Blackness and Transatlantic Irish Identity analyzes the long history of imagined and real relationships between the Irish and African-Americans since the mid-nineteenth century in popular culture and literature. Irish writers and political activists have often claimed - and thereby created - a "black" identity to explain their experience with colonialism in Ireland and revere African-Americans as a source of spiritual and sexual vitality. Irish-Americans often resisted this identification so as to make a place for themselves in the U.S. However, their representation of an Irish-American identity pivots on a distinction between Irish-Americans and African-Americans. Lauren Onkey argues that one of the most consistent tropes in the assertion of Irish and Irish-American identity is constructed through or against African-Americans, and she maps that trope in the work of writers Roddy Doyle, James Farrell, Bernard MacLaverty, John Boyle O'Reilly, and Jimmy Breslin; playwright Ned Harrigan; political activists Bernadette Devlin and Tom Hayden; and musicians Van Morrison, U2, and Black 47.

Virtually every aspect of American culture has been influenced by Irish immigrants and their descendants. This encyclopedia tells the full story of the Irish-American experience, covering immigration, assimilation, and achievement. • Demonstrates the intricate—and far-reaching—nature of the Irish-American connection • Covers the variety of the Irish-American political experience in the North and South rather than focusing only on northern populations • Distinguishes between the experience of Irish Protestants and Irish Catholics • Highlights the Irish propensity for inventiveness in America and Irish contributions to business and technology • Discusses the prominence of the Irish in the Catholic Church in the United States

This book examines the development of literary constructions of Irish-American identity from the mid-nineteenth century arrival of the Famine generation through the Great Depression. It goes beyond an analysis of negative Irish stereotypes and shows how Irish characters became the site of intense cultural debate regarding American identity, with some writers imagining Irishness to be the antithesis of Americanness, but others suggesting Irishness to be a path to Americanization. This study emphasizes the importance of considering how a sense of Irishness was imagined by both Irish-American writers conscious of the process of self-definition as well as non-Irish writers responsive to shifting cultural concerns regarding ethnic others. It analyzes specific iconic Irish-American characters including Mark Twain's Huck Finn and Margaret Mitchell's Scarlet O'Hara, as well as lesser-known Irish monsters who lurked in the American imagination such as T.S. Eliot's Sweeney and Frank Norris' McTeague. As Dowd argues, in contemporary American society, Irishness has been largely absorbed into a homogenous white culture, and as a result, it has become a largely invisible ethnicity to many modern literary critics. Too often, they simply do not see Irishness or do not think it relevant, and as a result, many Irish-American characters have been de-ethnicized in the critical literature of the past century. This volume reestablishes the importance of Irish ethnicity to many characters that have come to be misread as generically white and shows how Irishness is integral to their stories.

This book calls for a re-evaluation of the films of Robert Rossen. Over a 30-year period, he was the most accomplished writer and director who was also a longtime member of the Communist Party, but his achievement has not been recognized, his films have been belittled or ignored, his legacy denied. Rossen's films reflected his times and the American scene with a dramatic intensity and personal expression unmatched by any other filmmaker of the period. The stages of his political journey, from idealism about Communism to his rebellion against the Party's betrayal of those ideals, influenced the rendering of his concerns and themes—the flaws of human nature, the complexities of motives, the paradoxes of betrayal, personal and political. Yet Rossen testified against his fellow filmmakers, and so his morals and character have been denounced, his work diminished as fatally marred by his moral flaws. The opposite is true. Here is a thorough analysis of each of his 22 films and their place in the developing themes of his body of work. It integrates this study of the films with a documented narrative of his relationship to the Party, its history and conflicts, its duplicities—especially the relations of the Party and its followers to the oppressions of the Soviet Union. And so it challenges the validity of the conventional wisdom about the moral issues of the blacklist period.

"Imagining Robert" is the most honest book to date on the lives of the millions of families that must cope, day by day and year by year, over the course of a lifetime, with a condition for which, in most cases, there is no cure. By rendering his brother's mental illness in all its complexity and mystery, Jay Neugeboren has shown how even the grimmest of lives can be sustained by the power of love "**Something Dreadful and Grand**" McFarland

A "breezily entertaining" look at the comic couple who hobnobbed with Dorothy Parker, S. J. Perelman, Bennett Cerf, and other luminaries of their day (The New York Times Book Review). Nathanael West—author, screenwriter, playwright—was famous for two masterpieces: Miss Lonelyhearts and The Day of the Locust, which remains one the most penetrating novels ever written about Hollywood. He was also one of the most gifted and original writers of his generation, a scathing satirist whose insight into the brutalities of modern life proved prophetic. Eileen McKenney—accidental muse, literary heroine—grew up corn-fed in the Midwest and moved to

