2 Books in One: a Crash Course for Investing for Beginners on How to Make Money in the Stock Market and with Options. Including Technical Analysis, Trading Psychology and Useful Strategies John N. Cameron

Learn by stepping from options basics to advanced option strategies in this learn-by-doing tutorial and handy options strategy reference. Tested by readers who owned several options books but were never confident enough to trade, this book got

them started. The series of hands-on options trading activities explain how each of thirty-one option strategies work. Each activity guides readers through trade analysis, setup, entry, trade management, and possible outcomes. And each includes clarifying illustrations. Simply knowing how an option strategy works is not enough to enter a complex and often unpredictable market, because behind every option trade is an underlying stock, ETF, financial index, or future. Like all successful option traders, you must understand the underlying market environment, chart analysis, trading tools, essential trading rules, and risk management techniques. There's also equipment, connectivity, online trading platforms, backup, watch lists, and price charts to consider. This book covers all of these topics and much more. Hence, it is "the only options book you'll ever need."

- 2 Books in 1 - CRASH COURSE + STRATEGIES: A BEGINNER'S GUIDE ON HOW TO MAKE MONEY AND GENERATE PASSIVE INCOME & LEARN ALL THE FACTORS THAT INFLUENCE THE PRICE AND MASTER ALL THE DIFFERENT STRATEGIES Createspace Independent Publishing Platform

Do you know what options trading is? Do you want a guide that will explain your methods and strategies? Do you like to become a professional trader? So you were looking for this book! Options are financial instruments, which were derived from an underlying asset like bonds or stocks. They offer you a chance to buy an underlying security at a particular price and date. In short, options symbolize contracts, which enable you to buy and sell a particular value of an underlying asset at a specific price. Every contract specifies specific terms about the trade. No matter if you are a newbie to options trading or you're a grizzled pro seeking for a fresh taking on basic strategy, you will surely enjoy the plain-spoken style in **OPTIONS TRADING GUIDE - 2 books in 1 - CRASH COURSE + STRATEGIES: A BEGINNER'S GUIDE ON HOW TO MAKE MONEY AND GENERATE PASSIVE INCOME & LEARN ALL THE FACTORS THAT INFLUENCE THE PRICE AND MASTER ALL THE DIFFERENT STRATEGIES**. Day Trading Independently Published

Praise for Options Theory and Trading "I've had the pleasure of teaching with Ron Ianieri at numerous live seminars for traders and investors, and one thing is for sure-Ron knows options! Now Ron has created a thorough, easy-to-read guide that you can benefit from in many ways, whether you are experienced in options trading or just starting out. I believe you will find Options Theory and Trading like Ron himself . . . full of knowledge, entertaining, fast-paced, and a joy to be around." —Price Headley, CFA, CMT, founder of BigTrends.com "I've had the pleasure of knowing and working with Ron for many years now. When managing funds in our asset management company, Ron has always been our 'go-to guy' on anything options-related. I've also taught a number of seminars side by side with Ron over the years where I've always come home knowing more about options than when I left! The man is truly the 'pitbull' of derivatives." —Peter Reznicek, Chief Equity Strategist, www.ShadowTrader.net "What a pleasure to read Ron Ianieri's new book, Options Theory and Trading. As a market technician for the last thirty-three years I am always looking for technical moves in stocks, and I rely on Ron's expertise for the optimum options strategy needed for each specific move I perceive happening in the markets. Ron's 'in the pits' experience serves to correct the misinformation in much of the published material and classes currently available to the unsuspecting options trader." —David Steelsmith Elliott,

Wallstreetteachers.com, World's #1 Market Timer, USIC "Ron's expertise in options is as high as there is and his experience is unparalleled. Ron not only knows the answer but can explain it in a '101' fashion that is simple enough for even a novice to understand. His book is written in the same fashion. Ron not only explains the 'how to's' but also the 'how and why' which other books just don't seem to do. As a day trader/swing trader by nature, I also appreciate Ron incorporating real chart examples for us directional traders. For these reasons, I would highly recommend Ron's book to anyone interested in using options." —Chris Rowe, The Trend Rider, www.tycoonresearch.com
Options Trading: 2 Books in 1: The Complete Guide For Beginners to Investing and Making a Profit with Options by Effective Strategies a Independently Published

[The Ultimate Beginners Guide In Trade Options. Learn The Best Strategies to Invest and Make Money in Short Time](#) Independently Published

