 These five volumes are designed to bring to light, the original meaning of courtship. How to understand the core of its designated fundamental personality and character? Why dating or courtship is no longer the foundation of marriage? Why the true meaning of

courtship is misrepresented, violated and abused? What are the best implements to be used for having a successful courtship? What is the purpose of the bridge of courtship? Why should we understand, respect and apply the divine connotation of courtship? How can we use the true reflection of courtship based on the effectuality of respectfulness and sensibleness? Why should we keep understanding as well as building our personality and character,

before or during courtship and marriage? These volumes are designed for all ages and groups of people, how to fortify the frontiers of their mental, moral, and emotional character, even before taking any step toward dating or courtship. The author is empathizing with the reader not only based on moral standards, but with regard to the inborn weaknesses emerging with constancy from our imperfection and the condemnation of our irrational high expectations. Thus, he

has brought to light the
unique wisdom, of how to

come out from a weak
enslaving position, and to
head forward toward a

powerful lasting
disposition.
