Here are just a few of DRAGONOLOGY'S fascinating features: novelty item on every spread, including tactile samples of dragon wings, dragon scales, and dragon skin; booklet of dragon riddles (indispensable to the burgeoning dragonologist); sealed

envelope containing a powerful dragon-calling spell; embossed faux leather cover with silver foil, encrusted with three dragon gems In his afterword, Dr. Drake reveals that one of the crucial goals of dragonologists is to preserve the magnificent creatures of their study wherever possible - a goal this tongue-in-cheek volume most affectionately achieves. Just in time for Halloween! Find sundry novelties, flaps, facsimiles, and more in a haunting--or is it haunted?--volume that gives new meaning to the term ghost writer. Have you been hearing strange footsteps and knocks, whispers and rattling chains? Perhaps the early-twentieth-century author of this newly discovered tome has some secrets to share. Within the book's weathered pages you'll hear of a headless French pirate in search of his missing noggin, a vanishing pair of young

trickster twins, a ghostly woman who screams for attention, and other communications from the "fun side." Readers who wish to plumb the mysteries of the paranormal will find some hands-on challenges to lift their spirits, along with tips on a range of spectral subjects, such as what to pack in a ghostologist's field kit, how to distinguish the types of ghosts, the best ways to hunt them, and spotting the unfortunate fakes and frauds. Too bad the late author never got to see her guide find its way into the world! But wait--what are those strange and scratchy asides that appear in odd places throughout the book?
