 The FIAF Moving Image Cataloguing Manual is the result of many years of labor and collaboration with numerous professionals in the moving image field. It addresses the changes in information technology that we've seen over the past two decades, and aligns with modern

cataloguing and metadata standards and concepts such as FRBR (Functional Requirements for Bibliographic Records), EN 15907, and RDA (Resource Description and Access). The manual is designed to be compatible with a variety of data structures, and provides charts, decision trees, examples, and other tools to help experts and non-experts alike in performing real-world cataloguing of moving image collections.

 Roger Ebert's *I Hated, Hated, Hated This Movie* and *Your Movie Sucks*, which gathered some of his most scathing reviews, were best-sellers. This new collection continues the tradition, reviewing not only movies that were at the bottom of the

barrel, but also movies that he found underneath the barrel. A Horrible Experience of Unbearable Length collects more than 200 of his reviews since 2006 in which he gave movies two stars or fewer. Known for his fair-minded and well-written film reviews, Roger is at his razor-sharp humorous best when skewering bad movies. Consider this opener for the one-star *Your Highness*: "Your Highness is a juvenile excrescence that feels like the work of 11-year-old boys in love with dungeons, dragons, warrior women, pot, boobs, and four-letter words. That this is the work of David Gordon Green beggars the imagination. One of its heroes wears the penis of a minotaur on a string around his neck. I hate it when that happens." And finally, the inspiration for the title of this book, the one-star *Transformers: Revenge of the Fallen*: *Transformers: Revenge of the Fallen* is a horrible experience of unbearable length, briefly punctuated by three or four amusing moments. One of these involves a doglike robot humping the leg of the heroine. If you want to save yourself the ticket price go, go into the

kitchen, cue up a male choir singing the music of hell, and get a kid to start banging pots and pans together. Then close your eyes and use your imagination." Movie buffs and humor lovers alike will relish this treasury of movies so bad that you may just want to see them for a good laugh! *10 Sure Signs a Movie Character is Doomed* Penguin

Roger Ebert wrote the first film review that director Martin Scorsese ever received - for 1967's *I Call First*, later renamed *Who's That Knocking at My Door* - creating a lasting bond that made him one of Scorsese's most appreciative and perceptive commentators. Questions for the Movie Answer Man

Andrews McMeel Publishing
Roger Ebert's *Movie Yearbook 2010* is the ultimate source for movies, movie reviews, and much more. For nearly 25 years, Roger Ebert's annual collection has been recognized as the preeminent source for full-length critical movie reviews, and his 2010 yearbook does not disappoint. The yearbook includes every review Ebert has written from January 2007 to July 2009. It also includes interviews, essays, tributes, and all-new questions and answers from his *Questions for the Movie Answer Man* columns. Fans get a bonus feature, too, with new entries to Ebert's *Little Movie Glossary*. This is the must-have go-to guide for movie fanatics.

"This is one of those special novels—a piece of working magic, warm, funny, and sane."—Thomas Pynchon
The whooping crane rustlers are girls. Young girls. Cowgirls, as a matter of fact, all "bursting with dimples and hormones"—and the

FBI has never seen anything quite like them. Yet their rebellion at the Rubber Rose Ranch is almost overshadowed by the arrival of the legendary Sissy Hankshaw, a white-trash goddess literally born to hitchhike, and the freest female of them all. Freedom, its prizes and its prices, is a major theme of Tom Robbins's classic tale of eccentric adventure. As his robust characters attempt to turn the tables on fate, the reader is drawn along on a tragicomic joyride across the badlands of sexuality, wild rivers of language, and the frontiers of the mind. *Fruits and Vegetables from A to Z* Northwestern University Press

Roger Ebert is the best-known film critic of our time. He has been reviewing films for the Chicago Sun-Times since 1967, and was the first film critic ever to win a Pulitzer Prize. He has appeared on television for four decades, including twenty-three years as cohost of Siskel & Ebert at the Movies. In 2006, complications from thyroid cancer treatment resulted in the loss of his ability to eat, drink, or speak. But with the loss of his voice, Ebert has only

become a more prolific and influential writer. And now, for the first time, he tells the full, dramatic story of his life and career. Roger Ebert's journalism carried him on a path far from his nearly idyllic childhood in Urbana, Illinois. It is a journey that began as a reporter for his local daily, and took him to Chicago, where he was unexpectedly given the job of film critic for the Sun-Times, launching a lifetime's adventures. In this candid, personal history, Ebert chronicles it all: his loves, losses, and obsessions; his struggle and recovery from alcoholism; his marriage; his politics; and his spiritual beliefs. He writes about his years at the Sun-Times, his colorful newspaper friends, and his life-changing collaboration with Gene Siskel. He remembers his friendships with Studs Terkel, Mike Royko, Oprah Winfrey, and Russ Meyer (for whom he wrote *Beyond the Valley of the Dolls* and an ill-fated *Sex Pistols* movie). He shares his insights into movie stars and directors like John Wayne, Werner Herzog, and Martin Scorsese. This is a story that only Roger Ebert could tell. Filled with the

same deep insight, dry wit, and sharp observations that his readers have long cherished, this is more than a memoir-it is a singular, warm-hearted, inspiring look at life itself. "I believe that if, at the end, according to our abilities, we have done something to make others a little happier, and something to make ourselves a little happier, that is about the best we can do. To make others less happy is a crime. To make ourselves unhappy is where all crime starts. We must try to contribute joy to the world. That is true no matter what our problems, our health, our circumstances. We must try. I didn't always know this, and am happy I lived long enough to find it out." -from *LIFE ITSELF Reading in the Dark* University of Chicago Press

