| exercise solution part-1 chapter 10| class
12 (Hindi)Chapter 10 Haloalkanes And
HaloarenesHaloarenes are less polar than
haloalkanes and are insoluble in water.
This is because of lack of hydrogen
bonding. As a result, the attractive forces
in haloarenes—water system remain less
than the attractive forces in H₂O
molecules which are hydrogen
bonded.NCERT Solutions For Class 12
