“Terse and intense and new...I loved it.” —Tommy Orange, author of *There There* “Fuccboi is its generation’s coming of age novel...Utterly of its moment, of this moment.”—Jay McInerney, *Wall Street Journal* A fearless and savagely funny examination of masculinity under late capitalism from an electrifying new voice. Set in Philly one year into Trump’s presidency, Sean Thor Conroe’s audacious, freewheeling debut follows our eponymous fuccboi, Sean, as he attempts to live meaningfully in a world that doesn’t seem to need him. Reconciling past, failed selves—cross-country walker, SoundCloud rapper, weed farmer—he now finds himself back in his college city, trying to write, doing stimulant-fueled bike deliveries to eat. Unable to accept that his ex has dropped him, yet still engaged in all the same fuckery—being coy and spineless, dodging decisions, maintaining a rotation of baes—that led to her leaving in the first place. But now Sean has begun to wonder, how sustainable is this mode? How much fuckery is too much fuckery? Written in a riotous, utterly original idiom, and slyly undercutting both the hypocrisy of our era and that of Sean himself, *Fuccboi* is an unvarnished, playful, and searching examination of what it means to be a man. “Got under my skin in the way the best writing can.” —Sheila Heti “Sean Conroe isn’t one of the writers there’s a hundred of. He writes what’s his own, his own way.” —Nico Walker, author of *Cherry Hyperobjects* Farrar, Straus and Giroux (BYR)

Annihilation is the first volume in Jeff VanderMeer’s Southern Reach trilogy, Authority is the second, and Acceptance is the third. Area X—a remote and lush terrain—has been cut off from the rest of the continent for decades. Nature has reclaimed the last vestiges of human civilization. The first expedition returned with reports of a pristine, Edenic landscape; all the members of the second expedition committed suicide; the third expedition died in a hail of gunfire as its members turned on one another; the members of the eleventh expedition returned as shadows of their former selves, and within months of their return, all had died of aggressive cancer. This is the twelfth expedition. Their group is made up of four women: an anthropologist; a surveyor; a psychologist, the de facto leader; and our narrator, a biologist. Their mission is to map the terrain and collect specimens; to record all their observations, scientific and otherwise, of their surroundings and of one another; and, above all, to avoid being contaminated by Area X itself. They arrive expecting the unexpected, and Area X delivers—they discover a massive topographic anomaly and life forms that surpass understanding—but it’s the surprises that came across the border with them, and the secrets the expedition members are keeping from one another, that change everything. After the disastrous twelfth expedition chronicled in *Annihilation*, the Southern Reach—the secret agency that monitors these expeditions—is in disarray. In *Authority*, John Rodriguez, aka “Control,” is the team’s newly appointed head. From a series of interrogations, a cache of hidden notes and hours of profoundly troubling video footage, the secrets of Area X begin to reveal themselves—and what they expose pushes Control to confront disturbing truths about both himself and the agency he’s promised to serve. And the consequences will spread much further than that. It is winter in Area X in *Acceptance*. A new team embarks across the border on a mission to find a member of a previous expedition who may have been left behind. As they press deeper into the unknown—navigating new terrain and new challenges—the threat to the outside world becomes

more daunting. The mysteries of Area X may have been solved, but their consequences and implications are no less profound—or terrifying.

In *City of Saints and Madmen*, Jeff VanderMeer has reinvented the literature of the fantastic. You hold in your hands an invitation to a place unlike any you’ve ever visited—an invitation delivered by one of our most audacious and astonishing literary magicians. City of elegance and squalor. Of religious fervor and wanton lusts. And everywhere, on the walls of courtyards and churches, an incandescent fungus of mysterious and ominous origin. In Ambergris, a would-be suitor discovers that a sunlit street can become a killing ground in the blink of an eye. An artist receives an invitation to a beheading—and finds himself enchanted. And a patient in a mental institution is convinced he’s made up a city called Ambergris, imagined its every last detail, and that he’s really from a place called Chicago.... By turns sensuous and terrifying, filled with exotica and eroticism, this interwoven collection of stories, histories, and “eyewitness” reports invokes a universe within a puzzlebox where you can lose—and find—yourself again. From the Trade Paperback edition.

