Ambition will fuel him. Competition will drive him. But power has its price. It is the morning of the reaping that will kick off the tenth annual Hunger Games. In the Capitol, eighteen-year-old Coriolanus Snow is preparing for his one shot at glory as a mentor in the Games. The once-mighty house of Snow has fallen on hard times, its fate hanging on the slender chance that Coriolanus will be able to

outcharm, outwit, and outmaneuver his fellow students to mentor the winning tribute. The odds are against him. He's been given the humiliating assignment of mentoring the female tribute from District 12, the lowest of the low. Their fates are now completely intertwined - every choice Coriolanus makes could lead to favor or failure, triumph or ruin. Inside the arena, it will be a fight to the death. Outside the arena, Coriolanus starts to feel for his doomed tribute . . . and must weigh his need to follow the rules against his desire to survive no matter what it takes.

Shipped HarperCollins New York Times and USA Today Bestseller They call him the Duke of Ruin. To an undaunted wallflower, he's just the beast next door. Wealthy and ruthless, Gabriel Duke clawed his way from the lowliest slums to the pinnacle of high society—and now he wants to get even. Loyal and passionate, Lady Penelope Campion never met a lost or wounded creature she wouldn't take into her home and her heart. When her imposing—and attractive—new neighbor demands she clear out

the rescued animals, Penny sets him a challenge. She will part with her precious charges, if he can find them loving homes. Done, Gabriel says. How hard can it be to find homes for a few kittens? And a two-legged dog. And a foul-mouthed parrot. And a goat, an otter, a hedgehog . . . Easier said than done, for a cold-blooded bastard who wouldn't know a loving home from a workhouse. Soon he's covered in cat hair, knee-deep in adorable, and bewitched by a shyly pretty spinster who defies his every attempt to resist. Now she's set her mind and heart on saving him. Not if he ruins her first.

After Ever Happy Motilal Banarsidass

This book is intended and serve as an introduction to the reading of Pali texts. For that purpose, it uses authentic readings especially compiled for the purpose drawn largely from Theravada canonical works, both prose and poetry. The reading are in Roman script, and carefully graded for difficulty, but they have also been selected so that each of them is a meaningful and complete reading in itself, so as to introduce some basic concepts and ways of thought of Theravada Buddhism. This book thus offers and opportunity to become acquainted with the ways in which the teachings of the Buddha are embodied in the language, a sense that it impossible to determine from English translations. The book contains 12 lessons. Each of them has three parts: (1) a set of basic readings and an accompanying glossary, (2) grammatical notes on the forms in the less, and (3) a set of further readings with its own glossary. The further readings introduce no new grammatical points, but reinforce ones already presented and give further practice in them.

The work concludes, fittingly, with the Buddha's first sermon, The Dhammacakkapavattana Sutta. A cumulative glossary and index to the grammar is also provided. The text has been used successfully in its preliminary form at several universities, but it may also be used for self-study.

Having a baby, just like that? Without hospital, midwife or instructions to push? Babies are sometimes born before the midwife can get there and when that happens, everyone involved is usually happy everything went well despite the lack of professionals. But how does it work for women who consciously decide to have a so-called 'freebirth' and decline antenatal care as well as conventional monitoring by birth professionals? Sarah Schmid explains how to make self-directed birth a joyous experience. She also answers important questions around taking responsibility for your own pregnancy and birth, such as: How can I improve my health during pregnancy? How can I determine the baby's position myself and optimise it? Is it

possible to know if my baby is well without listening to the heartbeat? What can I do if my labour does not progress? What do I do if the cord is around the baby's neck? What should I do if there is meconium in the amniotic fluid? Freebirth after caesarean birth or with a breech baby - is it possible? Can I give birth by myself even if the pregnancy ends too soon? In 'Freebirth' Sarah Schmid provides a healthy dose of basic medical knowledge and dispels scary myths about birth. This also makes 'Freebirth' valuable for those women planning to birth their babies in a conventional setting, as well as for birth professionals. Also in this book: Numerous illustrations personal stories by over 30 mothers about planned and unplanned freebirths, including photos helpful tips for the early days with a newborn * 'Trust your feelings and ask 1000 questions when it comes to the birth of your baby. Good births are not easy to find, only the best is good enough for you ' (Caroline, 37, freebirth after previous caesarean section) 'Birth means becoming a woman and discovering the roaring

lioness within yourself.' (Beatrice, 36, two freebirths) 'Birth is part of life and it is not something that requires surveillance.' (Sarah, 32, three fre"

Foreword by Bill Gates
LinkedIn cofounder, legendary investor, and host of the award-winning Masters of Scale podcast reveals the secret to starting and scaling massively valuable companies. What

entrepreneur or founder doesn't aspire to build the next Amazon, Facebook, or Airbnb? Yet those who actually manage to do so are exceedingly rare. So what separates the startups that get disrupted and disappear from the ones who grow to become global giants? The secret is blitzscaling: a set of techniques for scaling up at a dizzying pace that blows competitors out of the water. The objective of Blitzscaling is not to go from zero to one, but from one to one billion -as quickly as possible. When growing at a breakneck pace, getting to next level requires very different strategies from those that got you to where you are today. In a book inspired by their popular class at Stanford Business School, Hoffman and Yeh reveal how to navigate the necessary shifts and weather the unique challenges that arise at each stage of a company's life cycle, such as: how to design business models for igniting and sustaining relentless growth; strategies for hiring and managing; how the role of the founder and company culture must evolve as the business matures, and more. Whether your

business has ten employees or ten thousand, Blitzscaling is the essential playbook for winning in a world where speed is the only competitive advantage that matters.
