Une bibliographie alphabétique, chronologique et descriptive des travaux de Pierre du Moulin, l'un des écrivains majeurs du protestantisme français.

The First English Translation by Michael Shreve Librairie Droz

From his cult classic, *I Smell Esther Williams*, to his wildly popular and insightful column "Wild Kingdom" appearing in *Esquire* magazine every month, Mark Leyner has been giving us up close and personal encounters of the most hilarious kind for over a decade. Now, in his new novel *The Tetherballs of Bougainville*, Leyner shares with us, long last, the quintessential coming of age story that every writer, at some point, is compelled to tell. In the novel we meet young Mark Leyner, 13-years-old to be exact, as he waits in a New Jersey prison to witness his father's execution.

Adolescence is never easy, and it just so happens that this junior high schooler is on deadline to turn in a screenplay for which he has already been awarded the Vincent and Lenore

DiGiacomo/Oshimitsu Polymers America Award. And, as it was for all of us during out teenage years, nothing seems to go as planned. Written as autobiography, screenplay and movie review, *The Tetherballs of Bougainville* twists three familiar narrative forms into an outlandishly compelling story. Leyner's use of the media-driven formats brilliantly reflects our secret, shameful and hilarious desire to experience our private lives as mass entertainment. The

Tetherballs of Bougainville skewers and celebrates American pop culture in the late twentieth century. Leyner's version of our lives is so deeply funny because it is so painfully true.

In this little-known work by Voltaire (1694-1778)-now available in English for the first time- the famous French philosophe and satirist presents a wide-ranging and acerbic survey of religion throughout the world. Written toward the end of his life in 1769, the work was penned in the same decade as some of his more famous works-the *Philosophical Dictionary*, *Questions on Miracles*, and *Lord Bolingbroke's Important Examination*-all of which questioned the basic tenets of Christianity. Voltaire called himself a deist and thus he professed belief in a supreme deity. But he was always sharply critical of

institutional Christianity, especially its superstitions, the hypocrisy of its clergy, and its abuse of political power. Both his deism and his critical attitude toward Christianity are manifest in *God and Human Beings*, which is, in effect, one of the first works of comparative religion. Comparing Christianity to the more ancient belief systems of the Jews, Hindus, Chinese, Greeks, Romans, Egyptians, Babylonians, Phoenicians, and Arabs, he notes a common tendency to worship one supreme god, despite the host of subordinate deities in many of these religions. He also critiques the many superstitions and slavish rituals in religion generally, but he emphasizes that in this respect Christianity is no better than other faiths. Thus, the clergy's claim that Christianity is God's supreme revelation to humanity has no basis from an objective perspective. This first English translation of a classic critique of religion includes an introduction by writer, scholar, and editor S. T. Joshi, who wrote the article on Voltaire in *The New Encyclopedia of Unbelief* (edited by Tom Flynn). Anticipating many of the themes of the later Higher Criticism and rationalist critiques of religion, this incisive, witty treatise by the great French skeptic will be a welcome addition to the libraries of anyone with an interest in the philosophy of religion, intellectual history, or the Enlightenment. Michael Shreve (Paris, France) is the translator of *Testament: Memoir of the Thoughts and Sentiments of Jean Meslier*. He works as a language teacher and translator in Paris, France. He has taught Greek, Latin, French, Spanish, English, and classical civilization courses in universities and private schools in the United States, Canada, Lebanon, Mexico, Malaysia, and France over the past

fifteen years.

A sweeping examination of the Jewish presence in French literature from the sixteenth century to the present, *Marrano as Metaphor* explores the many shapes and forms in which Jews are perceived, spoken, and written about. Employing a wide spectrum of analytical methods from history, literary theory, and psychoanalysis, renowned French scholar Elaine Marks opens new doors in the study of literature. In this lucid, far-reaching discussion, Elaine Marks works to illuminate the reality of Jewish presence, always maintaining her sensitivity to the persecutions that mar the history of this presence in France. Exploring the complexities of suffering and mourning, the nature of writing, representation, and identity, *Marrano as Metaphor* is a significant moment in the study of French literature.

