With her pistols loaded she went aboard  
And by her side hung a glittering sword  
In her belt two daggers, well armed for war  
Was this female smuggler  
Was this female smuggler who never feared a scar.  
If a "hen frigate" was any ship carrying a captain's wife, then a "she captain" is a bold woman distinguished for courageous enterprise in the history of the sea. "She captains," who infamously possessed the "bodies of women and the souls of men," thrilled and terrorized their shipmates, doing "deeds beyond the valor of women." Some were "bold and crafty pirates with broadsword in hand." Others were sirens, too, like the Valkyria Princess Alfhild, whom the mariners

made rover-captain for her beauty. Like their male counterparts, these astonishing women were drawn to the ocean's beauty -- and its danger. In her inimitable, yarn-spinning style, award-winning historian Joan Druett tells us what life was like for the women who dared to captain ships of their own, don pirates' garb, and perform heroic and hellacious deeds on the high seas. We meet Irish raider Grace "Grania" O'Malley -- sometimes called "the bald Grania" because she cut her hair short like a boy's -- who commanded three galleys and two hundred fighting men. Female pirates Anne Bonny and Mary Read were wanted by the law. Armed to the teeth with cutlasses and pistols, they inspired awe and admiration as they swaggered about in fancy hats and expensive finery, killing many a man who cowered cravenly before them. Lovelorn Susan "Put on a jolly sailor's dress/And daubed her hands with tar/To cross the raging sea/On board a man of war" to be near her William. Others disguised themselves for economic reasons. In 1835, Ann Jane Thornton signed on as a ship's steward to earn the fair wage of nine dollars per month. When it was discovered that she was a woman, the captain testified that Jane was a capital sailor, but the crew had been suspicious of her from the start, "because she would not drink her grog like a regular seaman." In 1838, twenty-two-year-old Grace Darling led the charge to rescue nine castaways from the wreck

of the Forfarshire (the Titanic of its day). "I'll save the crew!" she cried, her courageous pledge immortalized in a torrent of books, songs, and poems. Though "she captains" had been sailing for hundreds of years by the turn of the twentieth century, Scotswoman Betsey Miller made headlines by weathering "storms of the deep when many commanders of the other sex have been driven to pieces on the rocks." From the warrior queens of the sixth century B.C. to the women shipowners influential in opening the Northwest Passage, Druett has assembled a real-life cast of characters whose boldness and bravado will capture popular imagination. Following the arc of maritime history from the female perspective, *She Captains'* intrepid crew sails forth into a sea of adventure. **Beeton's Tales of perils and adventures by sea and land, ed. by S.O. Stories from Sea Level is a hand-picked assemblage of truly exceptional ocean-related events which occurred within the 50-year span between 1969 and 2019. The lifeguards featured in these stories work for various agencies between San Diego and the Sonoma Coast. Of note, the lifeguards themselves provided the author with the details and specifics necessary to accurately immortalize their remarkable and dramatic events. This collection of their accounts are offered by the author as a sincere homage to all lifeguards (past, present, and future) who diligently patrol the California coastline ensuring the safety of the general public. Ten of these stories capture the details of daring rescues in which the lifeguards' performances were so exceptional that they personified the essence of valor. All ten of these events (as indicated in their accounts) earned the lifeguards prestigious Medal of Valor honors from the United States Lifeguard Association and/or the Governor of California. This award serves as formal recognition and acknowledgement of the highest level of courage and bravery in our profession. Balancing the gallantry and heroics, other stories serve to illuminate the whimsical nature of our profession and the comical shenanigans involved in our interactions with the public. They seem to exemplify the adage that "truth is stranger than fiction." Collectively, these accounts provide the reader with insight and appreciation for the diverse range of duties, responsibilities and joys that lifeguards encounter in the course of performing their duties on the iconic beaches of California. They expose the common bonds that lifeguards from all agencies share and hopefully provide the lay public with an appreciation for the unique skills and incomparable worth of our ocean warriors. Praise for Stories from Sea Level The tales in Ed Vodrazka's riveting book Stories from Sea Level chronicle the entire range of experiences confronted in the course of working as an Ocean Lifeguard—the tragedies will bring tears to your eyes, the rescues will have you on the edge of your seat, the lighthearted stories will capture your heart and make you laugh. This amazing book recounts Medal of Valor rescues, unleashes some of lifeguarding's most unique and compelling characters, documents the heartbreaking fatalities, the friendships and the ironies, the twists of fate and the remarkable resolve of men and women performing extraordinary rescues in a perilous sea. Only Ed Vodrazka could have written this book, for the simple reason he is one of the best-known practitioners of the lifesaving discipline in California. He is one of the most affable, curious and artfully compelling people you'll ever meet. Anyone who has been a lifeguard in Southern California for the last 20 years either knows him or has heard of him. He worked for seven years on the notoriously dangerous North Coast of Sonoma County. His service on the beaches of California spans six decades. He has worked as a field lifesaver and a Lifeguard Training Instructor for California State Parks and Los Angeles County, and has taught EMT and First Responder courses for the City of San Diego Lifeguards. He is a highly coveted public speaker and EMT Instructor. There is no document that represents the full spectrum of the camaraderie, emotion and challenges confronted every day by Ocean Lifeguards more effectively than Stories from Sea Level. This book is mandatory reading for anyone who has an interest in the ocean and the people who make their living at its doorstep. Stories from Sea Level is a book worthy of spending time with. Treasure Neverland compares the facts of real eighteenth-century pirate lives with how such they were transformed artistically for historical novels, popular melodramas, boyish adventures, and Hollywood films.

