The Interceding Christian

Oxford University Press
 The central goal of
 studying God's Word is to

know God better. Since God gave us the Bible as a written book that contains much history, He expects us to use literary and historical principles when we study it. In "The Bible in Its Context," we look at how to study God's Word for ourselves, by examining the context of Bible verses, whole-book context, cultural background, and some specific principles for understanding different kinds of writings found in the Bible (such as psalms, proverbs, laws, and prophecies). This book teaches essential principles for learning what God was saying to the first readers of the Bible, a necessary step in hearing how to apply God's message today.

Beyond Church

What comes to mind when you hear the word "church?" The Bible tells us in Matthew 16:18 that

Jesus said He would build His church. What would the disciples have thought Jesus meant since they had not heard the word "church" before? When Matthew wrote his gospel, he used the Greek language. The word he chose that is translated as "church" in English is *ekklesia*. *Ekklesia* was a common word during the time that Jesus walked the earth. Over time, we have lost the true meaning of this word and how it applies to us today. In Genesis 1:28, God commissioned man at creation with fruitfulness, multiplication, and the task of subduing and ruling the Earth. In Matthew 28:18-20, Jesus gave us a commission that restates God's original assignment to disciple the nations. I wrote this book to help people understand the true meaning of what Jesus said He would build. We will discuss the history, usage and application of this word for today. This book, however, is just the beginning. It will help us rediscover Jesus' original intent when He said, "upon this rock I will build My church, and the gates of Hades will not overpower it."

What is a church? This can be a difficult question to answer and Christians have offered a variety of perspectives. Gregg Allison thus explores and synthesizes all that Scripture affirms about the new covenant people of God, capturing a full picture of the biblical church. He covers the topics of the church's identity and characteristics; its growth through purity, unity, and discipline; its offices and leadership structures; its ordinances of baptism and the Lord's Supper; and its ministries. Here is a rich approach to ecclesiology consisting of sustained doctrinal reflection and wise, practical application. Part of the Foundations of Evangelical Theology series.

Growing Up Spiritually Zondervan

Based on the National Study of Youth and Religion--the same invaluable data as its predecessor, *Soul Searching: The Religious and Spiritual Lives of American Teenagers*--Kenda Creasy Dean's compelling new book, *Almost Christian*, investigates why American teenagers are at once so positive about Christianity and at the same time so apathetic

about genuine religious practice. In *Soul Searching*, Christian Smith and Melinda Lundquist Denton found that American teenagers have embraced a "Moralistic Therapeutic Deism"--a hodgepodge of banal, self-serving, feel-good beliefs that bears little resemblance to traditional Christianity. But far from faulting teens, Dean places the blame for this theological watering down squarely on the churches themselves. Instead of proclaiming a God who calls believers to lives of love, service and sacrifice, churches offer instead a bargain religion, easy to use, easy to forget, offering little and demanding less. But what is to be done? In order to produce ardent young Christians, Dean argues, churches must rediscover their sense of mission and model an understanding of being Christian as not something you do for yourself, but something that calls you to share God's love, in word and deed, with others. Dean found that the most committed young Christians shared four important traits: they could tell a personal and powerful story about God; they belonged to a significant faith

community; they exhibited a sense of vocation; and they possessed a profound sense of hope. Based on these findings, Dean proposes an approach to Christian education that places the idea of mission at its core and offers a wealth of concrete suggestions for inspiring teens to live more authentically engaged Christian lives.

Persuasively and accessibly written, *Almost Christian* is a wake up call no one concerned about the future of Christianity in America can afford to ignore.

The Bible in Its Context

Description: Revised with commentary. The book "Shield of Faith" by James Stephenson is a Christian book that emphasizes the importance of spiritual rebirth. The author argues that true faith in God requires a personal transformation, which can only be achieved through a spiritual rebirth. Stephenson draws on biblical teachings and personal experiences to illustrate the process of spiritual rebirth. He explains that this process involves acknowledging one's sins, repenting, and accepting Jesus Christ as one's savior. The author

also emphasizes the importance of prayer, Bible study, and fellowship with other believers in nurturing one's faith. Throughout the book, Stephenson encourages readers to examine their own lives and to seek a deeper relationship with God. He provides practical advice on how to overcome obstacles to faith, such as doubt and temptation. The author also addresses common misconceptions about Christianity and offers insights into how to share one's faith with others. Overall, "Shield of Faith" is a book that seeks to inspire and guide Christians in their spiritual journey. It emphasizes the transformative power of faith and encourages readers to embrace a life of purpose and meaning. The book also discusses the importance of prayer, forgiveness, and love in building a strong relationship with God.

In this theological tour de force D. Stephen Long addresses a key question in current theological debate: the conditions of the possibility of God-talk, along with attending questions about natural theology, fideism, and

theological truth-claims. He engages not only the most significant contemporary theologians and philosophers on this score (Denys Turner, Bruce Marshall, Charles Taylor, Fergus Kerr) but also the legacy of twentieth-century theology (Barth, von Balthasar) and the analytic philosophical tradition from Wittgenstein to Davidson. Throughout, Long sustains a careful exegetical engagement with Aquinas, showing that what's at stake in contemporary theology is just how we inherit St. Thomas. / Central to Long's project is averting the charge of fideism so often laid at the feet of postliberal approaches (like his own). To that end Long argues for a (chastened) natural theology, while challenging any simple distinction between natural and confessional theology. / In joining these many voices into one conversation, Long does a remarkable job of surveying the current theological scene with respect to issues of language and truth, arguing for the need to deal head-on with classical questions of metaphysics. . . . An

excellent and significant book. James K. A. Smith / Calvin College / Long's discussion of the topic of God and language offers a refreshingly original treatment of traditional approaches. His book cannot be ignored by anyone interested in this topic at any level. John Milbank / University of Nottingham