Manhattan's Greenwich Village when she was twenty-one. The inspiration for her sister Ruth's stories in the *New Yorker* under the banner of "My Sister Eileen," she became an overnight celebrity, and her star eventually crossed with that of the man she would impulsively marry. Together, Nathanael and Eileen had entrée into a social circle that included F. Scott Fitzgerald, Dashiell Hammett, Katharine White, and many of the literary, theatrical, and film luminaries of the era. But their carefree, offbeat Broadway-to-Hollywood love story would flame out almost as soon as it began. Now, with "a great marriage of scholarship and gossip" (*Minneapolis Star-Tribune*), this biography restores West and McKenney to their rightful place in the popular imagination, offering "a shrewd portrait of two people who in their different ways were noteworthy participants in American culture during one of its liveliest periods" (*Los Angeles Times*). "Opens a window onto the lives of writers in 1930s America as they struggled with anxieties, pretensions, temptations and myths that confound our culture to this day." —*Salon.com* "The first to fully chronicle and entwine these careening lives, Meade forges an engrossing, madcap, and tragic American story of ambition, reinvention, and risk." —*Booklist*, starred review

"Of interest...beautifully written and organized...Salerno has a deep appreciation for these works and weaves them into his book with great skill."--*Contemporary Sociology* Between 1915 and 1935 the University of Chicago was the center for the production of innovative sociological research that unearthed the marginalized existence of unconventional Americans. Referred to as the Chicago school monographs by social historians, these works brought acclaim to the country's premiere graduate program in sociology. Working at the shadowy margins of the city, these Chicago school scholars dramatically examined the lives of delinquents, prostitutes, gangsters, and homeless men. Their work harmonized with narratives of proletarian and pulp fiction and the serialized newspaper accounts of urban vice and deviance. This book offers a survey of some of these key monographs such as *The Unadjusted Girl*, *The Hobo*, *The Jack-Roller* and *The Taxi Dance Hall*.

*Dreams and Realism on Chicago's South Side* HMH

This volume traces ways in which time is represented in reverse forms throughout modernist culture, from the beginning of the twentieth century until the decade after World War II. Though modernism is often associated with revolutionary or futurist directions, this book argues instead that a retrograde dimension is embedded within it. By juxtaposing the literature of Europe and North America with that of Australia and New Zealand, it suggests how this antipodean context serves to defamiliarize and reconceptualize normative modernist understandings of temporal progression. Backgazing thus moves beyond the treatment of a specific geographical periphery as another margin on the expanding field of 'New Modernist Studies'. Instead, it offers a systematic investigation of the transformative effect of retrograde dimensions on our understanding of canonical modernist texts. The title, 'backgazing', is taken from Australian poet Robert G. Fitzgerald's 1938 poem 'Essay on Memory', and it epitomizes how the cultural history of modernism can be restructured according to a radically different discursive map. Backgazing intellectually reconfigures US and European modernism within a planetary orbit in which the literature of Australia and the Southern Hemisphere, far from being merely an annexed margin, can be seen substantively to change the directional compass of modernism more generally. By reading canonical modernists such as James Joyce and T. S. Eliot alongside marginalized writers such as Nancy Cunard and others and relatively neglected authors from Australia and New Zealand, this book offers a revisionist cultural history of modernist time, one framed by a recognition of how its measurement is modulated across geographical space.

Is there a right way to write a literary life? In this collection of columns from the *New York Sun*, Carl Rollyson explores the relationship between narrative and literary analysis. Should biographies be written in the style and form of novels? How to balance the life and the work? How much literary criticism can a biography absorb into its narrative? Rollyson proposes a number of apologies for biography-including the thought that in the right hands the literary biography is a continuation of the writer's work and life. In such instances there seems to be a symbiosis between biographer and subject. In other cases, biographies spearhead the rediscovery of important writers. He rejects the idea that literary figures are not good subjects for biography because they are not men and women of action. That literary biography is a kind of strip mining, a pathography laying bare the subject's life to no good purpose is another canard this book demolishes. The pieces here also expose the genre's weak points: a proclivity for overstatement and excessive length, the failure of biographers to build upon their predecessors' work (Rollyson invents a term-biographology-in order to discuss the biographical tradition).

Robert Ingersoll (1833—1899) is one of the great lost figures in United States history, all but forgotten at just the time America needs him most. An outspoken and unapologetic agnostic, fervent champion of the separation of church and state, and tireless advocate of the rights of women and African Americans, he drew enormous audiences in the late nineteenth century with his lectures on "freethought." His admirers included Mark Twain and Thomas A. Edison, who said Ingersoll had "all the attributes of a perfect man" and went so far as to make an early recording of Ingersoll's voice. The publication of *What's God Got to Do with It?* will return Robert Ingersoll and his ideas to American political discourse. Edited and with a biographical introduction by Pulitzer Prize winner Tim Page, this new popular collection of Ingersoll's thought - distilled from the twelve-volume set of his works, his copious letters, and various newspaper interviews - promises to put Ingersoll back where he belongs, in the forefront of independent American thought.