Following the success of Robinson Crusoe, Daniel Defoe composed a further tale of high adventure at sea. The result was this lesser-known work, an inspired and hugely enjoyable "first-hand" account of pirate life. In response to an alleged letter accusing him of the worst possible deeds, Captain Avery pens a reply seeking to exonerate himself from all such charges. He sees fit to provide a full account of life as captain of a pirate ship. Yet far from being the archetypal,

murderous villain, his letters reveal him simply to be a lovable rogue—albeit one with something of a penchant for fine jewels.

Hailed as heart stopping and almost unbearably suspenseful, Edward L. Beach's third novel is set fifteen years after the end of World War II as the US Navy converts its fleet of conventional submarines to nuclear-powered ships. The book focuses on the USS Cushing, whose sixteen missile silos carry more explosive power than all the munitions used in both world wars. The submarine is on a secret mission to the Arctic Ocean to determine whether her missiles are effective when fired from beneath the ice. When the Cushing is incapacitated with a suspicious Russian sub lurking in the vicinity, the scene is set for a dramatic novel rich in all the technical detail and submarine lore that have entertained millions of readers of Captain Beach's other fictional works.

Spin the Globe: The Incredible Adventures of Frederick von Wigglebottom is a fact-based and educational book series based on bedtime stories I told my daughter and son. Each night they would ask Daddy to tell them a story. After exhausting every variation of animal, astronaut, and princess stories I could come up with, one evening, I took notice of the globe that sat atop their dresser. I asked them to help me with a story topic and had them "spin the globe" They would use their finger to stop the globe, and wherever their finger landed, I had to tell them an impromptu story about that particular country or area. This particular story of the series takes place on the island of St. George's Caye in Belize. Frederick is joined by K'ayab, a Mayan boy, and Hay , a Garinagu girl, who release two rehabilitated sea turtles into the sea and teach him all about the history, people, sites and marine and jungle animals of the Pearl of the Caribbean.

The 1570s marked the beginning of an age of pervasive piracy in the Mediterranean that persisted into the eighteenth century. Nowhere was more inviting to pirates than the Ottoman-dominated eastern Mediterranean. In this bustling maritime ecosystem, weak imperial defenses and permissive politics made piracy possible, while robust trade made it profitable. By 1700, the limits of the Ottoman Mediterranean were defined not by Ottoman territorial sovereignty or naval supremacy, but by the reach of imperial law, which had been indelibly shaped by the challenge of piracy. Piracy and Law in the Ottoman Mediterranean is the first book to examine Mediterranean piracy from the Ottoman perspective, focusing on the administrators and diplomats, jurists and victims who had to contend most with maritime violence. Pirates churned up a sea of paper in their wake: letters, petitions, court documents, legal opinions, ambassadorial reports, travel accounts, captivity narratives, and vast numbers of decrees attest to their impact on lives and livelihoods. Joshua M. White plumbs the depths of these uncharted, frequently uncatalogued waters, revealing how piracy shaped both the Ottoman legal space and the contours of the Mediterranean world.

Phillips James Fenimore Cooper (1789-1851) was a prolific and popular American writer of the early 19th century. His historical romances of frontier and Indian life in the early American days created a unique form of American literature. Before embarking on his career as a writer, Cooper served in the U.S. Navy, which greatly influenced many of his novels. The novel that launched his

career was The Spy, tale of espionage in Revolutionary War. He also wrote numerous sea stories, and his best-known works are five historical novels of the frontier period known as the Leatherstocking Tales. Among his most famous works is the Romantic novel The Last of the Mohicans.
