### **Michel Saint-Denis and the Shaping of the Modern Actor** Praeger

This is an essential read for anyone setting out to study the thrilling world of theatre for the first time. Introducing you to all the aspects of drama, theatre and performance you will be studying in your course, from the theoretical to the practical, *Theatre Studies: The Basics* will take you through such topics as: dramatic genres, from tragedy to political documentary theories of performance the history of the theatre in the West acting, directing and scenography the audience. Drawing on a wide range of examples, from Sophocles' *Oedipus Tyrannus* to Gurpreet Kaur Bhatti's controversial

*Behzti*, and including chapter summaries and pointers to further reading, *Theatre Studies: The Basics* has all you need to get your studies off to a flying start.

*Drama & Theatre Studies* Edexcel

An engaging introduction to the plays and dramatic method of the most highly regarded comic writer of the classical period.

*The Experience of Form* Praeger

Born in the final years of the seventeenth century, and dying a decade before the beginning of the French Revolution, Voltaire was a quintessential figure of the eighteenth century. He was the most popular and influential dramatist of his time, creating successful works in all the most appealing genres of the period-- comedy, tragedy, opera, comic opera, and court spectacle. This book chronicles his life and dramatic achievements and thus

illuminates much of eighteenth century culture. His theatrical biography involves all aspects of acting and staging in amateur and society theatre as well as on major professional stages and performances at court. His extended visits to England and Germany are covered in chapters that also provide an introduction to the theatre of the period in those countries, and his international interests and correspondence provide insights into the eighteenth century theatre in places such as Italy, Russia, and Denmark. *The Cambridge Introduction to Theatre Studies* Macmillan International Higher Education

This volume gathers 16 papers originally written for the occasion of the 49th Colston Symposium, held in Bristol in 1997, and substantially revised for this publication. They reflect on some of the

key developments in the discipline of Theatre Studies over the past fifty years and combine this with a discussion of new trends and approaches, especially in the fields of Performance Studies, reception analysis, interculturalism, sociocultural analysis, theatre anthropology, dance and movement analysis, computer-assisted reconstruction of performance venues, street theatre, guerilla theatre, ritual theatre, etc.

Theatre Studies Routledge

A wonderfully helpful survey of the drama of Sam Shepard. It is bound to find many eager readers among those who are either intrigued or baffled--or both--by the plays of this still-young playwright whom many think contemporary America's finest. Choice America's most highly acclaimed contemporary playwright continues to puzzle critics, even as his reputation grows and his imagination seeks new creative channels. Finding the dramatist difficult to classify, critics and scholars continue to search for the central direction of Shepard's creative development. Lynda Hart's study, which focuses on ten representative plays, is the first book to examine Shepard's growth and development as a dramatist within and against the historical tradition. Offering a unified critical perspective, the author considers the plays from both a literary standpoint and as texts for performance. Resources include a bibliography that offers the most complete listing of relevant critical writings.

A Student's Guide to AS Drama and Theatre Studies for the Edexcel Specification Routledge

Draws on musicals, plays and experimental performances to show what theatre is made of and how we experience it.

*George Bernard Shaw and the Socialist Theatre* Cambridge University Press

This work takes a phenomenological approach to analyzing the dramatic form, focusing not on the interpretation of plays, but rather on Brownstein's perceptions and their sources. The distinct aspects of the dramatic art form are discussed using a wide variety of well-known plays, from ancient Greece to the present day. Brownstein offers a theoretical survey of the "perception shift" that infuses even the smallest element of a play, the forces that are expressed through major dramatic strategies, and the ways in which a single narrative sequence may serve both prospective and retrospective strategies.

**Acting Methodologies for Brecht, Ionesco, Pinter, and Shepard** Praeger  
Exploring texts - Reviewing productions -

Edward Gordon Craig - Stanislavski - Antonin Artaud - Bertolt Brecht - Jerzy Grotowski - Peter Brook.

**Voltaire and the Theatre of the Eighteenth Century** Hodder Education

This teacher's guide package provides support materials fully integrated with the specification, with planning and delivery support directly linked to e-Spec and Edexcel's digital version of their specification. It offers guidance on assessment and how to approach coursework and prepare for the exam.

*Gordon Craig's Moscow Hamlet* Psychology Press

Providing thorough coverage of the methods and tools required in studying historical and contemporary theatre, this Introduction examines the complexities of a rapidly changing and dynamic discipline. Following a cross-cultural perspective, the book surveys the ways theatre and performance are studied by looking initially at key elements such as performers, spectators and space. The central focus is on methodology, which is divided into sections covering theatre theory, historiography and textual and performance analysis. The book covers all the main theatrical genres - drama, opera and dance - providing students with a comparative, integrated perspective. Designed to guide students through the academic dimension of the discipline, the volume emphasizes questions of methodology, research techniques and approaches, and will therefore be relevant for a wide variety of theatre studies courses. Informative textboxes provide background on key topics, and suggestions for further reading are included at the end of each chapter.