The *Strange Bird*—from New York Times bestselling novelist Jeff VanderMeer—is a novella-length digital original that expands and weaves deeply into the world of his “thorough marvel”\* of a novel, *Borne*. The *Strange Bird* is a new kind of creature, built in a laboratory—she is part bird, part human, part many other things. But now the lab in which she was created is under siege and the scientists have turned on their animal creations. Flying through tunnels, dodging bullets, and changing her colors and patterning to avoid capture, the *Strange Bird* manages to escape. But she cannot just soar in peace above the earth. The sky itself is full of wildlife that rejects her as one of their own, and also full of technology—satellites and drones and other detritus of the human civilization below that has all but destroyed itself. And the farther she flies, the deeper she finds herself in the orbit of the Company, a collapsed biotech firm that has populated the world with experiments both failed and successful that have outlived the corporation itself: a pack of networked foxes, a giant predatory bear. But of the many creatures she encounters with whom she bears some kind of kinship, it is the humans—all of them now simply scrambling to survive—who are the most insidious, who still see her as simply something to possess, to capture, to trade, to exploit. Never to understand, never to welcome home. With *The Strange Bird*, Jeff VanderMeer has done more than add another layer, a new chapter, to his celebrated novel *Borne*. He has created a whole new perspective on the world inhabited by Rachel and Wick, the Magician, Mord, and *Borne*—a view from above, of course, but also a view from deep inside the mind of a new kind of creature who will fight and suffer and live for the tenuous future of this world. Praise for *Borne* \*”Jeff VanderMeer’s *Southern Reach* Trilogy was an ever-creeping map of the apocalypse; with *Borne* he continues his investigation into the malevolent grace of the world, and it’s a thorough marvel.” —Colson Whitehead “VanderMeer is that rare novelist who turns to nonhumans not to make them approximate us as much as possible but to make such approximation impossible. All of this is magnified a hundredfold in *Borne* . . . Here is the story about biotech that VanderMeer wants to tell, a vision of the nonhuman not as one fixed thing, one fixed destiny, but as either peaceful or catastrophic, by our side or out on a rampage as our behavior dictates—for these are our children, born of us and now to be borne in whatever shape or mess we have created. This coming-of-age story signals that eco-fiction has come of age as well: wilder, more reckless and more breathtaking than previously thought, a wager and a promise that what emerges from the twenty-first century will be as good as any from the twentieth, or the nineteenth.” —Wai Chee Dimock, *The New York Times* Book Review

National Book Foundation 5 Under 35 Award winner Charles Yu delivers his debut novel, a razor-sharp, ridiculously funny, and utterly touching story of a son searching for his father . . . through quantum space-time. *Minor Universe 31* is a vast story-space on the outskirts of fiction, where paradox fluctuates like the stock market, lonely sexbots beckon failed protagonists, and time travel is serious business. Every day, people get into time machines and try to do the one thing they should never do: change the past. That’s where Charles Yu, time travel technician—part counselor, part gadget repair man—steps in. He helps save people from themselves. Literally. When he’s not taking client calls or consoling his boss, Phil, who could really use an upgrade, Yu visits his mother (stuck in a one-hour cycle of time, she makes dinner over and over and over) and searches for his father, who invented time travel and then vanished. Accompanied by TAMMY, an operating system with low self-esteem, and Ed, a nonexistent but ontologically valid dog, Yu sets out, and back, and beyond, in order to find the one day where he and his father can meet in memory. He learns that the key may be found in a book he got from his future self. It’s called *How to Live Safely in a Science Fictional Universe*, and he’s the author. And somewhere inside it is the information that could help him—in fact it may even save his life. Wildly new and adventurous, Yu’s debut is certain to send shock waves of wonder through literary space-time.

**Finch** Soho Press

After thirty years, the only human engagement with Area X—a seemingly malevolent landscape surrounded by an invisible border and mysteriously wiped clean of all signs of civilization—has been a series of expeditions overseen by a government agency so secret it has almost been forgotten: the Southern Reach. Following the tumultuous twelfth expedition chronicled in *Annihilation*, the agency is in complete disarray. John Rodrigues (aka “Control”) is the Southern Reach’s newly appointed head. Working with a distrustful but desperate team, a series of frustrating interrogations, a cache of hidden notes, and hours of profoundly troubling video footage, Control begins to penetrate the secrets of Area X. But with each discovery he must confront disturbing truths about himself and the agency he’s pledged to serve. In *Authority*, the second volume of Jeff VanderMeer’s *Southern Reach* trilogy, Area X’s most disturbing questions are answered . . . but the answers are far from reassuring.

A 2020 LOCUS AWARD FINALIST Jeff VanderMeer’s *Dead Astronauts* presents a City with no name of its own where, in the shadow of the all-powerful Company, lives human and otherwise converge in terrifying and miraculous ways. At stake: the fate of the future, the fate of Earth—all the Earths. A messianic blue fox who slips through warrens of time and space on a mysterious mission. A homeless woman haunted by a demon who finds the key to all things in a strange journal. A giant leviathan of a fish, centuries old, who hides a secret, remembering a past that may not be its own. Three ragtag rebels waging an endless war for the fate of the world against an all-powerful corporation. A raving madman who wanders the desert lost in the past, haunted by his own creation: an invisible monster whose name he has forgotten and whose purpose remains hidden.