God and Human Beings Routledge

Author Max Gauna has contributed to Rabelaisian studies an analysis of the author's four authentic novels, considered in the light of his own description of them as mythologies. In the preface, Gauna remarks that such an enterprise requires attention to meaning and recognizes that meaning itself is called into question by much of postmodernist criticism, especially deconstruction. He also observes that deconstruction impinges on Rabelaisian criticism with particular force insofar as it may be seen to derive from the doctrines of the classical sophists as they are depicted in the Platonic dialogues, which themselves are an

inspiration for author Rabelais. In the introduction, Gauna relates the question of critical ideology to the age-old philosophical dialectic of the One and the Many. He shows how Rabelais's work exemplifies the tensions of that dialectic in a highly significant way, in that the multiform exuberance of the writing may be seen to play against its philosophical tenor, which espouses wholeheartedly the cause of the One against the Many. He then considers the question of mythology and suggests that Rabelais's stories may properly be seen as philosophical rhetoric, or the logotherapy of a committed Platonic doctor. He attends lastly to the question of laughter. Gauna then devotes a chapter to each of the Rabelaisian chronicles, considered as mythology. An outline of all significant sections is provided, but where existing interpretations seem satisfactory, the reader is simply referred to the relevant critical literature. Thus, while chapters 1 and 2 are relatively shorter insofar as the philosophical content of the first book is episodic and that of the second largely clear-cut, new exegeses of certain sections of both are adumbrated. Chapter 3 suggests a new reading of the third book as a whole, in which Rabelais is seen to draw inspiration from the doctrines of Plato and the battle of Socrates with the sophists, incorporating into his worldview the central role of divination and the good demons who mediate between God and man. Chapter 4 examines in detail the various myths of the fourth book and suggests that in it Rabelais propounds a radically unorthodox syncretism in which the poetic attractions of Platonic and Plutarchan demonology are preponderant, in which Christ Himself may be seen as the greatest of the

demons, and where the climax of the book shows us the hero Pantagruel in direct communication with his own guardian demon. A short epilogue sums up Gauna's conclusions and suggests reasons for the literary and philosophical attractions of magical Platonism.

This book provides an insightful approach to understanding the contemporary circulations of feminist repertoires and shows how the international/transnational circulations of gender are interconnected, even coextensive, with the globalization process itself. Fed by a shared reflexivity on relations among activist groups, state institutions, and international actors involved in the production and dissemination of contemporary norms dealing with gender, each chapter shares methodological premises and studies the circulation of gender-related norms and knowledge in situ and by varying standpoints. Specifically, the authors de-compartmentalize the academic disciplines and go beyond classical geographic divisions, in order to map social spaces and networks of actors involved in the production and circulation of gender-related repertoires. Last, the book grasps circulatory processes and entangled social phenomena, which are usually subject to disciplinary and thematic divisions separating collective action and public action, development aid and feminism, law and international relations. Focused

on collective and individual experiences within women's organizations, activist careers, unstable mobilizations, public policies temporalities, the chapters reveal the mechanisms through which these arrangements are made and shed light on strategies deployed by actors rooted in specific social and political contexts. This book will be of key interest to students and scholars of gender studies and more broadly to politics, International Relations, sociology, geography, history, and anthropology.

Did the 16th-century Reformation influence French language and culture? This book, the fullest available bibliography of religious printing in French during the early Reformation, provides the materials to answer this question. It assembles information on all known printed editions in French on religious subjects during the crucial period 1511-51 (up to the Edict of Chateaubriant), giving full bibliographical details, library locations and references in secondary literature. An alphabetical list is complemented by a chronological list, and by an analysis of editions by printers and publishers. The work provides the fullest checklist available of works and editions produced from all parts of the religious spectrum, both Roman Catholic and Protestant. It reveals who were the most active and influential writers, which were the most popular texts, and which were the most active printing centres in the field of religious printing in French. The chronological survey shows the immense growth in publications triggered by the Reformation movement, and reveals the radical change in religious sensibility during the period, from contemplative meditation to polemical debate.

Early Modern to Postmodernism

Routledge

Sensationism, a philosophy that gained momentum in the French Enlightenment as a response to Lockean empiricism, was acclaimed by Hippolyte Taine as "the doctrine of the most lucid, methodical, and French minds to have honored France." The first major general study in English of eighteenth-century French sensationism, *The Authority of Experience* presents the history of a complex set of ideas and explores their important ramifications for literature, education, and moral theory. The study begins by presenting the main ideas of sensationist philosophers Condillac, Bonnet, and Helvétius, who held that all of our ideas come to us through the senses. The experience of the body in seeing, hearing, smelling, tasting, and touching enabled individuals, as John C. O'Neal points out, to challenge the sometimes arbitrary authority of institutions and people in positions of power. After a general introduction to sensationism, the author develops a theory of sensationist aesthetics that not only reveals the interconnections of the period's philosophy and literature but also enhances our awareness of the forces at work in the French novel. He goes on to examine the relations between sensationism and eighteenth-century French educational theory, materialism, and idéologie. Ultimately, O'Neal opens a discussion of the implications of sensationist thought for issues of particular concern to society today.
