*Deus Ex: Black Light (Deus Ex: Mankind Divided prequel)* Gale / Cengage Learning  
 A Vietnam War veteran paints a searing portrait of his one-year tour of duty as an Army draftee, shedding light on the emotional and physical casualties of war In this intimate memoir, Perry A. Ulander chronicles with powerful clarity the bewildering predicament he confronted and the fellowship and guidance that transformed him during the year he served as an American GI in the jungles of Vietnam. Conveying with unadorned precision the harrowing experiences that shatter his core beliefs, Ulander also captures the camaraderie and humor of his platoon, the hostility between "lifers" and draftees, the physical hardships of reconnaissance missions, and the unrelenting apprehension underlying everyday life. Ultimately, he describes the surrendering of social norms and accepted identities that allows him to glimpse a previously unimagined realm of heightened awareness. Written after a lifetime of reflection on the nature of war and the effect of

violence and domination on the minds and spirits of those forced to practice it, Walking Point offers a powerful narrative for readers with an interest in the effects of war and violence, American involvement in Vietnam, PTSD, and how trauma can be a catalyst for spiritual transformation. Giving voice to profound insights gained through extreme adversity, Ulander movingly captures the depth of trust and commitment among a group of unwitting warriors who struggle to stay alive and sane in uncharted territory.

Somewhere between hunting for gold in Latin America as a geologist and getting married to a new husband, thirty-three-year-old Susan Purvis loses her way. Susan comes to believe that a puppy and working on ski patrol at the last great ski town in Colorado will improve her life. When she learns about avalanches that bury people without warning, she challenges herself: "What if I teach a dog to save lives?" This quest propels her to train the best possible search dog, vowing to never leave anyone behind. With no clue how to care for a houseplant, let alone a dog, she chooses a five-week-old Labrador retriever, Tasha. With the face of a baby bear and the temperament of an NFL linebacker, Tasha constantly tests Susan's determination to transform her into a rescue dog. Susan and Tasha jockey for alpha position as they pursue certification in avalanche, water, and wilderness recovery. Susan eventually learns to truly communicate with Tasha by seeing the world through her dog's nose. As the first female team in a male-dominated search-and-rescue

community, they face resistance at every turn. They won't get paid even a bag of kibble for their efforts, yet they launch dozens of missions to rescue the missing or recover the remains of victims of nature and crime. Training with Tasha in the field to find, recover, and rescue the lost became Susan's passion. But it was also her circumstance—she was in many ways as lost as anyone she ever pulled out of an avalanche or found huddled in the woods. “Lostness” doesn't only apply to losing the trail. People can get lost in a relationship, a business, or a life. Susan was convinced that only happened to other people, until Tasha and a life in the mountains taught her otherwise.

The first book in the classic vigilante action series from a “writer who spawned a genre” (The New York Times). Overseas, Mack Bolan was dubbed “Sgt. Mercy” for the compassion he showed the innocent. On the home front, they're calling him the Executioner for what he's doing to the guilty. In the jungles of Southeast Asia, American sniper Mack Bolan honed his skills. After twelve years, with ninety-five confirmed hits, he returns home to Massachusetts. But it's not to reunite with his family, it's to bury them—victims in a mass murder/suicide. Even though Bolan's own father pulled the trigger, he knows the old man was no killer. He was driven to madness by Mafia thugs who have turned his idyllic hometown into a new kind of war zone. Duty calls . . . Introducing an action hero “who would make Jack Reacher think twice,” this is the first book in the iconic series of vigilante justice that has become a publishing phenomenon (Empireonline.com). With more than two hundred million Executioner books sold since its debut, the series continues to stimulate. Gerry Conway, cocreator of Marvel Comics' The Punisher, credits the Executioner as “my inspiration . . . that's what gave me the idea for the lone, slightly psychotic avenger.” The series is also now in development as a major motion picture. War Against the Mafia is the 1st book in the Executioner series, but you may enjoy reading the series in any order.