A coming of age story of two American sisters in Hong Kong during the late 1960s. “A haunting novel written with the craft and grace of a master” (Isabel Allende). Summer 1967. The turmoil of the Maoist revolution is spilling over into Hong Kong and causing unrest as war rages in neighboring Vietnam. *White Ghost Girls* is the story of Frankie and Kate, two American sisters living in a foreign land in a chaotic time. With their war-photographer father off in Vietnam, Marianne, their beautiful but remote mother, keeps the family nearby. Although bound by a closeness of living overseas, the sisters could not be more different—Frankie pulses with curiosity and risk, while Kate is all eyes and ears. Marianne spends her days painting watercolors of the lush surroundings, leaving the girls largely unsupervised, while their Chinese nanny, Ah Bing, does her best to look after them. One day in a village market, they decide to explore—with tragic results. In *Alice Greenway’s* exquisite gem of a novel, two girls tumble into their teenage years against an extraordinary backdrop both sensuous and dangerous. This astonishing literary debut is a tale of sacrifice and solidarity that gleams with the kind of intense, complicated love that only exists between sisters. “Greenway is a remarkable young writer who vividly evokes Hong Kong’s sights, smells, and sounds in poetic, finely detailed prose. What’s more, she seems to have remembered every single charged emotion from adolescence and filters them all through the sisters’ fierce, complex relationship. A heartbreakingly beautiful debut.” —Booklist, starred review

Having set global warming in irreversible motion, we are facing the possibility of ecological catastrophe. But the environmental emergency is also a crisis for our philosophical habits of thought, confronting us with a problem that seems to defy not only our control but also our understanding. Global warming is perhaps the most dramatic example of what Timothy Morton calls “hyperobjects”—entities of such vast temporal and spatial dimensions that they defeat traditional ideas about what a thing is in the first place. In this book, Morton explains what hyperobjects are and their impact on how we think, how we coexist with one another and with nonhumans, and how we experience our politics, ethics, and art. Moving fluidly between philosophy, science, literature, visual and conceptual art, and popular culture, the book argues that hyperobjects show that the end of the world has already occurred in the sense that concepts such as world, nature, and even environment are no longer a meaningful horizon against which human events take place. Instead of inhabiting a world, we find ourselves inside a number of hyperobjects, such as climate, nuclear weapons, evolution, or relativity. Such objects put unbearable strains on our normal ways of reasoning. Insisting that we have to reinvent how we think to even begin to comprehend the world we now live in, *Hyperobjects* takes the first steps, outlining a genuinely postmodern ecological approach to thought and action. Macmillan

From the best-selling coauthor of *The Disaster Artist* and “one of America’s best and most interesting writers” (Stephen King), a new collection of stories that range from laugh-out-loud funny to disturbingly dark—unflinching portraits of women and men struggling to bridge the gap between art and life. A young and ingratiating assistant to a movie star makes a blunder that puts his boss and a major studio at grave risk. A long-married couple hires an escort for a threesome in order to rejuvenate their relationship. An assistant at a prestigious literary journal reconnects with a middle school frenemy and finds that his carefully constructed world of refinement cannot protect him from his past. A Bush administration lawyer wakes up on an abandoned airplane, trapped in a nightmare of his own making. In these and other stories, Tom Bissell vividly renders the complex worlds of characters on the brink of artistic and personal crises—writers, video-game developers, actors, and other creative types who see things slightly differently from the rest of us. With its surreal, poignant, and sometimes squirm-inducing stories, *Creative Types* is a brilliant new offering from one of the most versatile and talented writers working in America today.

Following on from the success of his thriller, *Ex Machina*, Alex Garland returns to cerebral sci-fi with his adaptation of Jeff VanderMeer’s cult novel - a tale of a biologist attempting to uncover the mystery of her husband’s disappearance into a restricted zone. What she and her fellow scientists discover is a world populated by mysterious life forms that might offer answers, but which exposes them to madness and death. Beside the screenplay, the book also includes 20 pages of behind-the-scenes photos.

Traditional strategy assumes stability and predictability. Today's world is better characterised by turbulence, uncertainty, novelty and ambiguity - conditions that contribute disruptive changes and trigger the search for new ways of coping. This book aims to become the premier guide on how to do scenario planning to support strategy and public policy. Co-authored by three experts in the field, the book presents The Oxford Scenario Planning Approach (OSPA). The approach is both intellectually rigorous and practical. Methodological choices and theoretical aspects in practice are detailed in reference to the relevant literatures and grounded in 6 case studies the authors have been involved with. The book makes several contributions to the field, centred on how learning with scenario planning is supported by re-framing and re-perception; how this iterative process can be embedded in corporate or government settings, and how it helps those that it supports to do well in today's world. The book is written in an accessible style and will be a useful introductory text as well as a useful guide for the more experienced scenario planning practitioner and scholar.

Named one of NPR's Best Books of 2021 From the author of Annihilation, a brilliant speculative thriller of dark conspiracy, endangered species, and the possible end of all things. Security consultant “Jane Smith” receives an envelope with a key to a storage unit that holds a taxidermied hummingbird and clues leading her to a taxidermied salamander. Silvina, the dead woman who left the note, is a reputed ecoterrorist and the daughter of an Argentine industrialist. By taking the hummingbird from the storage unit, Jane sets in motion a series of events that quickly spin beyond her control. Soon, Jane and her family are in danger, with few allies to help her make sense of the true scope of the peril. Is the only way to safety to follow in Silvina's footsteps? Is it too late to stop? As she desperately seeks answers about why Silvina contacted her, time is running out—for her and possibly for the world. Hummingbird Salamander is Jeff VanderMeer at his brilliant, cinematic best, wrapping profound questions about climate change, identity, and the world we live in into a tightly plotted thriller full of unexpected twists and elaborate conspiracy.