*Contributions in drama and theatre studies* Oxford University Press, USA

This textbook has been written specifically to meet the needs of students following the AQA Drama & Theatre Studies Advanced specification, and provides thorough, structured and up-to-date coverage of the subject content. AQA Advanced Drama & Theatre Studies: - gives students an appreciation of the rapidly changing world of theatre - provides a scholarly and theoretical basis for the subject - analyses the political and social contexts of plays and playwrights - includes detailed examples from set texts - encourages a creative approach to the subject - includes sections on practical performance and stage design - investigates the role of the playwright, actor, theatre company and director - contains sample examination-style questions The author combines knowledge of current classroom practice with

extensive academic and examination experience in drama and theatre studies. This book is an invaluable companion to students and teachers of drama and theatre studies at AS and A2.

Computational Journeys into Theater Research Routledge

This work takes a phenomenological approach to analyzing the dramatic form, focusing not on the interpretation of plays, but rather on Brownstein's perceptions and their sources. The distinct aspects of the dramatic art form are discussed using a wide variety of well-known plays, from ancient Greece to the present day. Brownstein offers a theoretical survey of the "perception shift" that infuses even the smallest element of a play, the forces that are expressed through major dramatic strategies, and the ways in which a single narrative sequence may serve both prospective and retrospective strategies.

**Spotlight on the Child** Drama and Theatre Studies

The first comprehensive study of Michel Saint-Denis from a cultural and historical perspective.

A2 Drama and Theatre Studies: The Essential Introduction for Edexcel Hodder Murray

This text aims to provide an essential manual for AS/A Level students of drama and theatre studies. Designed to help students develop the skills and knowledge they need to successfully meet the assessment objectives of the AS/A Level syllabuses for 2000, the text is also suitable for students on performing arts courses and undergraduates studying drama and theatre studies. The text provides advice, information and exercises to help students study and make theatre, and the user-friendly text with illustrations, extensive glossary and highlighted key points aids the learning process. Theatre Directions (0-340-75861-9) can be used to extend the study of practitioners covered in this coursebook.

**The Theater of Meyerhold and Brecht** Routledge

Now in a second edition, Theatre Studies: The Basics is a fully updated guide to the wonderful world of theatre. The practical and theoretical dimensions of theatre - from acting to audience - are woven together throughout to provide an integrated introduction to the study of drama, theatre and performance. Topics covered include: dramatic genres, from tragedy to political documentary theories of performance the history of the theatre in the West acting, directing and scenography With a glossary, chapter

summaries and suggestions for further reading throughout, *Theatre Studies: the Basics* remains the ideal starting point for anyone new to the subject.

**Forms of Emotion** Praeger

This book is a collection of essays by leading authorities in the field on various aspects of the historical development of children's theatre in the United States. The discussions focus on the marked differences that have occurred from group to group and examine the ways in which children's theatre began to find definition, as theorists and writers such as Winifred Ward and Charlotte Chorpenning strove to articulate the differences between the child as participant in creative drama and the child as audience member. The introduction provides a review of early concepts and the evolution of present-day thought, and the essays illuminate facets of the rich and varied history of American theatre with and for children.

[AQA Drama and Theatre Studies AS](#)

Greenwood Publishing Group

...A comprehensive inventory of theatre performances announced in Parisian newspapers during the decade of the French Revolution; introduced by an intelligent revisionist overview of the historiography of French Revolutionary theatre.

*AQA Advanced* Greenwood Publishing Group

An historical and analytical survey of the development of documentary theatre in

the United States.

*Papers Presented at the Colston Symposium, Bristol, 21-23 March 1997*  
Routledge

Drama as a process-centred form is a popular and valued methodology used to develop thinking and learning in children, while theatre provides a greater focus on the element of performance. In recent years, offering drama and theatre as a shared experience is increasingly used to engage children and to facilitate learning in a drama classroom. Using drama and theatre as a central component with children, this book is an amalgamation of theory, research and practice from across the globe offering insights into differing educational contexts. Chapters provide an exploration of the methodologies and techniques used to improve drama in the curriculum, and highlight the beneficial impact drama has in a variety of classrooms, enriching learning and communication. Contributions from 17 authors, ranging from teachers in schools or universities, to researchers and drama practitioners, examine a variety of perspectives related to drama and children in an attempt to bridge gaps and move ahead collectively as educators, practitioners and researchers in drama and theatre. Divided into two parts, Part I reflects on the use of drama in its varied forms with children, while Part II focuses on projects and experiments with children using theatre in order to draw links between drama, theatre and pedagogy.

*Drama and Theatre with Children* will be key reading for researchers, academics and postgraduate students in the fields of drama education, theatre education, curriculum studies and child development. The book will also be of interest to drama practitioners, school teachers and teacher training leaders.

**Analysis and Repertory** Routledge

*Forms of Emotion* analyses how drama, theatre and contemporary performance present emotion and its human and nonhuman diversity. This book explores the emotions, emotional feelings, mood, and affect, which make up a spectrum of 'emotion', to illuminate theatrical knowledge and practice and reflect the distinctions and debates in philosophy, neuroscience, psychology, and other disciplines. This study asserts that specific forms of emotion are intentionally unified in drama, theatre, and performance to convey meaning, counteract separation and subversively champion emotional freedom. The book progressively shows that the dramatic and theatrical representation of the nonhuman reveals how human dominance is offset by emotional connection with birds, animals, and the natural environment. This book will be of great interest to students and researchers interested in the emotions and affect in dramatic literature, theatre studies, performance studies, psychology, and philosophy as well as artists working with emotionally expressive performance.
