike

to build a cafe racer, street tracker, or other custom build.
