This is a reprint of a 1983 edition of Statius' Thebaid. It includes a list of corrections which have come to light since then. The edition establishes a text based on a full account of all important suggestions published before 1980.

My Name Is Rusty Walter de Gruyter GmbH & Co KG

For years, Steve McVey's Grace Walk (more than 200,000 copies sold) has inspired Christians to leave behind a performance and fear-based faith to embrace a faith lived in abundance and grace. Now The Grace Walk Experience workbook helps readers move that message of hope from their heads to their hearts as they explore eight truths that have changed lives worldwide daily, interactive studies that reveal grace as much more than a doctrine ways to quit "doing" for God so that He can live through them illustrations of the wonder and miracle of faith as God intended God's Word, salvation, and evangelism with new perspective This excellent tool for church classes, small group discussion, and individual study will lead believers to understand their identity in Christ, let go of legalism, and make room for the overflowing love, mercy, and purpose of life lived wholly in God's grace.

The soft crash of waves that blissfully block out all other noise, the smell of two-stroke and lawn clippings, the first sip of cold beer, the laboured whir of the ceiling fan, the sound of a bag of ice hitting the pavement, that feeling of salt on skin and even the smell of prawns on bin night. Comedian Tim Ross uses the Australian Summer as a back drop for a new collection of nostalgic short stories.

Normally Indigo Tea Shop owner Theodosia Browning wouldn't attend a black-tie affair for all the tea in China. But she can hardly say no to her boyfriend, who directs public relations for the Gibbes Museum in Charleston. Max has organised an amazing gala opening for an exhibit of a genuine eighteenth-century Chinese teahouse, and the cr me de la cr me of Charleston society is invited. But the evening takes a turn for the worse when Theodosia discovers the body of museum donor Edgar Webster. When Max becomes a suspect, it's up to Theodosia to solve the case.

This book contains selected papers presented during the bi-annual World Renewable Energy Network's Med Green Forum aimed at the international community as well as Mediterranean countries. This forum highlights the importance of growing renewable energy applications in two

main sectors: Electricity Generation and the Sustainable Building Sector. In-depth chapters highlight the most current research and technological breakthroughs, covering a broad range of renewable energy technologies and applications in all sectors - for electricity production, heating and cooling, agricultural applications, water desalination, industrial applications and for the transport sectors.

Scorcher by Tim Ross Harvest House Publishers

The aim of this work is to map and analyse the extant Latin 'defixiones' whose production within the Roman Empire is attested from the 2nd cent. BCE to the end of the 4th/beginning of the 5th cent. CE. There are altogether five hundred Latin curse texts most of which are inscribed on lead tablets. These were intended to affect the actions or health of people/animals against their will and with the help of supernatural powers. As such, they provide the epigraphical evidence of magical practices which were widespread throughout the whole Mediterranean of antiquity. They are often aimed at rivals e.g. in circus or in love, opponents in lawsuits, or enemies, in general. Additionally, there is a special category of so-called 'prayers for justice' which are traditionally classified among 'defixiones' and share several characteristics with them. They are predominantly used against thieves, and are meant to harm or eliminate the culprit. At the same time, their aim is to achieve justice: returning the stolen property, a ?just? punishment, or revenge for the damage suffered (usually a theft, treachery, or fraud).

Das Gesetz - The Law - La Loi Springer Science & Business Media

Antiblack racism avows reason is white while emotion, and thus supposedly unreason, is black. Challenging academic adherence to this notion, Lewis R. Gordon offers a portrait of Martinican-turned-Algerian revolutionary psychiatrist and philosopher Frantz Fanon as an exemplar of "living thought" against forms of reason marked by colonialism and racism. Working from his own translations of the original French texts, Gordon critically engages everything in Fanon from dialectics, ethics, existentialism, and humanism to philosophical anthropology, phenomenology, and political theory as well as psychiatry and psychoanalysis. Gordon takes into account scholars from across the Global South to address controversies around Fanon's writings on gender and sexuality as well as political violence and the social underclass. In doing so, he confronts the replication of a colonial and racist geography of reason, allowing theorists from the Global South to emerge as interlocutors alongside northern ones in a move that exemplifies what, Gordon argues, Fanon represented in his plea to establish newer and healthier human relationships beyond colonial paradigms.

Gegenstand des Bandes ist die Transformation und Neuformierung des Gesetzesbegriffs als Folge des Zusammentreffens von antiken und lokalen Rechtstraditionen mit den die neuen Kulturen formenden Offenbarungsreligionen Judentum, Christentum, Islam, die das geschriebene Gotteswort gleichfalls als Gesetz begreifen. Damit wird ein interdisziplinärer und interkultureller Blick auf die Rechtsdiskurse jenes Zeitraumes gelenkt, den wir aus abendländischer Sicht als Mittelalter bezeichnen. Bei dieser Begegnung entstehen zum Teil sehr unterschiedlich gelagerte Problemkonstellationen, wie Begründung, Anspruch und Verhältnis des göttlichen, menschlichen und natürlichen Gesetzes zu bestimmen sind. Bleibt das Gesetzesverständnis hinsichtlich seiner juristischen Dimension vornehmlich auf den jeweiligen kulturellen und politischen Raum bezogen, so bilden der spekulative und der religiöse Gesetzesbegriff einen Referenzrahmen eigener Art, dessen unterschiedliche, Theologie, Philosophie, Rechtslehre und Geschichte umspannende Fragestellungen im Zentrum des Bandes stehen. Hier liegen die Wurzeln für unser modernes Rechtsverständnis wie auch die Gründe für die aktuell zum Vorschein tretenden Differenzen zwischen den Kulturkreisen und Religionen.

Pulsed-Power Systems describes the physical and technical foundations for the production and application of high-voltage pulses of very high-power and high-energy character. In the initial chapters, it addresses materials, components and the most common diagnostics. In the second part, three categories of applications with scientific and industrial relevance are detailed: production of strong pulsed electric and magnetic fields, intense radiation sources and pulsed electric (plasma) discharges.
