This volume addresses the need for an international perspective on global education, and provides alternate voices to the theme of global education. The editors asked international educators in different contexts to indicate how their own experience of global education addresses the broad and contested concepts associated with this notion. Following the lead of the internationally acknowledged authors from North America,

Europe, Africa, Australia, and Asia, perspectives were provided on a wide variety of contexts including tertiary education, and teacher education; various pedagogies for global education, including digital pedagogies; and curriculum development at school, tertiary and community levels. Contesting and Constructing International Perspectives in Global Education explores the tensions inherent in discussions of global education from a number of facets including spatial, pedagogical, temporal, social and cultural; and provides critical, descriptive and values-laden interpretations. The book is divided into five sections, "Temporal and Spatial Views of Global Education"; "Telling National Stories of Global Education"; "Empowering Citizens for Global Education"; "Deconstructing Global Education"; and "Transforming Curricula for Global Education". It is envisaged as a starting point for a stronger international conception of global education and a way to build a conversation for the future of global education in a neo-liberal and less internationally confident time.

Indonesia has long been hailed as a rare case of democratic transition and persistence in an era of global democratic setbacks. But as the country enters its third decade of democracy, such laudatory assessments have become increasingly untenable. The stagnation that characterized Susilo Bambang Yudhoyono's second presidential term has given way to a more far-reaching pattern of democratic regression under his successor, Joko Widodo. This volume is the first comprehensive study of Indonesia's contemporary democratic decline. Its contributors identify, explain and debate the signs of regression, including arbitrary state crackdowns on freedom of speech and organization, the rise of vigilantism, deepening political polarization, populist mobilization, the dysfunction of key democratic institutions, and the erosion of checks and balances on executive power. They ask why Indonesia, until recently considered a beacon of democratic exceptionalism, increasingly conforms to the global pattern of democracy in retreat.

*Asian Population Studies Series* Yoyok Rahayu Basuki The impact of both colonial economic policies and Western enterprise on indigenous agriculture in Indonesia has long been a matter of contention among scholars. This book provides the first quantification and assessment of the broad long-term trends in agricultural production and productivity since 1880. It is the first comprehensive inventory of agricultural policies and their impact on agricultural production during the colonial era and after independence. It stresses the continuity in the development of both agricultural productivity and policies from the colonial era

until today.

This book places Indonesia at the forefront of the global debate about the impact of 'disruptive' digital technologies. Digital technology is fast becoming the core of life, work, culture and identity. Yet, while the number of Indonesians using the Internet has followed the upward global trend, some groups "e;the poor, the elderly, women, the less well-educated, people living in remote communities"e; are disadvantaged. This interdisciplinary collection of essays by leading researchers and scholars, as well as e-governance and e-commerce insiders, examines the impact of digitalisation on the media industry, governance, commerce, informal sector employment, education, cybercrime, terrorism, religion, artistic and cultural expression, and much more. It presents groundbreaking analysis of the impact of digitalisation in one of the world's most diverse, geographically vast nations. In weighing arguments about the opportunities and challenges presented by digitalisation, it puts the very idea of a technological 'revolution' into critical perspective.

What is the relationship between Saudi Arabia and Indonesia? For centuries, Indonesians have travelled to Saudi Arabia and have been deeply involved in education, scholarship and the creation of centres for Islamic learning in the country. Yet the impact of this type of migration has not yet been the focus of scholarly research and little is known about the important intellectual connections that now exist. This book examines Indonesian educational migrants and intellectual travellers in Saudi Arabia including students, researchers, teachers and scholars to provide a unique portrait of the religious and intellectual linkages between the two countries. Based on in-depth interviews and questionnaires, Sumanto Al Qurtuby identifies the "Indonesian legacy" in Saudi Arabia and examines in turn how the host country's influential Islamic scholars have impacted on Indonesian Muslims. The research sheds light on the dynamic history of Saudi Arabian-Indonesian relations and the intellectual impact of Indonesian migrants in Saudi Arabia.

Perubahan-perubahan yang melanda jurnalisme saat ini membuat para pakar media banyak berpendapat bahwa kini yang penting bukan lagi merumuskan apa dan siapa wartawan itu, tetapi apa pekerjaan mereka yang sesungguhnya. Aktivitas menulis tidak