Description

Options Trading Pearson Education

Are you one of those folks who wish to become successful in day trading? Are you interested in day trading options, but you don't know where to begin? Consider your problems solved, because this bundle is here to save you! You see, day trading is an acquired skill. No one is brought into the planet a merchant, nor can anyone turn into an efficient information investor in just a short period. Similar to other lucrative undertakings, this movement is a business. If you want to find out how to raise your capital and develop your side hustle without sacrificing the time to spend with your family, then this book bundle Day Trading: The Beginners Guide To Expert Practical Strategies. Swing And Day Trading, Options, Money Management, And Prices. Including Trade Psychology And Profit Secret Tips is the perfect book for you! We know how challenging it is for you - spending time on your job and coming back home when your children are sleeping. Not only that. It would also be amazing to spend several hours creating another stream of income for your family. Of course, you cannot operate another business. Therefore, it would be a great idea to begin trading. Here's what you'll find in this awesome book bundle: Book 1: Day Trading for Beginners How Day Trading Works Risk and Account Management Important Psychology of Trading How to Find Stocks for Trade And More! Book 2: Day

Trading Options How Does Day Trading Work? High-Frequency Trading and Penny Stocks Day Trading Myths Day Trading Vs. Swing Trading And so much more! Options Trading John Wiley & Sons

Do you want a new income but, are you afraid of scams? do you have little time or little money? If yes, this book is the best luck you'll have today. Options can provide better income than any other job. It is not much different than the stock exchange. It is just like your own business; all you have to do is predict where the market and stock rates are going. You have to take a risk, but the income will be higher than you have thought. The end results can give a shock as market rates keep on changing every minute. Swing trading refers to the longer-term trading style, which requires a trader to hold their trades for a number of days. Unlike the day trading style, this trading style is appropriate for people who cannot monitor their charts for many hours during the day but can spare some time to analyze the market. It's important that you know: The primary purpose of inventing options was hedging. It helps to reduce risk. So, take options as your insurance policy. Like you insure your car and home, options can ensure your investment in case of a downfall movement. Suppose a trader wants to buy something related to tech stocks. But he also wants to limit his loss. The trader can do these easy throughput options, which give him two benefits: minimize risk and maximize profit. Short selling can also reduce loss at the time of a downturn. This book covers the following topics: ✓ How to become a professional trader ✓ The 13 most effective Strategies of options trading ✓ The five common mistake of beginners ✓ The right mindset of the trader to be successful ✓ How to analyze the market and the oscillations of rating to make a profit ✓ Learn to manage risk so as not to waste your money And so much more! It is for you even if you have never traded before, and you are no longer young. It's always a good time to buy this guide but, mind you, every hour that passes is an extra hour that separates you from success. Ready to get started? Click "Buy Now"!

[Options Trading For Beginners](#) Clydebank Media LLC Are you looking for a complete guide on day trading? Then Keep reading... Options buying and selling is a funding vehicle that could bring good-sized returns while completed with care. To start studying some fundamentals of options trading, you have first to know what options are and the way to exchange options. And this guide has already executed justice to that. Options trading might seem like a new concept, but it's actually been around for a long time. It is believed that the first person to ever trade options was a man named Thales. Back in 332 BC, Thales made a fortune by buying the rights to purchase olive before harvest. The first instance of options trading 332 BC Aristotle writes about Thales in his writing Politics, which he wrote in 332 BC. It sounds incredible that humans would have used the concept of options -- trading the rights to assets without purchasing the assets themselves -- so far back in the past, but it is indeed true. Thales was a smart man. What he did was observe the patterns of the weather and the stars, and then predicted a big olive harvest in the near future. A brilliant plan formed in his mind. He decided to use a small amount of money to secure the rights to all olive presses in the area. So, you can say that this was a call option with the underlying assets being olive presses. His prediction turned out to be correct, and the harvest was bountiful. He then proceeded to sell his rights to those who needed them and made a huge fortune for himself in the process. This book covers: ✓ Book 1 The Opportunity of Option Trading Who Is This Book for? Why to Trade Options Options the Basics What Is an Options Contract? Call and Put Options Derivative Contracts Options Are a Flexible Tool Trading Psychology Tools and Platforms Common Beginners Mistakes Next Steps: How to Continue On the Way Build Your