Sometimes there's just nothing more absorbing than watching a movie that truly looks at life on the dark side, revealing those dark parts of human nature that we find so fascinating. In Roger Ebert's picks of 27 Movies from the Dark Side, he offers a varied selection from a look at the seamy side of life in L.A. in Chinatown to a

backwoods murder gone wrong in *Blood Simple*. Throw in two classics from Alfred Hitchcock, *Notorious* and *Strangers on a Train*, and two French tours de force, *Bob le Flambeur* and *Touchez Pas au Grisbi* and you've got the primer on film noir.

A leading pioneer in the field offers practical applications of this innovative science. Peters describes complex concepts in an easy-to-follow manner for the non-mathematician. He uses fractals, rescaled range analysis and nonlinear dynamical models to explain behavior and understand price movements. These are specific tools employed by chaos scientists to map and measure physical and now, economic phenomena.

This booklet of poetry, written by former Army Ranger Luke Ryan, explores the nature of violence, war, and the contrast between evil and courage found on the battlefield. War is an eternal thing, as basic to human nature as eating food, as physical as sex, and as spiritual as prayer, and these are the ideas communicated here in a way that anyone can resonate with, veteran or not.

After more than four decades and scores of books, documentaries, and films on the subject,

what more can be said about the assassination of President John F. Kennedy? A great deal, according to the author. This provocative, rigorously researched book presents evidence and compelling arguments that will make you rethink the entire sequence of terrible events on that traumatic day in Dallas. Drawing on his fifteen years of experience as an experimental physicist for the US Navy, the author demonstrates that the commonly accepted view of the assassination is fundamentally flawed from a scientific perspective. The physics behind lone-gunmen theories is not only wrong, says Chambers, but frankly impossible. This is the first book to: identify the second murder weapon, prove the locations of the assassins, and demonstrate multiple shooters with scientific certainty. It concludes with a persuasive chapter on why this horrible event, now almost half a century old, should still matter to us today. Originally published as a hardcover in 2010, this paperback edition contains a new preface and postscript in which the author addresses

some interesting developments since the book was first published as well as the fiftieth anniversary of the assassination. For anyone seeking a fresh understanding of the JFK assassination, this is an indispensable book. A Memoir Andrews McMeel Publishing Texe Marrs' best-selling books have sold over two million copies. Now he does it again with this shocking expose' of the men of the Secret Brotherhood. Imagine a secret society of grotesque rituals, with candidates lying naked in a coffin as hooded figures, carrying candles, chanting strange epithets and magical formulae... A secret society whose symbol is the death's head-the skull and bones... A secret society that includes in its ranks three U.S. Senators, the overseer of one of the world's greatest banking fortunes, and the president of the United States of America. The men of the Secret Brotherhood are super-rich and greedy, and they're deadly. Do these men control the CIA? Did they mastermind both the JFK assassination and the Persian Gulf crisis? Are they responsible for some

of America's most notorious financial scandals? The calculating men of the Secret Brotherhood have a hidden plan, but you won't like what it involves. So far, their plot has succeeded beyond their wildest dreams. Now they want more. To get their way what on earth will these powerful but corrupt men do next? Ben-Hur. A Tale of the Christ Andrews McMeel Publishing Roger Ebert awards at least two out of four stars to most of the more than 150 movies he reviews each year. But when the noted film critic does pan a movie, the result is a humorous, scathing critique far more entertaining than the movie itself. I Hated, Hated, Hated This Movie is a collection of more than 200 of Ebert's most biting and entertaining reviews of films receiving a mere star or less from the only film critic to win the Pulitzer Prize. Ebert has no patience for these atrocious movies and minces no words in skewering the offenders. Witness: Armageddon * (1998) --The movie is an assault on the eyes, the ears, the brain, common sense, and the human desire to be entertained.

No matter what they're charging to get in, it's worth more to get out. The Beverly Hillbillies* (1993)--Imagine the dumbest half-hour sitcom you've ever seen, spin it out to ninety-three minutes by making it even more thin and shallow, and you have this movie. It's appalling. North no stars (1994)--I hated this movie. Hated hated hated hated hated this movie. Hated it. Hated every simpering

stupid vacant audience-insulting moment of it. Hated the sensibility that thought anyone would like it. Hated the implied insult to the audience by its belief that anyone would be entertained by it. Police Academy no stars (1984)--It's so bad, maybe you should pool your money and draw straws and send one of the guys off to rent it so that in the future, whenever you think you're sitting through a bad comedy, he could shake his head,

chuckle tolerantly, and explain that you don't know what bad is. Dear God * (1996)--Dear God is the kind of movie where you walk out repeating the title, but not with a smile. The movies reviewed within I Hated, Hated, Hated This Movie are motion pictures you'll want to distance yourself from, but Roger Ebert's creative and comical musings on those films make for a book no movie fan should miss.