ada hubungannya dengan bakat seseorang, yang ada adalah potensi. Kita semua memiliki potensi untuk bisa membuat karya menulis. Jika kita mengasah potensi dengan tekun dan baik, tentunya tidak menutup kemungkinan siapa saja akan mampu menjadi penulis yang tangguh dan handal. Keyakinan adalah modal utama dalam memulai segala sesuatu termasuk dalam dunia menulis. Yakinlah setiap kita pasti bisa melakukan aktivitas menulis. Tapi persoalannya adalah kita terlalu dibayangi rasa takut salah dalam menuangkan ide dan gagasan kita sendiri sehingga kita tidak pernah memulai untuk menulis? Mental takut salah dan tidak percaya diri harus disingkirkan jauh-jauh. Agar kita dan siapa pun yang memiliki keinginan membuat karya tulis bisa segera dimulai saat ini juga. Buku yang ada di tangan pembaca ini, dapat dijadikan motivasi sekaligus melengkapi referensi tentang "Memulai Membuat Karya Tulis di Media", khususnya menulis artikel dan opini di media cetak. Buku ini bukan hanya memberikan tuntunan cara bagaimana membuat artikel secara praktis, tetapi semoga bisa menyadarkan siapa saja termasuk diri kita bahwa kita semua telah diberikan potensi oleh Tuhan untuk menjadi seorang penulis yang handal dan mungkin terkenal. Dan alangkah hebatnya jika potensi ini akan semakin melejit menjadi keahlian kita jika kita mampu secara rutin mengasahnya tanpa pernah bosan untuk mencoba.

The implications of the "halalization" phenomenon in Indonesia today involve not only the food sector but also other sectors. Starting with travel, medication in case of illness, fashion, make-up equipment for women to support their appearance, and other lifestyle models. A person's habit of consuming goods/services oriented towards a halal frame of mind is also known as a halal lifestyle. Practising a halal lifestyle can ensure and manage the morality of everything that is done by someone involved in it. At the same time, the halal lifestyle also maintains human self-esteem, dignity, and respect; human self-control; and maintaining human integrity and individuality. Practising the halal lifestyle in this life is every Muslim's right, but it is a privilege for any non-Muslim. Therefore, let's start a halal lifestyle from an early age because halal is good for oneself and others.

Dengan hanya menyebutkan nama Megawati, Prabowo, Gus Dur, Amien Rais, dan Surya Paloh, tentu kita sudah dapat membayangkan partai-partai apa saja yang direpresentasikan oleh masing-masing elite tersebut. Pada era reformasi ini, justru identitas individu elite melekat pada partai politik dengan sangat kuat. Sosok ketua umum atau jabatan strategis lainnya tidak hanya menjadi pemimpin dan pengelola partai politik, tetapi lebih dari itu menjadi citra (image) partai politik. Hal ini sesungguhnya menandakan adanya gejala personalisasi politik pada partai-partai politik di Indonesia. Personalisasi partai politik tidak hanya berlangsung pada satu dua partai saja, tetapi dialami atau pernah menggejala hampir di semua partai berpengaruh di Indonesia dalam dua dekade terakhir. Mengapa partai-partai politik di Indonesia mengalaminya? Padahal, Undang-Undang Partai Politik kita telah dirancang sedemikian rupa agar partai politik menjadi institusi yang demokratis. Lalu apa dampak personalisasi partai terhadap sistem kepartaian dan demokrasi negara ini. Buku ini mengulas secara komprehensif sebab dan dampak dari terperangkapnya partai-partai pada kecenderungan personalisasi politik.

Kontroversi Khilafah Keinginan mengatur ulama muncul sejak zaman orde Baru pada tahun 1975. Di zaman Menteri Agama Mukti Ali itu Pemerintah ingin ada wadah yang bisa menjadi wakil umat Islam. Sebab, sebagian besar ulama berada di partai seberang pemerintah. Maka terbentuklah kemudian Majelis Ulama Indonesia (MUI). Tapi, tak mudah mengatur ulama hingga mundurnya Prof. Dr. Hamka dari jabatan ketua umum. Peristiwa Tanjung Pirok tahun 1984, Menteri Agama Munawir Syadzali melontarkan bahwa peristiwa itu muncul akibat ustad karbitan yang berhasil membenturkan umat dengan Pemerintah. Meski tidak muncul keinginan mengatur ulama, namun akhirnya muncul program kaderisasi ulama yang positif dalam hal mengatasi kelangkaan ulama dan memberi bobot keulamaan. Pada era Presiden Soesilo Bambang Yudhoyono, tahun 2012, muncul lagi keinginan sertifikasi ulama dikaitkan dengan program redadikalisasi. Badan Nasional Penanggulangan Terorisme (BNPT) ingin mensertifikasi dai dan ustaz sebagai upaya menanggulangi aksi terorisme. Ketua Umum Pengurus Besar Nahdlatul Ulama (PBNU) Dr. Said Aqil Siroj, menolaknya. Menurut Kiai Said, gelar ustaz, guru, ulama dan kiai itu berasal dari masyarakat, bukan pemerintah. Pemerintah tidak boleh mengintervensi predikat yang telah diberikan oleh masyarakat selama ini. NU anggap negara mencoba melakukan intervensi ke wilayah civil society. Ide itu tidak akan menyelesaikan masalah dan anggap gagasan putus asa. BNPT ingin mencontoh Singapura dan Saudi Arabia.
